Addendum to the University of Richmond Academic Calendars 2000-2002

The list below is intended to familiarize the University community with major religious holidays affecting many throughout the campus. Inclusion on this list does not imply that the day is a University holiday, but is provided to alert members of the Richmond community to possible scheduling conflicts. See the Class Attendance and University Holidays section of the catalog for details.
Jewish holy days, religious festivals, and the weekly Sabbath begin at sunset. On these days, observant Jews do not engage in daily activities or fulfill routine commitments. Many Jews who do not observe all holy days prefer to celebrate at their synagogue or at home on Rosh Hashanah, Yom Kippur, and the first two evenings of Passover. **This holiday does not require absence from routine commitments.**

All Islamic dates begin at sunset the preceding evening. The Islamic year is based on the lunar cycle, consisting of twelve months of 29 or 30 days each, totaling 353 or 354 days. Each new month begins at the sighting of a new moon. Actual dates may differ by a day or two from the above dates. In many places, the moon sighting is often determined in advance by astronomical calculations.
UNIVERSITY OF RICHMOND

Statement of Purpose

The University of Richmond is an independent, privately endowed institution of higher education that provides a comprehensive academic program for men and women. It offers the intimacy of a small university and the diverse educational opportunities that derive from undergraduate degree programs in liberal arts and sciences, business and leadership studies as well as graduate and professional programs in law, business, and selected areas of the arts and sciences.

The University also provides a variety of credit and continuing education programs as well as cultural events to the larger community.

The educational objectives of the University are to:

~ cultivate in students the interest, capacity, and skills necessary for independent intellectual inquiry and life-long learning;
~ convey to students a representative portion of the body of knowledge that has accumulated and endured through the history of world cultures;
~ encourage and aid students in the development of basic beliefs, values, and attitudes, including those of cooperation and tolerance;
~ assist students in selecting and preparing for careers as well as study in graduate and professional schools;
~ foster in students personal habits that contribute to health and physical fitness.

To achieve these objectives, the University is committed to:

~ an educational environment conducive to the development of the whole person—intellectually, socially, spiritually, physically and morally;
~ an academic setting that guarantees and encourages freedom of thought, expression and association;
~ an undergraduate curriculum that requires mastery of essential intellectual tools, awareness of the diversity of human cultural experiences, extensive knowledge of at least one area of study, and opportunities for interdisciplinary and integrative inquiry;
~ a faculty dedicated to excellent teaching and dialogue with students, an active engagement in scholarship, scientific inquiry and artistic creativity;
~ a diverse, largely full-time and residential student body that participates in a broad range of University activities including opportunities for research, leadership, and development of civic responsibility;
~ the essential resources for learning, including libraries, laboratories, studios, information and communications technology, and media resources;
~ opportunities for internships, social commitment and public service, and other domestic and international learning experiences;
~ a program of varied social, spiritual and physical activities that provide occasions for growth, fun and fellowship;
~ an administration and staff who preserve and enhance the University's environment and resources, and who represent the institution to the broader community it serves.

Organization and Accreditation

Five academic schools and two residential colleges form the University of Richmond, with authority and responsibility vested legally in the Board of Trustees and the President of the University. The several colleges and schools award no degrees individually, but all degrees for work done in any one of them are conferred by the University of Richmond.

The University enrolls approximately 2,900 full-time undergraduates, 92 percent of whom live on campus; 500 full-time law and graduate students; and 1,300 part-time students, largely from Richmond and the surrounding community.
The University of Richmond is fully accredited by the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, GA 30033-4097; Telephone 404-679-4501) to award associate, baccalaureate, master and juris doctor degrees. The University is also certified by the Virginia State Board of Education to offer teacher licensure programs. Various departments and divisions have more specialized accreditation. Included in this category are the music program, accredited by the National Association of Schools of Music; and the chemistry program, accredited by the American Chemical Society. In addition, The E. Claiborne Robins School of Business is accredited by the American Assembly of Collegiate Schools of Business at the undergraduate and graduate levels, and The T.C. Williams School of Law is accredited by the American Bar Association.

Environment and History
The University of Richmond campus consists of about 50 major buildings of Collegiate Gothic architectural style set amid 350 acres of lawns, lake and woodlands. The beautiful and harmonious setting has been recognized nationally by college guides. Richmond’s history began almost two centuries ago with Richmond College, founded in 1830 by Virginia Baptists as a college of liberal arts and sciences for men. Around this nucleus were established The T.C. Williams School of Law (1870); Westhampton College, a college of liberal arts and sciences for women (1914); the Graduate School of Arts and Sciences, for advanced study in the liberal arts and sciences (1921); The E. Claiborne Robins School of Business, for undergraduate and graduate study in business (1949); University College, now known as the School of Continuing Studies, for evening, summer, and continuing education (1962); and the Jepson School of Leadership Studies, the first school of leadership studies in the United States (1989).

In 1990, the academic missions of Richmond College and Westhampton College were combined in a separate school, the School of Arts and Sciences. Richmond College and Westhampton College are the residential colleges for men and women respectively, providing special programming and leadership opportunities in student life.

Richmond benefits from a heritage of ethical and religious values, a residential character, and a commitment to liberal and general education through intimate schools and colleges joined into a substantial whole.

Information Services - Library and Computing Resources
In 1997, the University Libraries and University Computing were combined under one umbrella, Information Services. The two areas work in tandem to provide the University community with access to a wide variety of information, maximizing the use of technology.

Library Resources
The University libraries are the center of intellectual activities outside the classroom. They are composed of the Central Library, Business Information Center, and Media Resource Center in Boatwright Memorial Library; the Science Library in the Gottwald Science Center, and the Music Library in the Modlin Center for the Arts. The Law Library in The T.C. Williams School of Law is administered separately.

Boatwright Memorial Library, facing Westhampton Lake and in the center of campus, is the central library containing over 450,000 volumes; nearly 1,800 social sciences, humanities, fine arts and business periodicals; microform collections; and numerous electronic databases. The University of Richmond has been a designated depository library for U.S. government documents since 1900; Boatwright Library contains over 300,000 items in print, microfiche, and in electronic formats, including publications from Congress, the Department of State and the Census Bureau.

The Galvin Rare Book Room contains nearly 25,000 rare books, first editions, maps, photographs and manuscripts. Boatwright Library seats up to 800 students and has individual and group study rooms.
An integral part of the library system is the Business Information Center of The E. Claiborne Robins School of Business, located on the second floor of Boatwright Library. The Center provides reference services to the campus and Richmond business community, and contains an extensive reference collection and a number of electronic databases.

The Billikopf Media Resource Center, located on the second and third floors of Boatwright Library, provides audiovisual materials, equipment and production services to the campus community. The MRC contains collections of films and videos, spoken art audiocassettes, recorded books, and a variety of media equipment. Many international programs are received from satellite transmission, and the campus cable system is utilized for instruction and academic assignments. The facilities of the MRC include the Adams Auditorium, classrooms, seminar rooms, and the Curriculum Materials Center located on the third floor of Boatwright Library.

The Music Library holds over 10,000 volumes of printed music, books and journals and nearly 10,000 musical sound recordings on LP, CD and audiocassette.

The Science Library has a collection of approximately 80,000 volumes and subscribes to over 900 journals and several electronic databases.

The libraries provide individual and group instruction on the use of various library and information resources, including the Internet and other electronic databases. A computer classroom is located in Boatwright Library for both group instruction and individual student use. The online catalog provides access to the collections of all the libraries on campus. The libraries belong to several local, state, regional and national consortia, and can obtain materials not held locally. Collections in various Richmond area libraries also are available for research and consultation, including those of Virginia Commonwealth University, the Medical College of Virginia, the Library of Virginia and Archives, Union Theological Seminary, Randolph-Macon College and the Richmond public libraries.

Housed in a separate wing of Boatwright Memorial Library, the Virginia Baptist Historical Society’s facility is designated as a memorial to the Virginia Baptists who struggled to secure religious liberty in America. The library holdings include 18,000 books by and about Baptists, 5,000 manuscripts, and over 400 collections of personal papers. More than 3,100 original Virginia Baptist church record books are on deposit in the collection, making it one of the largest archives of congregational records of any denomination. The Society also manages the University Archives, a large collection of books, papers, photos and memorabilia related to the history of the University of Richmond.

Libraries are open to the entire campus community.

The Lora Robins Gallery of Design from Nature, entered separately on the lower level of Boatwright Library, houses an extensive collection of gems and jewels, minerals, seashells and corals, fossils and cultural artifacts.

Computing Facilities

The largest computing facility on campus is located in Jepson Hall. The ground floor of the building is dedicated to computer services. Jepson Hall houses three IBM-compatible teaching labs equipped with multimedia projection systems. When classes are not in session, these rooms may be opened for general student use. Two student computing labs also are open for general use and are equipped with a combination of Macintosh and IBM-compatible computers and Sun SPARStations. University Computing also maintains a training lab that is used primarily for administrative and technology training sessions, and a Technology Learning Center that is largely a faculty resource.

Richmond provides computer lab facilities for teaching, research and learning at several other campus locations. IBM-compatible systems are the primary platform at the University of Richmond.
sity, although there are Macintosh labs for departments who prefer them. Computer labs are located in many of the academic buildings and are dedicated to the special requirements of a particular department or discipline. The departments of Physics, Music, Psychology, Journalism, and Education have facilities that are populated primarily with Macintosh computers. The Gottwald Science Center, the departments of Modern Languages and Literatures and Classical Studies have lab facilities that utilize IBM-compatible systems or a mixture of IBM and Macintosh. Math and Computer Science students have access to systems running Unix and Windows NT.

In 1997 Boatwright Memorial Library opened the new Boatwright Computer Classroom. This multimedia classroom has IBM-compatible student stations. When it is not scheduled for classes, this classroom is open for general student use during normal hours of operation.

A major renovation of the building that houses The E. Claiborne Robins School of Business was completed in 1999. The building has 10 multimedia classrooms with desktop access to network services, including e-mail and Internet access for all student stations. The building also contains a new IBM-compatible computer lab.

In addition, the University is committed to an ongoing initiative to equip classrooms around the campus with multimedia capability, including network and Internet access.

Undergraduate Colleges

Though Richmond is composed of five general academic schools as well as two residential colleges, this bulletin provides specific program information about only the School of Arts and Sciences, undergraduate study in The E. Claiborne Robins School of Business, and the Jepson School of Leadership Studies. Pertinent information about the residential colleges, Richmond College and Westhampton College, is also presented below and on selected pages following. Detailed information about each of the other academic schools is available upon request to the respective dean’s office.

Academic Schools

School of Arts and Sciences

The School of Arts and Sciences enrolls about 2,500 men and women and offers Bachelor of Arts and Bachelor of Science degrees in a wide range of subjects in the liberal arts and sciences. The Bachelor of Music degree is offered for those who wish to pursue intensive study in music. The Arts and Sciences faculty also provides instruction in the Graduate School of Arts and Sciences leading to a small number of master’s degrees in five areas.

Students beginning their college careers are admitted to the School of Arts and Sciences. Those interested in earning degrees through The E. Claiborne Robins School of Business may declare their majors in the business school after their first year. Those students interested in leadership studies are required to be prepared in the liberal arts and sciences and be admitted to the Jepson School of Leadership Studies in the spring of their second year. Both of these schools are described below. Others will continue in the School of Arts and Sciences to complete the studies they have chosen.

The E. Claiborne Robins School of Business

The E. Claiborne Robins School of Business enrolls about 450 men and women. The school’s principal objective is to provide a professional college education that will enable qualified students to meet the challenges of a complex and international business world.

The degree of Bachelor of Science in Business Administration is offered with majors in accounting, business administration and economics. The business administration major has several areas of emphasis that students may pursue. Once a student declares his or her major, The E. Claiborne Robins School of Business provides a number of internal activities that student may participate in, including its own student government and honor council. The School of Business also has a chapter of Beta Gamma Sigma, a national honor society. Membership in Beta Gamma Sigma is the high-
The School of Business faculty also provides instruction in the Master of Business Administration degree program of The Richard S. Reynolds Graduate School of The E. Claiborne Robins School of Business.

**Jepson School of Leadership Studies**

The Jepson School of Leadership Studies offers the Bachelor of Arts degree with a major in leadership studies. The major is broadly based but highly integrated with leadership as a unifying theme. In an exceptional academic environment, the Jepson School challenges students to reach their potential and prepares them for future responsibilities through education for and about leadership.

**Residential Colleges**

The University seeks to provide education on a human scale through three academic schools and two residential colleges for undergraduates. It emphasizes the benefits of active involvement and participation in smaller communities as a way to draw the most from life in the University. Through such involvement and participation, a greater sense of satisfaction and community can be experienced as students celebrate traditions and make their own impact.

Each student admitted to one of the three academic schools simultaneously becomes a member of a residential college regardless of whether the student lives in a residence hall. The organization of residential colleges by gender clearly affords a basis for sharing common experiences and life issues. Richmond College, the residential college for men, and Westhampton College, the residential college for women, offer students unique opportunities to have meaningful bonding experiences in their communities and organizations of the same gender. Such opportunities enhance the identity formation and personal development of the participants to a greater extent than the more typical coeducational curricular and co-curricular experience.

The coordinate colleges offer a ready way to focus on the important theme of gender in personal development. At the same time, the colleges’ educational concerns encompass other critical issues in human education and experience, such as the growing challenges of a global society, the meaning of democratic values, the importance of ethical and religious issues in human life, and the significance of academic excellence.

Each residential college has its own dean and staff, student government, activities and traditions; the colleges work together where there are mutual concerns. The colleges seek ways to relate to the student as a person and not simply as a mind, body, or a set of emotions and interests. They develop for their students linkages between and among residential life, academic life, student government and social life, integrating the facets of students’ lives. The college deans exercise academic responsibilities on behalf of the academic schools and are able to bring University resources from a variety of domains to bear on the life of individual students.

The gender-based residential colleges combine the benefits of a coeducational academic experience with the advantages of a single-gender experience. The greater number and variety of co-curricular activities provide more opportunities for student involvement. In particular, the University offers through its human-scaled structure many more student governance positions than usual and guarantees leadership roles for both men and women. Such positions allow students the chance to affect their quality of life and to help shape their University.
The University of Richmond seeks to enroll men and women who have demonstrated the potential to succeed in their chosen course of study and have shown evidence of their capability to contribute to the University community. Admission to the University is competitive and selective.

Criteria for admission are both objective and subjective. Such qualities as academic ability and achievement combined with personal qualities of leadership, creativity, and independence are sought. For students entering as first-year students, the secondary school experience, the results of standardized tests, and the particular characteristics of each applicant will be considered.

The largest number of successful applicants will have taken a challenging college preparatory program and rank in the top fifth of their secondary school class. There are no minimums or cut-off scores for any factor included in the admission decision. Successful applicants represent a wide variety of backgrounds. The prospective student is advised, therefore, to complete the most challenging college preparatory program which can be taken at the secondary school which he or she attends. Students admitted must show evidence of high school graduation or exemplary completion on all five achievement tests of the general education development (G.E.D.) battery.

For students who have attended other institutions of higher learning and wish to transfer to the University of Richmond, the academic achievement and courses completed at the prior institution will be important to the admission decision. In short, whether first-year or transfer, those students with the potential to be the most successful in this educational environment will be offered admission.

Virginia law mandates that each student submit an immunization record prior to enrollment. In compliance with this requirement, the immunization record is included in the health history form provided to entering students and is to be returned to the Student Health Center. Admission information for specific academic schools is presented in the following pages.

Campus Visits

Prospective students are invited to visit the campus, participate in the admission conference, take a tour of the campus, and confer with professors, coaches, or other persons in their fields of interest. The admission conference consists of a group presentation and discussion about the University of Richmond and is led by an admission officer. Personal or individual concerns may be discussed with the staff member after the presentation. When the University is in session, student-conducted campus tours usually follow each conference.

The schedule for admission conferences and tours during the academic year follows. Plans to visit the campus may be made by calling an appointment secretary in the Office of Admission, (804)289-8640 or (800)700-1662.

M, W, F  9:30 a.m.  1:45 p.m.
T, R  10:30 a.m.  1:45 p.m.

During January, February, and March, schedules are abbreviated and times vary.

While the admission process does not include a personal interview, a campus visit is encouraged because it provides an opportunity for the prospective student to learn about the University, have questions answered, and see the campus.

Admission Requirements

Candidates for admission must have completed a minimum of 16 units of secondary school work. Minimum requirements include four units in English, three in college preparatory mathematics (inclusive of Algebra I, II, and Geometry), and at least two each in history, laboratory science, and foreign language. Competitive candidates for admission usually have three to four units in science, history and foreign language.
The applicant must have the secondary school send an official transcript of work completed, courses in progress, and the school's recommendation. Students who have taken work at or under the auspices of a college or university must provide a statement describing the work, and an official transcript from the college or university must be sent directly to the Office of Admission, University of Richmond.

The Scholastic Assessment Test (SAT-I) and two SAT-II Subject Tests must be taken by all first-year candidates for admission. The SAT-II Subject Tests must include the writing test and the mathematics test (any level). It is strongly recommended that a classical or modern foreign language SAT-II test be submitted for placement or exemption purposes. American College Testing (ACT) scores may be submitted in lieu of the SAT-I and the two SAT-II scores.

Application for admission may be made on either the Common Application Form or on the University of Richmond application form. The non-refundable $40 application fee must accompany the application for admission.

**Admission Plans**

**Regular Admission**

The application deadline for regular admission is February 1; candidates are notified of the admission decisions around April 1.

**Early Decision**

The early decision plan is designed for well-qualified students who have decided that the University of Richmond is their clear first choice. Two plans are available. Fall early decision has a deadline of November 15. Winter early decision has a deadline of January 15. The applicant must file (prior to the deadline) an application form, an official copy of the academic record through the junior year, and the required standardized test scores. Candidates will be notified around December 15 for fall early decision and February 15 for winter early decision.

Accepted candidates must submit the required non-refundable deposit to confirm their admission to the University of Richmond. Deferred candidates' applications will be reconsidered under the regular admission plan. Further information may be obtained from the Office of Admission.

**Early Admission**

The early admission program provides for the admission of exceptional students who have completed their secondary school experience in three years, prior to their college matriculation. Additionally, appropriate candidates must possess an unusually strong college preparation, as demonstrated through a challenging and rigorous course of study, while presenting scores on the SAT-I and the two specified SAT II Subject Tests or an ACT of a highly competitive nature. The student is required to have an interview with an Admissions Office and submit a letter from the secondary school counselor endorsing the students' early admission application.

**Transfer Admission**

A student who wishes to transfer from another college or university may apply for transfer admission. A student must have completed a minimum of at least 24 semester hours of transferable credit at the time of matriculation. The transfer credit must have been earned at an institution regionally accredited at the time the work was completed. Transfer candidates must have earned at least a C (2.00) average on all college-level work to be eligible for review, yet competitive candidates will have well above this minimum requirement. Interested students may wish to visit the campus and talk with an admission officer; however, a personal interview is not required. In order to receive a degree from the University of Richmond, a student must complete at least 60 semester hours at the University, including the work of the senior year.

The deadline to submit a transfer application is February 15 for fall enrollment or November 1 for spring enrollment. The applicant must file an application form, pay the $40 non-
refundable application fee, and have secondary school and college transcripts forwarded directly to the Office of Admission. Credit for work completed at another college or university will be subject to the following conditions:

A student must have sent official certificates showing:

(a) Secondary school credits
(b) College record
(c) Honorable dismissal, or approval to continue in good standing

Credit is allowed only for work equivalent to courses offered at the University of Richmond. Credit is not granted for courses taken in another college in which the student earned a grade below the equivalent of C (2.0). The acceptance of courses in which a C (2.0) was earned and the application of such courses to degree requirements are subject to approval by the Office of the University Registrar and/or the appropriate academic department.

Credit for all courses is regarded as provisional at the time of the applicant’s admission and is not considered final until the satisfactory completion of one semester’s work at the University.

International Admission

The University of Richmond encourages international students with diverse cultural heritages and multicultural experiences to apply to the University as both first-year and transfer students.

First-year applicants must complete an academic secondary program which would prepare one for entrance to universities in the country of residence. Secondary study (grades 9, 10, 11, and 12) should include at minimum three or four years of coursework in the native language (or foreign language), mathematics, social sciences, laboratory sciences, and English language. Refer to the “Admission Requirements” section above.

A student may apply as a transfer candidate after successfully completing at least one year of full-time study at a recognized academic university in the United States or abroad. Refer to the “Transfer Admission” section above.

In addition to test requirements described in Admission Requirements above, all non-native English speakers must submit results for Test of English as a Foreign Language (TOEFL). The University expects non-native English speakers to possess strong analytical and rhetorical writing skills and highly-developed oral communication proficiency in English. Because the University offers only short-term, advanced English as a Second Language (ESL) study during summer and the academic year, applicants must demonstrate English proficiency prior to enrolling (consideration will be given to those candidates with a minimum score of 550 on the manual TOEFL or 213 on the computerized TOEFL).

Home Schooled Students

Students who have been educated in a nontraditional secondary school setting are welcome to apply for admission. In addition to submitting a complete admission application, home school students are required to complete or submit the following items:

(a) The ACT or SAT I and SAT II Subject Tests, in the subject areas of writing and mathematics. A student who has taken the SAT is strongly urged to submit two additional SAT II Subject Tests in the subject areas of history and natural science.

(b) Participate in an interview conducted by one of the University’s Admission Officers. The interview is required for students who spend 50% or more of their secondary school experience in a home school setting, or are graduating from a home school environment.

(c) Submit a narrative description of the home schooling environment, such as parental instruction, community teaching, etc. Additional items which could be included are syllabi for all courses taken and a list of the textbooks used.

(d) Optional letters of recommendation, preferably from individuals who have had academic contact with the student.
School of Business

The E. Claiborne Robins School of Business provides a professional education for students who wish to prepare for the challenges of a complex and international business world. This personalized education is offered primarily during the third and fourth years of college study.

The Bachelor of Science in Business Administration is built upon a broad foundation including two years of liberal arts courses and a business curriculum of required and elective courses. Students also will find the business curriculum broadly based. Emphasis is placed on the close interrelationships of the various business functions and operations.

After one year in the School of Arts and Sciences, students may declare their major in accounting, business administration, or economics. At the time of declaration, students will be assigned an academic advisor who teaches in the area in which the students intend to major.

In anticipation of the junior and senior years, planning should begin in the first year to meet the University’s general education requirements as specified below:

- First Year Core Course
  - Communications Skills I - Expository Writing
  - Communications Skills II - Foreign Language
  - Fields of Study (Historical, Literary, Natural Sciences, Social Analysis, Symbolic Reasoning, and Visual and Performing Arts)
  - Wellness Requirement

It is strongly recommended that a student complete the BSBA requirements (ACCT 201-202, ECON 101-102, BUAD 201, and BUAD 203) during the first two years on campus. During the last two years in The E. Claiborne Robins School of Business, a student’s course of study will be directed towards meeting the business foundation courses, courses within the major or concentration, and business or nonbusiness electives.

School of Leadership Studies

The Jepson School of Leadership Studies seeks to develop in each student a base of knowledge that provides the conceptual tools which support the exercise of leadership in a variety of settings. Curriculum goals are achieved through courses which emphasize active and experiential learning, helping students understand how to use knowledge gained through coursework in the world outside the classroom.

Students interested in the major or minor must apply and be selected by the School of Leadership Studies. In this regard, the final decision concerning admission to the school rests with the Jepson School of Leadership Studies Student Affairs Committee.

The student must submit a formal application in the fall after completing the first academic year of study at an accredited college or university.

Admission Procedures

To apply for admission to the Jepson School of Leadership Studies, a student must complete the following:

- A Jepson School application with recommendations and transcripts
- A personal essay
- LDSP 201, Foundations of Leadership Studies
- A C (2.00) average or better must have been earned on all academic work attempted; however, this average does not guarantee admission.

*Semester fees are based on a single semester contract; year fees are based on a full year contract.*

- Textbooks cost approximately $300-$350 per semester; laundry, supplies, transportation, and sundries are extra costs.
- Please consult the next chapter under the headings: *Motorized Vehicles, Student Health Center, Residence Life, Food and Auxiliary Services*, for further information.
- Regardless of the academic school in which a course is taken, the student pays the tuition and fees of the school to which he or she has been admitted and which is considered the school of record. Any special fee associated with a particular course, such as a laboratory fee, is charged based on registration in the course.
- The University reserves the right to increase the fees listed herein and the charges for room and board if conditions should make such changes necessary or advisable. The changes will be announced as far in advance as feasible.
- Fees and charges will increase for the 2001-2002 school year and will be announced as soon as possible.
Payments

Inquiries concerning payments should be directed to the Office of the Bursar, phone (804) 289-8147.

Fees are billed, and are payable in advance by the semester — the fall semester payment is due by the first Monday in August, and the spring semester payment is due by the first Monday in December. To avoid incurring a late-payment fee and delays in housing, registration, and other areas, individuals are urged to pay fees when due.

Satisfactory financial arrangements for room and board must be made before occupancy.

No credit is given for a term's work nor a degree conferred until all charges have been satisfactorily settled. Failure to make satisfactory financial arrangements can result in delay of graduation, denial of registration privileges, removal from classes, and/or the withholding of transcripts.

Remittance may be made by check drawn to University of Richmond, and addressed to:

Bursar's Office
Box R
University of Richmond, Virginia 23173

To pay tuition and fees by MC/VISA or DISCOVER, call PhoneCharge at (877) 237-9734. There is a convenience fee to use this service which is explained in detail during the phone call.

Deposits

Upon acceptance for admission at the University of Richmond, a $300 General Fee deposit is required, and a $300 housing deposit is required if on-campus housing is requested.

Students planning to continue in the upcoming school year are notified around February 1 to remit the appropriate deposits: a General Fee deposit of $100, and if on-campus housing is requested, a housing deposit of $500. These deposits are payable by the mid-March date specified in the notice.

Deposits are treated as advance payments and are non-refundable. While a single remittance may cover both amounts, the distinction between the two deposits remains quite clear. The General Fee deposit signifies an intention to attend or to continue to attend the University. The housing deposit signifies an earnest request for on-campus housing.

The University always credits the General Fee deposit first. If only a single deposit amount is received by the stated deadline, regardless of any accompanying instructions, the deposit will be placed in the General Fee category and the presumption made that no housing is requested.

Deferred Payments

In recognition of the substantial interest in deferred payments, the University has arranged to make available the services of Tuition Management Systems, FACTS Management, and Academic Management Services. These firms represent one of several sound alternatives for financing a student's education. Information is mailed to students from these companies in April.

Many parents and students may prefer to arrange local financing through their local banks or other sources; but if there is interest in these plans, further information is available upon request from the University’s Office of Student Accounts.

Students are urged to complete whatever arrangements they choose early, so that their accounts with the University may be settled in a timely manner.

Late Payment Fee

A late payment fee will be assessed on any unpaid balance. Students who fail to make satisfactory arrangements for their semester fees by the close of the business on the first day of the term will be charged a late payment fee of up to $60.

Late Registration Fee

A late registration fee of $60 will be charged to any student who fails to complete registration for any semester by the close of business on the day before the first day of the term.
Refunds
Inquiries concerning refunds should be directed to the Office of the Bursar, phone (804) 289-8147.

University of Richmond Refund Policy

Advance Deposits - Returning and Readmitted Students
General Fee Deposit - Non-refundable.
Housing Deposit - Non-refundable once a room has been selected or assigned.

Advance Deposits - First-Time Students
If the “accepted applicant” fails to matriculate, no refund of advance deposits.
If the “accepted applicant” matriculates and therefore becomes a student:
General Fee Deposit and Housing Deposits are refundable in accordance with the University Refund Policy.

General Fee, Room and Board Refund
Inquiries concerning refunds should be directed to the Office of the Bursar, phone (804) 289-8147.
Students are matriculated by semester. If a student withdraws from school or is dropped from the University for whatever cause, a refund of fees for a fall or spring semester shall be made in accordance with the University’s Refund Policy. This schedule is adapted for summer terms. Students who withdraw from the University and are receiving any financial assistance may be required to return such assistance per Public Law 668.22. The University Refund Schedule is available in the Bursar’s Office or Office of Financial Aid.
Any special fee associated with a particular course is non-refundable after the first day of the term.

Appeals Process
The University of Richmond has an appeals process for students and parents who believe individual circumstances warrant exceptions from published policy. All appeals must be in writing and directed to Annemarie Weitzel, Bursar, Box R, University of Richmond, VA 23173.

Financial Aid
The financial aid program at the University of Richmond provides need-based grants, loans and work opportunities, and also awards merit scholarships. Applicants for financial aid must be enrolled or accepted for enrollment in a degree or certificate program at the University. The need-based aid programs are designed for those families who are unable to pay the full cost of a college education. The scholarships for merit are provided in recognition and support of noteworthy academic achievement. These merit scholarships are independent of any assessment of need, although it is possible to qualify for a combination of need- and merit-based aid.

Applicants for need-based financial aid must complete both the Free Application for Federal Student Aid (FAFSA) and the University of Richmond’s Financial Aid Supplemental Application. Prospective students (including transfers) should mail the completed FAFSA by mid-February to ensure its receipt no later than the deadline date of February 25*. Generally, to be considered for need-based aid, an applicant must be a U.S. citizen, must be enrolled or accepted for enrollment on a full-time basis in a degree or certificate program, and must demonstrate financial need. Once aid is offered it is generally renewed in subsequent years if the family’s financial situa-
tion stays the same. A new financial aid application must be filed each year and the student must meet certain standards of Satisfactory Academic Progress as outlined below.

(*NOTE: The deadline for financial aid applications for returning students is May 1.)

Students who are eligible for need-based aid are offered a package of funding that typically consists of a mix of grants, loans and work. While the total amount of aid offered is based upon an assessment of financial need, the type and mix of aid is influenced by the student's ability. Thus students with superior academic records and potential will have a greater proportion of grant than loan in their aid package than will those students with records not as strong.

There are a number of merit scholarship programs, some of which pay full tuition, room and board. Students are usually either nominated for these scholarships or are selected from the pool of applicants for admission. Separate merit scholarship applications may be required.

The Virginia Tuition Assistance Grant is awarded to those students who are residents of Virginia. In 1999-00 grants were awarded in the amount of $2,700. Applications are sent from the Admissions office to students who are accepted to the University.

Financial aid awards made for an academic year may be used for study abroad if the student enrolls at one of the universities with which the University of Richmond has a direct exchange agreement. Financial aid for enrollment in non-exchange programs is limited to loans.

To receive assistance from any of the need-based financial aid programs at the University of Richmond, or from the Direct Loan or Direct PLUS programs, students must maintain satisfactory academic progress towards the completion of degree requirements. An evaluation of progress is made at the end of each academic year, including an analysis of earned credit hours and grade point average. Students not making satisfactory academic progress will be ineligible for further financial assistance until the deficit is made up. Waivers of these requirements may be granted for special circumstances upon appeal to the Director of Financial Aid.

The standards of academic progress outlined here are solely for the purpose of evaluating eligibility to continue receiving need-based financial aid. They do not replace or modify academic standards required for continued enrollment at the University of Richmond.

Undergraduate students must meet the following minimum standards:

Students earning a Bachelor of Music degree must earn 128 credits by the end of the tenth semester. These totals do not include sport science activities courses. Undergraduate students are not eligible for financial aid after ten semesters (including enrollment at schools other than the University of Richmond).

For further information about the various financial aid programs, contact the Financial Aid Office at (804) 289-8438 with questions about need-based aid, or call the Office of Admission at (804) 289-8640 with questions about merit scholarships.
The University of Richmond, through the Division of Student Affairs, provides a variety of co-curricular and extracurricular programs and student-support services. These are designed to enrich the quality of the collegiate experience by creating an environment in which the student can grow intellectually, emotionally, physically, socially, and spiritually. The ultimate purpose of this environment is to help each student fulfill his or her potential.

The deans' offices for Richmond College and Westhampton College, the University's residential colleges, are focal points in student life matters. For the University, the offices are centers for closely knit smaller communities within the whole.

On a more personal level, a student may find the dean or staff member serving as a counselor, advisor, mentor, or collaborator. If questions remain after reading the Student Life section of this catalog, a dean's office can usually provide a more complete explanation or indicate where more information may be found. In all cases, the deans' offices are contact points to provide assistance. Each student is encouraged to make full use of these excellent resources.

**Student Life Services**

**Career Development Center**

The Career Development Center (CDC), located on the ground level of Richmond Hall, provides comprehensive career services for undergraduate and graduate students. The CDC exists to help students identify and achieve their career goals, and is committed to providing resources and services to students and alumni, based on the fundamental belief that career decision making is a lifelong process, integral to the University's educational objectives.

Staff members provide individualized career counseling and help students develop systematic approaches to job or graduate school searches. Programs, which often feature alumni and area employers, are presented throughout the year on job search strategies, connections between careers and majors, internships, transitions from student to work life, and other relevant topics.

The Career Development Center houses a career resource library that contains a variety of print and multimedia materials. The library also has computer stations with FOCUS II (a career guidance program), graduate school admissions test preparation software, and Internet access. The Internet enhances the CDC's ability to communicate with and provide services to students. Over the Web, students can access complete graduate and professional school catalogs, full-time job vacancies, and more than 20,000 internship listings on the award-winning Internship Exchange and its companion Intern Center. Résumé Expert Systems Web software allows students to sign up for on-campus recruiting events, and to register their résumé and job targets online for referrals to employers and internship sponsors. Students should visit the CDC on the Web to view all available resources and a calendar of upcoming events.

Service learning integrates participation in community organizations with the curriculum. Brought to University in 1993 by Dr. Richard Couto of the Jepson School of Leadership Studies, service learning has become an integral part of the UR experience for many faculty members and students. The Career Development Center inherited this program in 1998, and is excited to work with faculty, community organizations, and students to provide even more opportunities for UR students to participate in service learning projects.

Students are encouraged to visit the Career Development Center in their first year, to meet with a counselor to plan career development strategies. An online introduction to the CDC is included in first-year student orientation activities, and serves to introduce new students to the vast resources available in the Center.

**Chaplaincy**

UNIVERSITY OF RICHMOND

In addition to the academic advising and religious counseling services described above, the University maintains an office for Counseling and Psychological Services (CAPS) in Counseling and Psychological Services

Counseling and Psychological Services

The University maintains an office for Counseling and Psychological Services (CAPS) in addition to the academic advising and religious counseling services described above. The office is staffed by counseling and clinical psychologists who are prepared to help students meet academic, personal, or emotional challenges while they are enrolled at the University. The services correspond to students’ needs and include short-term counseling and psychotherapy, assessment, crisis intervention, psycho-educational presentations, individual consultations, and referral services. A policy of confidentiality is maintained with all services guided by the standards of the American Psychological Association and the licensing laws of the Commonwealth of Virginia.

Disability Accommodations

The University seeks to comply with all applicable federal, state, and local laws regarding the rights of individuals with disabilities. To facilitate such compliance, the Vice President for Student Affairs serves as the University’s Disability Coordinator. The University does not discriminate on the basis of disability in admission. Therefore, applicants are not required to provide information about their physical condition or disability status prior to admission. Individuals with disabilities are invited to contact the Disability Coordinator regarding any accommodations they may require in visiting the campus or upon matriculation. The University provides reasonable adjustments or accommodations in its academic programs as necessary for equal opportunity and participation for qualified students with disabilities.

International Students and Study Abroad

The Office of International Education, located in the administrative wing of Boatwright Library, serves all students: undergraduate and graduate, in arts and sciences, business, leadership studies, continuing studies and law. It offers advising on study abroad opportunities and procedures, and a wide variety of services for international students: orientation, visa, work, health insurance and taxes as well as cultural and social activities.

Multicultural Affairs

Working closely with the Office of Admissions, the Office of Multicultural Affairs is the focus of the University’s effort to increase and maintain a diverse student population. To support this effort, the office develops and implements programs of specific interest to students of diverse ethnic backgrounds, and assists them in becoming acclimated to the University’s environment.

Student Health Center

The Student Health Center offers a comprehensive program in health education and health maintenance, as well as treatment for illness and injury. The Health Center staff includes board certified family practice physicians and registered nurses. Services include acute care for illness and injury, general medical care, gynecology, allergy shots, and immunizations.

Students living on campus are eligible for the services provided by the Student Health Center, because the cost of these services is included in the housing fee. Student Health Center privileges are available to off-campus...
students for a per semester fee. The cost of prescription drugs, some laboratory tests, hospital emergency room treatment, hospitalization, x-rays, and referral off campus for consultation with medical specialists are not covered by any student fees. These costs will be billed separately by the provider.

Hours of operation (subject to change) are from 8:00 a.m. to 5:00 p.m., Monday - Friday and 1:00 p.m. - 5:00 p.m. on Saturday and Sunday. Registered nurses are on duty at all times. The doctors maintain regular office hours Monday - Friday. If a physician's services are required after office hours, an off-campus referral to a private facility will be made. The telephone number is (804) 289-8064 and the FAX number is (804) 287-6466.

Upon arrival at the Student Health Center, each patient may initially be evaluated by the nurse who will advise the proper treatment for the patient's medical complaint. If the evaluation indicates a need, an appointment with the doctor will be made. Appointments are made only after evaluation by the nurse except for annual gynecological examinations, doctor-requested follow-up visits, allergy shots, immunizations (influenza, tetanus, MMR, Hepatitis B, Hepatitis A, etc.), and PPD tests.

Allergy shots are given by appointment on weekdays during specified hours. Detailed instructions from the referring physician must accompany the allergy serum. There is a fee for this service and is payable at the time of the visit.

A fee for immunizations is payable at the time of the injection and is based on the cost of the serum. This also applies to PPD (tuberculosis) skin tests.

Legal and ethical standards pertaining to confidentiality and health matters are observed by the Student Health Center staff.

Policies

The University of Richmond is governed by policy statements which guide individual members in their actions toward each other and toward the larger community. These policy statements support the University's educational mission while seeking to assure that both individual and group rights are appropriately observed and maintained.

University Academic Honor Code Statute

The School of Arts and Sciences, the Jepson School of Leadership Studies, and The E. Claiborne Robins School of Business each operates under the University Honor Code Statute. Breaches of the code are cheating, plagiarism, lying, academic theft, disclosing honor council information, registration irregularity, and failure to report an Honor Code Statute violation. Any person who violates these standards shall be subject to disciplinary action ranging from reprimand up to and including expulsion from the University. Determination of guilt or innocence and imposition of sanctions, when necessary, will be effected according to established procedures, with procedural fairness observed, and with appropriate appeal procedures available. The University Honor Code Statute is available from any dean's office.

Richmond College Honor System

The Richmond College Honor Council mails information about its Honor System to each applicant who expects to enroll in Richmond College. During New Student Orientation, students are given information about the Honor System, and are instructed as to its meaning and operation. Each student is required to pass a test to demonstrate an adequate knowledge of the Honor System. Each new member of Richmond College signs the Honor Code during the Investiture Ceremony early in the fall semester.

Westhampton College Honor System

The Westhampton College Honor Council sponsors Proclamation Night, a ceremony which formally introduces each Westhampton College student to the Honor Code and at which each student is required to sign the Honor Code. Prior to the signing ceremony, each student is given information about the Honor System and is instructed in its meaning and operation. Each student is required to take a test to demonstrate knowledge of the Honor Code and College policies. No student's matriculation is complete until the test is passed and the Honor Code signed.
Standards of Conduct

The University of Richmond considers cultivation of self-discipline and resolution of issues through processes of reason to be of primary importance in the educational process and essential to the development of responsible citizens. All members of the University community have a responsibility to comply with local, state, and federal laws, and with all published University policies and regulations. In a community of learning, individual or group conduct that is unlawful, that disrupts or interferes with the educational processes, that causes destruction of property, or otherwise infringes upon the rights of others or of the University itself, cannot be tolerated.

The Trustees of the University of Richmond have authorized a Policy Statement on Standards of Conduct, Penalties, and Disciplinary Procedures to guide the conduct of students and their guests. This statement sets forth those standards of conduct which the University of Richmond deems essential for fulfilling its educational mission. Any person who violates the standards of conduct and regulations of the University of Richmond shall be subject to disciplinary action and, if need be, legal action. Disciplinary action may range from reprimand/disciplinary warning up to and including dismissal or expulsion from the University. Sanctions will be imposed after proper determination has been made in accordance with established disciplinary procedures of the University, with fair procedures observed and with appropriate appeal procedures available, as outlined in the Policy Statement and any approved revisions thereof.

A copy of this Policy Statement and/or any officially approved revisions thereof is readily available in the residential college handbooks for each student who matriculates. All members of the University community should familiarize themselves with this Policy Statement and revisions, and with any other official publications, handbooks, or announcements issued from time to time by the University of Richmond or by individual colleges and schools of the University.

Right to Privacy

Student academic and personnel records are administered under the procedures and requirements of the Family Educational Rights and Privacy Act of 1974 (P.L. 93-380), as amended. This act generally prohibits the unauthorized release of confidential information about individual students; however, directory information usually may be released. For more information, see Confidentiality at the end of this section or contact the Office of the University Registrar, located in Sara Brunet Memorial Hall.

Alcoholic Beverages and Other Drugs

The legal age for the consumption and possession of beverage alcohol is 21 in the Commonwealth of Virginia; the law governs all sites within the Commonwealth and all persons including temporary visitors from other places. The University supports the laws of the Commonwealth, and has policies to educate and regulate its campus constituencies regarding the consumption of alcohol. Similarly, there are statutes as well as University policies prohibiting the possession, distribution, sale, or use of illegal drugs or narcotics, including marijuana and hallucinogens. Moreover, each person is responsible for his or her destructive, obstructive, or otherwise inappropriate behavior whether under the influence of any substance or not. Persons in violation of the law are subject to prosecution by law enforcement agencies as well as disciplinary proceedings by the University.

Motorized Vehicles

Each automobile, motorcycle, motorbike, or other such motorized vehicle operated on the campus must be promptly registered with the University, and the campus automobile permit fee paid. Individuals operating vehicles must abide by the regulations governing registration, use, and parking. The University Police Department administers the registration and monitors compliance. Inquiries should be directed to that office.

Residence Life

On-campus housing for undergraduate women is arranged by the Housing Coordinator of Westhampton College; arrangements for undergraduate men are made by the Housing Coordinator of Richmond College. Inquiries, reservations, or other housing-related correspondence should be addressed to the appropriate housing coordinator.

The University attempts to provide on-campus housing for full-time students who desire
to be accommodated. No student is required to live on campus, and some choose to reside off campus in private homes or apartments. The University does not provide married student housing.

There are five residence halls for women on the Westhampton College campus. For men, the Richmond College campus has eight residence halls. In addition, townhouse apartments accommodate upper-level students from all undergraduate schools.

Residence hall rooms generally house two students, but there are rooms available which house one or three persons. (One-person rooms are not available for first-year students.) Most residence halls have lounges and laundry areas.

General supervision of the residence halls is provided by professional staff who are assisted by specially trained upperclass students. University policy is the framework under which all campus residences are governed.

Numerous educational and social programs are planned for residents by the residence life staffs of the colleges, the Residence Hall Association, and the President's College Associates. These programs make the residence halls and apartments living/learning environments which promote a sense of community and personal growth.

Room reservation procedures are made available at appropriate times during the school year. In general, continuing students request rooms and roommates according to the procedures established by each college. Incoming students complete a questionnaire. Using expressed lifestyle, mutual interests, and other criteria, rooms and roommates are assigned.

**General Conditions**

The Unified Agreement sets forth the specific terms and conditions applicable to residence hall rentals, meal plans, telecom services, and data services. Each student approved for housing receives a copy of the Unified Agreement, which details the services provided to students, in conjunction with the room reservation procedures. Detailed information regarding residence life and housing is available in the college handbooks.

**Activities**

Because co-curricular activities are an important part of the campus experience, a broad range of events and opportunities to challenge student interests is provided. The University has opportunities for leadership and community service as well as for cultural, recreational, social, and spiritual interests. There are weekly events with bands, comedians, single artists, disc jockeys, and the Tucker-Boatwright Festival, which brings to campus outstanding figures in the literary and artistic world. Academic departments and programs sponsor many lectures, concerts, and plays. These activities combined with academic pursuits contribute to the formation of the well-rounded individual.

**Organizations**

There are approximately 230 recognized student organizations, groups, and clubs. The list of organizations each year reflects changes in student interests.

Academically oriented groups and chapters of national honor societies comprise about a quarter of the student organizations. These organizations, such as Phi Beta Kappa for students in the arts and sciences and Beta Gamma Sigma for business students, recognize exceptional academic achievement. Other organizations provide opportunities in academic disciplines for study, research, or practice beyond the classroom. Each serves to unite students who have a common academic interest.

There are organizations which represent the University in the community. These include the student newspaper and other publications, theater productions, performing music ensembles, and the student-operated radio station.

Religious organizations are an important part of the University scene. They present a variety of opportunities for fellowship, study, and social service in denominational, non-denominational, and interdenominational settings.

The Greek social system comprises approximately 40% of the full-time undergraduate men and 50% of the full-time undergraduate women. There are presently seven organizations for men and eight for women; all are nationally recognized. The men have their own lodges for social and recreational purposes while the women use existing campus facilities. However, Greek sys-
tem members live among other students in the campus residence halls and eat in the central dining center. In addition to their social activities, these organizations have historically organized and supported a broad range of community service projects.

Special interest organizations are yet another way for a student to gather with others who have similar interests. In this context an individual might want to learn or sharpen skills in, for example, skiing. If there is no club to meet the common interest of several students, there are procedures to guide the formation of one.

Campus Recreation

Campus Recreation is dedicated to the concept of providing quality recreational opportunities for the campus community. Campus Recreation has six components: informal recreation; aerobics and fitness; intramurals; outdoor adventure; special events; and sport clubs.

With a valid University ID card, students, faculty, and staff are eligible to use the informal recreation gymnasiums, weight room, exercise rooms, pool, seven racquetball courts, two squash courts, 13 tennis courts, and 400-meter track. More than 30 stretching, toning, and aerobic dance-exercise sessions are offered each week in a variety of levels to accommodate beginner to advanced participants. A wide variety of intramural sports and special events is available in men’s, women’s, and co-recreational divisions at varying competitive levels. Eighteen sport clubs provide students the opportunity to compete in sports not offered at the varsity level, or just to learn and practice a new activity. The Outdoor Adventure Program provides outdoor equipment and acts as a resource for local outdoor recreation programs and activities.

Intercollegiate Athletics

In intercollegiate athletics, the University of Richmond is a member of the National Collegiate Athletic Association Division I. The University fields men’s teams in nine sports, including Division I AA football in the Atlantic 10 Conference and Division I basketball, baseball, cross country, golf, soccer, track (indoor and outdoor), and tennis. Effective July 1, 2001, all of these intercollegiate athletics teams will compete in the Atlantic 10 Conference. The women’s synchronized swimming team competes under the auspices of the United States Synchronized Swimming Association.

Student Government

To as great an extent as possible, the University places the governance of students in the hands of students. The residential colleges, and the schools of business and leadership studies each have their own elected student government association which responds to the needs and interests of its specific students. In addition, student representatives are chosen to sit and vote on certain faculty committees and committees of the Board of Trustees. Each college has its own honor council and its own judicial council composed entirely of students.

Dining Services

The main dining center at the University of Richmond is the spacious E. Bruce Heilman Dining Center. This well-equipped building is located on a particularly attractive site overlooking Westhampton Lake. The main dining area accommodates 2,200 students; a lower level is used as a catering area for University functions and for the University Club. The Tyler Haynes Commons building houses Tyler’s Grill, a fast food facility, and The Cellar, a late night gathering space. The units of the townhouse apartments have kitchens for the use of their residents.

Meal Plans

All students living on campus, except those residing in the University Forest Apartments, must participate in a meal plan. Details of the meal plans follow.

Residence Hall Students:

First- and Second-Year Students - Participation in Spider Plus Plan is automatically assigned to all first-and second-year students as part of the residence hall agreement. Students may elect to upgrade to the Spider Plus Unlimited.
Third- and Fourth-Year Students - Returning third- and fourth-year students in the residence halls have a variety of meal plans to choose from during registration for campus services. Students can choose the Spider Plus, Spider 14, Spider 10, or upgrade to the Spider Plus Unlimited. If an option is not selected during the registration period for Campus Services or changed prior to June 1st for fall semester or October 15 for spring semester, the student will automatically be assigned his/her meal plan option from the previous semester.

Spider Plus Plan: One meal punch during each of the 19 meal periods at either Tyler's Grill or the Heilman Dining Center. Also includes one guest meal per semester and the ability to use the One-Card at all dining locations.

Spider Plus Unlimited: One meal punch per meal period at either Tyler's Grill or the Heilman Dining Center during each of the 19 meal periods. Also includes five guest meal punches per semester, one bonus punch per week with up to a $5.00 value for use in The Cellar, Edible Bites or Whitehurst, and the ability to use the One-Card at all dining locations.

Spider 14: One meal punch per meal period at either Tyler's Grill or the Heilman Dining Center for 14 of the 19 meal periods offered weekly. Also includes one guest meal punch per semester and the ability to use the One-Card at all dining locations.

Spider 10: One meal punch per meal period at either Tyler's Grill or the Heilman Dining Center for 10 of the 19 meal periods offered weekly. Also includes one guest meal punch per semester and the ability to use the One-Card at all dining locations.

University Forest Apartment Residents and Off-Campus Students:

UFA and Off-Campus Students may select any of the above meal plans, waive meal plan participation or choose from one of the two specialty options designed just for them. Please note that only meal plan participants can use their One-Card at Tyler's Grill or the Heilman Dining Center. If an option not selected during the registration period for Campus Services or changed prior to June 1st for fall semester or October 15 for spring semester, the student will automatically be assigned his/her meal plan option from the previous semester.

Spider 5: One meal punch per meal period at either Tyler's Grill or the Heilman Dining Center for 5 of the 19 meal periods offered weekly. Also includes one guest meal punch per semester and the ability to use the One-Card at all dining locations.

Spider 100: A block of 100 meals each semester is available to all students selecting this plan. Spider 100 participants can elect to use one punch during any meal period at the Heilman Dining Center with return access during that meal period or can use up to three punches per meal period at Tyler's Grill for 10 of the 19 meal periods offered weekly. Included in this plan are two guest meal punches per semester, one bonus punch per week with up to a $5.00 value for use in The Cellar, Edible Bites or Whitehurst, and the ability to use the One-Card at all dining locations. Meals do not roll over semester to semester.

Changes in Meal Plan

Once a selection has been made, third- and fourth-year students may make one additional change within the meal plan options prior to June 1 for the fall semester and prior to October 15 for the spring semester. To initiate a change, the student must personally contact the One-Card Office by the published deadline.
After the deadline, a change can be made only with the approval of the Director of Dining Services. A student may be permitted to move between the appropriate meal plans, but **no refunds will be issued.** Any decrease in charges will automatically be credited to a University One-Card account for the student's use on campus. Increased charges will be due at the time of the change or will be billed.

**Conditions**

Meals under all meal plans are served during the days and times stated in the calendar for the School of Arts and Sciences, the Jepson School of Leadership Studies, and the undergraduate school of The E. Claiborne Robins School of Business.

The ID/Meal Card is **nontransferable.**

All University students may sign up for the University's Spider account, a declining balance program which allows students to access previously deposited funds via their University One-Card. The Spider account allows students the ability to make purchases without carrying cash and can be used by all students at Edible Bites, the Bookstore, Whitehurst, the Student Health Center, The Cellar, in laundry facilities, most vending machines, and for pinball and video games. Students on a meal plan also may make purchases with their One-Card at Tyler’s Grill and the Heilman Dining Center. Students will be mailed information each semester for One-Card sign up. A minimum initial deposit is required. Complete information on the One-Card is available in the University' brochure.

Please refer to Dining Services webpage for more specific information on hours, dates of operation, menus, service policies, box meals, nutrition counseling, and other specialty services.

**Bookstore**

The University Bookstore carries textbooks for all courses scheduled for a given term at the University. A comprehensive selection of reference books, study and research aids, and general reading materials is also available. The store offers desk, office, and art supplies; posters; greeting cards; gift items; clothing; and health and beauty aids. Among the services provided by the bookstore are ring and jewelry special orders; book special orders; film developing; photo and document mounting; and group imprinted clothing orders.

**Identification Card**

Each student enrolled in the School of Arts and Sciences, the Jepson School of Leadership Studies, and the undergraduate division of The E. Claiborne Robins School of Business is issued a picture identification card. The card verifies that the holder is eligible to receive University library and certain other campus privileges and services, including food service for those who are so entitled. Neither the card nor its privileges may be transferred.

**Written Complaints and Grievances**

Students who wish to lodge a complaint or grievance pertaining to University policies, procedures, or conditions may address their complaints in written form to the appropriate department head or official who oversees the area of concern. If in doubt as to whom to direct the complaint, the following officials may be contacted:

**Academically-related concerns:**

- **Arts and Sciences:** Dean of Richmond College (Men) or Dean of Westhampton College (Women)
- **Business School:** Dean of The E. Claiborne Robins School of Business
- **Leadership School:** Dean of the Jepson School of Leadership Studies

**Housing:** Dean of Richmond College (Men) or Dean of Westhampton College (Women)

**Financial Policies:** Vice President for Business and Finance

**All other concerns:** Vice President for Student Affairs
The Family Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They are:

1) The right to inspect and review their records within 45 days of the date the University receives a request for access. Students should submit to the University Registrar a written request that identifies the record(s) they wish to inspect. The Registrar will make arrangements for access and notify the student of the time and place the records may be inspected.

2) The right to request the amendment of the student's education records that the student believes are inaccurate or misleading. Students may ask the University of Richmond to amend a record that they believe is inaccurate or misleading. They should write the University Registrar, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading.

If the University of Richmond decides not to amend the record as requested by the student, the University will notify the student of the decision and advise him/her of his/her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3) The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

Exceptions which permit disclosure without consent are disclosure to the following:

a. To school officials with legitimate educational interests. A school official is:
   - A person employed by the University in an administrative, supervisory, academic or research, or support staff position.
   - A person elected to the Board of Trustees.
   - A person employed by or under contract to the University to perform a special task, such as the attorney or auditor.
   - A person serving on an institutional governing body of the University (such as Honor Councils, Student Government Associations, etc.).

A school official has a legitimate educational interest if the official is:
   - Performing a task that is specified in his or her position description or by a contract agreement.
   - Performing a task related to a student’s education.
   - Performing a task related to the discipline of a student.

b. To certain officials of the U.S. Department of Education, the Comptroller General, and state and local educational authorities, in connection with certain state or federally supported education programs.

c. In connection with a student's request for or receipt of financial aid, as necessary to determine the eligibility, amount or conditions of the financial aid, or to enforce the terms and conditions of the aid.

d. If required by a state law requiring disclosure that was adopted before November 19, 1974.

e. To organizations conducting certain studies for or on behalf of the University.

f. To accrediting organizations to carry out their functions.

g. To parents of an eligible student who claim the student as a dependent for income tax purposes, provided dependency is substantiated by copies of income tax returns.

h. To comply with a judicial order or a lawfully issued subpoena.

i. To appropriate parties in a health or safety emergency.

j. To an alleged victim of any crime of violence of the results of any institutional disciplinary proceeding against the alleged perpetrator of that crime with respect to that crime.

The University of Richmond will maintain a record of all requests for and/or disclosure of information from a student's education records. The record will indicate the name of the party making the request, any additional party to whom it may be disclosed, and the legitimate interest the party had in requesting or obtaining the information. The record may be reviewed by the student or eligible parents.

4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University of Richmond to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, DC 20202-4605

The University of Richmond's complete FERPA Policy Statement is available as part of the Office of the University Registrar's web page at www.richmond.edu/academics/registrar or by contacting the Office of the University Registrar.

ACADEMIC OPPORTUNITIES AND SUPPORT

Academic Advising

Every new student is assigned an academic advisor who is either a faculty or staff member. The advisor serves as a resource for the student in the development of the student’s academic program and in other academic matters. The student is expected to meet with his or her academic advisor regularly to plan an academic program and review achievement.

By the end of the second year, in conjunction with the selection of a major, a different advisor will be assigned by the departmental chair or coordinator who is responsible for the student’s chosen major subject area.

Consistent with the University’s belief that responsibility for one’s actions reside with the individual, academic advisors are indeed resource persons. The final decisions and responsibility remain with the student.

Academic Support Centers:

Academic Skills Center

The Academic Skills Center, located in the administrative wing in Boatwright Library, provides academic skills support to all students (i.e., undergraduate, graduate, etc.). Operating from a holistic vantage point, the Center incorporates counseling and study skills techniques which address the academic performance of students and their social adjustment to the University environment. The Center offers the Peer Academic Skills Tutoring (PAST) program staffed with tutors who are trained to simultaneously provide tutorial assistance in various subject areas and in study skills. The Academic Skills Center is open Monday through Friday.

Speech Center

Practice and preparation can make the difference between a satisfactory speech and a memorable one. Videotaping, review, and peer consultation are available at the Speech Center to assist students in the development of their oral presentations. Faculty and staff rely on the Speech Center as well to prepare for workshops and to tape small group discussions for classroom purposes. The staff of the Career Development Center uses the Center’s facility to simulate employment interviews at students’ requests.

Faculty and trained undergraduate students conduct consultations at the Speech Center weekday afternoons and evenings and weekends by appointment. To reserve a practice time, students may come by the Speech Center, located on the first floor of the Webb Tower, adjacent to Booker Hall and Keller Road. The reservation board, located in the foyer, lists available appointment times, as well as numbers to call for special appointments. Individuals and groups should reserve a practice time two days in advance. To make the most of this opportunity, students should bring notes and a videotape for recording and review.

Writing Center

The Writing Center offers assistance to students writing papers and reports as well as to those making applications to graduate and professional schools and preparing résumés. Beginning about the third week of each semester, the Writing Center is open on a regular basis and staffed with student tutors. Students may contact the Writing Center by telephone to make an appointment or drop by to talk with a tutor or sign up for an appointment at a later time. The Writing Center also offers typing instruction and special tutoring for international students. The Center is located in the Boatwright Library’s Administrative Wing, under the bell tower to the right of the library’s main entrance.

WILL Program (Women Involved in Living and Learning)

The WILL Program (Women Involved in Living and Learning), established in 1980, is a selective four-year program for undergradu-
WILL's mission is to help women realize their full potential by providing a supportive and challenging environment. WILL aims to increase the self-esteem, self-confidence, and self-awareness of women as well as an awareness and acceptance of women different from themselves. Towards this end, WILL promotes critical thinking, intellectual curiosity, and active learning opportunities which empower women to be leaders during and beyond their university experience.

To meet these goals, WILL students complete a minor in Women's Studies, participate in an internship, attend and help plan programs (speakers, workshops, plays, musical performances, etc.) for the campus community on topics related to the unique and diverse experiences of women, and participate in the organization of WILL.

Examples of courses WILL students have historically been required to take include "Introduction to Women's Studies," "Introduction to Feminist Theories," a WILL internship, sophomore and senior WILL seminars, and women's studies electives.

WILL seeks members who demonstrate leadership potential and an interest in exploring women's studies. Applications are accepted from first-year women in October of each year. Subject to space availability, second year women may inquire about applications through October of their second year.

INTERNATIONAL EDUCATION

In a world of wide-ranging and rapidly increasing contacts and interdependence among nations, states, and cultures, a well-prepared student is one who is able to function knowledgeably in an international and cross-cultural environment. To give students an opportunity to be well prepared, University of Richmond faculty stress cultural, political, economic, environmental, and social aspects of their disciplines which are international and intercultural. The University of Richmond believes that the preparation of students for their roles as active citizens and effective leaders of the next generation must include a strongly internationalized curriculum and international education opportunities on campus and abroad.

The Academic Programs sections following this chapter offer particulars about programs in the School of Arts and Sciences, The E. Claiborne Robins School of Business, and the Jepson School of Leadership Studies.

The academic program of the School of Arts and Sciences provides opportunities for the study of international issues within academic fields which have long been associated with such issues, e.g., political science and foreign languages and literatures. In addition, as a result of focused efforts to internationalize the whole curriculum, there is also a large and growing number of courses in nearly all other departments, such as art, English, history, philosophy, religion and biology, which include international, often non-Western components. Students interested in the international field can major in one of the academic disciplines and in International Studies, an interdisciplinary and crosscultural program coordinated by Professor John Outland (See pages 101-108). The curricula of The E. Claiborne Robins School of Business and the Jepson School of Leadership Studies include a number of courses which are international in scope. The E. Claiborne Robins School of Business offers a concentration in International Business.

For a list of courses with significant international content, contact the Office of International Education.

International education is an important aspect of the total University of Richmond experience. The Office of International Education is charged with coordinating its elements, including advising students on study abroad opportunities and procedures and on
the Fulbright program, providing advising and services for international students, and sponsoring a wide range of international programs and visitors. The office, which serves all schools of the University, is located in the Administrative Wing of the Boatwright Library. It welcomes visits from students and prospective students interested in international issues and in contributing to the internationalization of the University.

Campus Activities
The University of Richmond provides a wide range of on-campus activities and events in support of international education. Courses, lectures, and seminars are offered by resident and visiting faculty and international scholars, writers, artists, and critics. The annual International Film Series, exhibits and concerts bring to the campus arts from around the world. Students are also able to participate in such organizations as the Asian Students Association, Multicultural Student Union, International Club, Model United Nations, and Amnesty International. Familiarization with other countries and cultures is enhanced on campus through contacts with a growing number of international students who are fully integrated into the life of the University. For example, in addition to their active participation in classes and student life, advanced undergraduate and some graduate students from various countries regularly conduct drill sessions in their native languages. Informal chats sponsored by the International House help students develop a command of the languages they study.

Cross-cultural education and dialogue at Richmond take place in residence halls as well as in classes. While the great majority of international students live in general dormitories, there is an International House that is home to U. S. and international students. Programs planned and executed by students living in the International House are open to the whole University community.

The rapidly growing international student population has recently included representatives from Argentina, Australia, the Bahamas, Bangladesh, Belgium, Brazil, Bulgaria, China, Colombia, Costa Rica, Ecuador, El Salvador, France, Germany, Ghana, Great Britain, Haiti, Hong Kong, Iceland, India, Iran, Jamaica, Japan, Kazakhstan, Kenya, Korea, Mexico, Pakistan, Panama, Peru, Romania, Russia, Singapore, Spain, Taiwan, Tanzania, Trinidad, Ukraine, Uruguay, and Uzbekistan, a total of 57 countries.

Study Abroad
Direct experience of cultures is the best way to learn to communicate across barriers of language, custom, politics, and geography. An encounter with different values and educational systems, when supported by good will and serious study, broadens students’ understanding of the complexities of our rapidly changing world. Students who study abroad find their experiences, both in and out of the classroom, to be stimulating and rewarding. They return with a better understanding not only of other cultures, but also of their own, not only of other people, but of themselves.

It is important to stress that study abroad is possible and encouraged for all students, regardless of their major and financial situation. Students who follow required procedures transfer up to 16 credits per semester of study abroad and graduate with their class, in four years. While some think that proficiency in a foreign language is necessary for study abroad, it is, in fact, possible to study in English, in such countries as Australia, New Zealand, the UK, South Africa, Ghana, Kenya, Jamaica and others, and even in non-English speaking countries where English is widely used and courses in English are offered: Denmark, Holland, Sweden, Austria, and Italy offer such opportunities. It is also possible to combine intensive study of a foreign language with some courses taught in English. In special cases, a student may, for example, begin or continue the study of a foreign language while taking courses in various disciplines (history, sociology, philosophy, business, etc.) in English.
When deciding when and for how long to study abroad, a variety of alternatives should be considered. There are opportunities to study for a year, a semester, or a summer, and in the second, third, or even the fourth year. Summer study after the first year, and semester study during the third year are among the best choices.

The subjects students pursue abroad range from art to business to zoology. The countries they choose range from Great Britain to South Africa and Egypt, from Chile to Italy and Australia. Living arrangements include dormitories with local students, home-stays and independent apartments. While study abroad has long been recognized as a significant component of a liberal arts education, today students majoring in the sciences, leadership studies, and in business are actively participating in study abroad in large and growing numbers.

Early planning is crucial to any successful study abroad experience. The selection of an appropriate program must take into account the student’s academic and personal needs, the country and language in which he or she wishes to study, and a number of other factors. Students are encouraged to begin exploring the opportunities for foreign study as early as in the first year at the University, and to plan their University of Richmond courses accordingly.

There are a number of options in study abroad programs. During the academic year there are opportunities to study through the University’s direct exchanges with universities in the following countries:
- Argentina (Universidad Blas Pascal, Cordoba and Universidad Torcuato Di Tella, Buenos Aires);
- Australia (Curtin University, Perth; Macquarie University, Sydney; The University of Melbourne; University of Queensland, Brisbane);
- Austria (Vienna University of Economics and Business Administration);
- China (University of Hong Kong);
- Denmark (Copenhagen Business School and Denmark’s International Study Program);
- England (Universities of Bath, Bristol, East Anglia, Lancaster and Warwick and Queen Mary-Westfield College, University of London);
- France (MICEFA - Universités de Paris and CIEE - Rennes);
- Germany (University of Konstanz and University of Münster);
- Ghana (University of Ghana);
- Ireland (University of Ulster, Northern Ireland; National University of Ireland, Galway; and University College, Dublin);
- Italy (Universita’ Commerciale Luigi Bocconi, Milan);
- Mexico (Instituto Technologico y de Estudios Superiores de Occidente, Guadalajara);
- Netherlands (Erasmus University, Rotterdam and Leiden University);
- New Zealand (University of Otago);
- Poland (Jagiellonian University);
- Scotland (University of Edinburgh and University of St. Andrews);
- Spain (Universidad de Deusto, San Sebastián and Universidad Antonio de Nebrija, Madrid);
- Sweden (Uppsala University).

Additional exchange relations are currently being developed in Belgium, China and Taiwan, Italy, Israel, Turkey, and other countries. The University’s membership in the Associated Colleges of the South offers a number of additional options. With prior approval, students may also enroll in and transfer credits from programs administered by other institutions.
During the summer, the University of Richmond sponsors a number of study abroad programs directed by Richmond faculty. There are programs in Australia, Costa Rica, Ecuador, European Community, France, Germany, Greece, Japan, London, Russia, Spain, and Zimbabwe. And new ones are always being created.

The Office of International Education advises students on study abroad programs and procedures, and coordinates University-sponsored study abroad programs. Students should begin planning for foreign study by visiting the Office of International Education and by attending a weekly information session.

Students should be aware of the University of Richmond’s policy on study abroad. The University recognizes the importance of providing students with opportunities to broaden their education through study abroad and encourages students to take advantage of worldwide opportunities for such study.

The continually growing number of options include:

~ enrollment in universities abroad with which the University of Richmond has affiliation agreements;

~ summer programs directed by Richmond faculty;

~ study through consortia and other approved programs with which the University of Richmond is affiliated; and

~ individually selected programs of sound academic quality which require that a petition be submitted to the Office of International Education.

The University of Richmond invests considerable resources to create study abroad programs consistent with the standards and educational objectives of this University and the needs of its students. In cases where designated programs exist, Richmond students will be expected to enroll in them, unless they can successfully petition to attend a different program.

A successful petition will demonstrate the sound academic and cross-cultural quality of the alternate program and a compelling reason why the designated Richmond program does not serve the student’s academic needs. Decisions regarding petitions will be made by a subcommittee of the International Education Committee, in collaboration with the Office of International Education and the departments from which the student is seeking academic credit.

After an appropriate study abroad program has been selected, each student is expected to follow procedures administered by the Office of International Education. Maintenance of status as a current student and credit transfer for study abroad can be assured only if the program and specific courses have been pre-approved. Please see pages 39-40 for additional administrative information. For specific information on financial aid for study abroad see the Office of Financial Aid. Financial aid is fully transferable only to University of Richmond academic semester and year programs.

The International Resource Center, located in the Office of International Education, contains information on study abroad programs, scholarships, graduate study abroad, teaching, working, travel and volunteering abroad.

International Student Advising

The Office of International Education is the primary ‘port of call’ for international students, scholars and visitors before and during their stay at the University. Issues related to student visas, health insurance, taxes, housing, as well as academic and cultural concerns, are addressed by the staff in consultation with relevant departments and other administrative units of the University. In order to help international students and scholars to become integrated in the University and the U.S. and to share their cultures with others, the office organizes orientation sessions for international students, as well as cultural and social activities throughout the year.
ACADEMIC PROCEDURES

The University of Richmond has, for each academic program, procedures and degree requirements that must be satisfied before the degree can be granted. The student is responsible for knowing the specific requirements and planning appropriately to allow for the completion of these requirements. The University provides, depending on the program, either or both academic advisors and administrative personnel to assist students with their plans. In any case, the final responsibility for following procedures and meeting degree requirements rests solely with the student.

The following sections describe academic policies, regulations, and procedures. If no indication of school is given, that section pertains universally to the School of Arts and Sciences, The E. Claiborne Robins School of Business, and the Jepson School of Leadership Studies. When a statement pertains to a particular school or schools, it is listed under the appropriate school heading.

Advanced Standing

I. Credit By Examination

The University of Richmond accepts several credit by examination options. A maximum of 30 semester hours of credit by examination may be applied to a University of Richmond degree. The following are guidelines for the most common examinations warranting credit. Please see the Office of the University Registrar and the Office of International Admissions in regards to guidelines for additional international examinations which are eligible for credit.

A. Advanced Placement

The University of Richmond participates in the Advanced Placement program of the College Entrance Examination Board. Successful candidates for admission who have taken Advanced Placement examinations may have the test results evaluated for college credit. Students who have received appropriate scores on Advanced Placement examinations (as established by the departments concerned) may be exempt from communication skills requirements of the General Education Requirements, either with or without credit, depending on the scores achieved. Students who have received appropriate scores on Advanced Placement Examinations (as established by the departments concerned) may receive course credit that satisfies fields-of-study requirements of the General Education Requirements, if the Richmond equivalent courses for which they will receive credit can be used by Richmond students to meet fields-of-study requirements. Specific allocations of AP credit for communication skills or fields-of-study requirements may vary from year to year. Current information is available from the Office of the University Registrar.

B. CLEP

The University of Richmond awards credit for an acceptable performance on a College Level Examination Program (CLEP) examination recognized by the University academic department concerned. Generally a student may not attempt credit by examination for a course in which a failing grade was received, or for a basic course in an area in which acceptable college credit has been earned at a more advanced level. Students who have received appropriate scores on CLEP examinations (as established by the departments concerned) may receive course credit that satisfies fields-of-study requirements of the General Education Requirements, if the Richmond courses for which they will receive credit can be used by Richmond students to meet fields-of-study requirements. Specific allocations of CLEP credit for communication skills or fields-of-study requirements may vary from year to year. Current information is available from the Office of the University Registrar.

Arrangements to take CLEP examinations may be made with the University's Counseling and Psychological Services office. Information on current University policies relating to CLEP may be obtained from the Office of the University Registrar.
UNIVERSITY OF RICHMOND

Note: CLEP no longer offers examinations with essays, but departmental-designed essays in addition to CLEP scores are required by many departments within the University, in order for exemption or credit to be awarded.

C. Credit By Local Examination

Credit by local examination may be used to satisfy general education requirements in the areas of communication skills, health, and fields-of-study, as well as to satisfy major requirements or use as elective credit. Information on courses for which credit by local examination may be earned is available in the Office of the University Registrar. Students should check with departments for examination dates, fees, and related regulations.

D. International Baccalaureate

The University of Richmond considers for credit Higher Level exams in the International Baccalaureate (IB) program. Generally, the University awards credit for scores of 5, 6, or 7 on a Higher Level examination recognized by the academic department concerned. Specific allocations of IB credit for communication skills or fields-of-study requirements may vary from year to year. Detailed information on current IB policies is available from the Office of the University Registrar.

III. Credit for Veterans

In accordance with the recommendations of the American Council on Education, the following advanced credit will be allowed veterans:

1. A veteran who has served between six months and one year on active duty shall receive credit for two semester hours in Military Science.

2. A veteran who has served more than one year on active duty shall receive credit for four semester hours in Military Science.

3. A veteran may receive additional credit for specialized training courses and for correspondence courses taken from accredited colleges under the auspices of the U.S. Armed Forces Institute. A veteran desiring such credit should present the record of training to the University Registrar either on the transcript form of the college in which the work was taken, or on the form prepared for such purposes by the U.S. Armed Forces Institute. In cases of question, the appropriate Academic Council will determine the amount of credit to be granted.

4. In allowing further advanced credit for educational experience in the armed services, the University is guided largely by recommendations of the American Council on Education.

III. Transfer Credit

Credit in transfer may be accepted only for courses which are comparable to courses offered at the University of Richmond. Moreover, the coursework must have been taken at an institution or institutions accredited by a regional accrediting agency at the time the work was taken, and a grade or equivalent of C (2.0) or better must have been earned. Coursework accepted in transfer shall be applied to specific degree requirements subject to the discretion of the academic department concerned. Hours awarded are added into hours required for graduation, but grades are not calculated in the grade point average.

No transfer credit shall be formally accepted or recorded until the University has received an official transcript directly from the records office of the institution which offered the coursework. If coursework is being transferred from more than one institution, an official transcript must be received from each institution.

Note: For applicability of transfer work to general education requirements, see General Education Curriculum, pages 45-48.

Registration Policies

Registration is limited to admitted, degree-seeking students unless specific approval is granted for unclassified status.
Registration

Students shall register by following the policies stated in the Schedule of Classes, which is published each semester by the University Registrar.

Note: A student is not fully registered for any term until satisfactory arrangements have been made for that term’s fees.

Late registrations may be accepted subject to the policies for adding classes, as indicated in the section below entitled Change of Registration. A special fee is required.

Prerequisites

Students should consult the catalog and/or department for required prerequisites before registering for a course. Successful registration for a course does not mean that prerequisites have been fulfilled. A student registered in a course without the required prerequisites may be disenrolled from the course.

Limits of Work

A student normally enrolls for 15 or 16 semester hours of work a week. The minimum load for a full-time student is 12 semester hours.

No student may enroll for more than 19 hours nor fewer than 12 hours of work without the permission of the dean of his or her school. (Arts and Sciences – see Residential Dean; Business and Leadership Studies – see Academic Dean.) Enrollments in either category are subject to special charges as specified in the chapter entitled Financial Affairs. Students enrolled for fewer than 12 hours are classified as part-time and are not entitled to athletic ticket books or student publications. In addition, a student who wishes to register for 18-19 hours must have the permission of his or her advisor.

Change of Registration

After the end of the first 10 days of classes, but before the end of the seventh week, students may withdraw from courses provided that they receive the permission of the appropriate course instructor and academic advisor.

Students will be required to pay the fee for change in class and will receive an M if failing at the time of withdrawal, or a W if passing at the time of withdrawal. Ordinarily, a student may not withdraw from a course after the end of the seventh week of classes except for medical reasons. The student’s dean may, under special circumstances, make an exception to this policy.

Auditing Courses

With the approval of the student’s academic advisor, dean, and the instructor of the course, a student may register for a course on an audit basis. The regular rate of tuition is charged, and the audit course is counted as a part of the student’s semester load. A permission form must be obtained from and returned with appropriate signatures to the Office of the University Registrar by the end of the tenth day of classes. Once the form is submitted to the University Registrar, the decision may not be reversed. An audited course cannot subsequently be taken for credit unless approved by the appropriate dean.

Pass/Fail Option

School of Arts and Sciences
School of Leadership Studies (excluding Leadership Studies courses)
(Not available to business students.)

An Arts and Sciences or Leadership Studies student who has completed at least 61 semester hours of academic work may opt for one course per semester to be graded on a Pass/Fail basis. The course may only be used to count as total hours of credit toward a degree, and cannot be used to satisfy any general education requirement or any major or minor requirement. No School of Leadership Studies or School of Business courses may be taken for Pass/Fail grading except those in the Department of Economics. No more than four student-opted Pass/Fail courses are acceptable for degree credit.

Note: The restrictions stated above do not apply to courses authorized to be graded only as Pass/Fail.
The level of performance necessary to earn a Pass in a student-opted Pass/Fail course is $D$- or better. A Pass grade will be recorded as $P$ on the permanent record. The hours will be added into hours earned toward graduation and will not affect the grade point average. A Fail grade will be recorded as $F$ on the permanent record. The hours will be added into GPA hours and will affect the grade point average.

To opt for Pass/Fail grading, a permission form must be obtained from and returned with appropriate signatures to the Office of the University Registrar by the end of the tenth day of classes. Once the form is submitted to the University Registrar, the decision may not be reversed.

Repeated Courses

Coursework may not be repeated for credit toward graduation except as sanctioned by the University; however, particular coursework may meet more than one requirement for graduation. An example of a sanctioned repeat-for-credit is the subsequent registration for a course in which the content changes from term to term such as Special Topics or Independent Studies. Also, certain courses in a major or program may have to be repeated if the grade earned the first time does not meet requirements; in such a case, the credit hours will be counted only once but both grades will be calculated in the cumulative grade point average.

Courses taken on an audit basis cannot be repeated for credit unless approved by the appropriate dean.

Except in clear situations, the Office of the University Registrar should be consulted before registration to learn if a proposed repeat is sanctioned for credit or if sanction is possible.

All courses taken at the University of Richmond become a part of the permanent academic record. The grade for a course repeated at the University of Richmond becomes a part of the grade point average if the grade otherwise would be included in the computation.

Course Administration

Class Attendance

Each student is expected to attend all meetings of all classes, including lectures, seminars, laboratories and drills, in which he or she is enrolled. The specific attendance policy in each course, however, is determined by the instructor of the course, subject to the section on University Holidays below. The specific attendance policy for each course will be announced to the students and distributed on the course syllabus at the beginning of the course.

Faculty members will honor an official notification from the appropriate dean that a student is to be excused for participation in a University-sponsored event, such as choral performances off campus, intercollegiate athletic events, or judicial hearings at which the student must be present.

A student generally will be held responsible for all work of a class or laboratory missed during an absence. Acceptance of any excuse for an absence, other than those excused by the appropriate dean in the previous paragraph, and any provision for make-up, will be at the discretion of the instructor provided it is consistent with the announced policy for the course and with the University Holiday Schedule below. Missed classes, work, tests and/or excessive absences with or without good cause may result in a poorer grade, or failure, in the course. (NOTE: Students enrolled in Business School or School of Continuing Studies courses must attend at least 75% of the class meetings regardless of the reasons for absence to be eligible to receive credit for the course.)

Generally, absences that may be excused by faculty members include accident or illness, death or serious illness of a family member, bona fide religious holiday observance, or participation in other University activities such as field trips. Students should make arrangements with their instructors as far in advance as possible for the make up of any missed work. Students experiencing difficulty in making reasonable arrangements for make-up work may see their dean.
University Holidays

With the increasing diversity of the University community and the limited flexibility in setting the academic calendar, it is not possible to avoid some religious and secular holidays that are very important to some members of our faculty, staff, and student body. However, the University is very sensitive to the special needs of those who need to observe such holidays and will make accommodations for them to make up the time missed if arrangements are made in advance.

The University is officially closed on New Year’s Day, Thanksgiving Day, and Christmas. In addition, some schools are closed for classes on Memorial Day, July 4th, and Labor Day while others hold classes on those days. (See the appropriate academic calendar for specifics.)

Other holidays affecting University community members include Martin Luther King Day, Rosh Hashanah, Yom Kippur, the first two days of Passover, Good Friday, and Easter Sunday. In consideration of their significance for our students, students who observe these holidays will be given an opportunity to make up missed work in both laboratories and lecture courses. If a test or examination is given on the first class day after one of these holidays, it must not cover material introduced in class on that holiday. Faculty and staff should be aware that Jewish and Islamic holidays begin at sunset on the evening before the published date of the holiday.

The University recognizes that there are other holidays, both religious and secular, which are of importance to some individuals and groups on campus. Such occasions include, but are not limited to, Sukkoth, the last two days of Passover, Shavuot, Shemini Atzerat, and Simchat Torah, as well as the Islamic New Year, R’a al-sana, and the Islamic holidays Eid-al-Fitr and Eid-al-Adha.

Students who wish to observe any such holidays must inform their instructors within the first two weeks of each semester of their intent to observe the holiday even when the exact date of the holiday will not be known until later, so that alternative arrangements convenient to both the student and instructor can be made at the earliest opportunity. Students who make such arrangements will not be required to attend classes or take examinations on the designated days, and faculty must provide reasonable opportunities for such students to make up missed work and examinations. To facilitate this, faculty will announce and distribute all anticipated test and examination dates on the course syllabus, distributed at the beginning of each semester. Students should be aware that faculty may need to adjust these dates as necessary.

Examinations

Most classes have examinations at the close of each term, according to a published schedule.

Each student is responsible for taking final examinations as scheduled. No rescheduling, excuse for absence, and/or provision for making final examinations will occur without the written approval of the student’s dean. Such approval shall be made only for illness certified by a physician, participation in authorized University activities, and/or personal emergencies such as death in the family.

Appeals of the rulings associated with the administration of these regulations shall be directed to the student’s dean and, if necessary, through that dean to the academic council of the faculty concerned.

Evaluation

Instructors establish grading criteria for their courses, and prepare and submit the final course reports (using the grades defined under Grading Policies) to the University Registrar for recording. In the event of a question about the accuracy of the recorded grade, a student should direct inquiries to the instructor and/or the Office of the University Registrar.

It is recognized that each class and each student in a class has unique characteristics that the instructor alone is in the best posi-
tion to evaluate; consequently, except in unusual circumstances, formal appeals to others concerning the evaluation on which a grade is based are not appropriate.

If unusual circumstances appear to have existed which could have affected the evaluation, the student should first bring the matter to the attention of the instructor (if available). If that informal inquiry is impossible, or if its results are disputed, the student may next bring the matter to the attention of the department chair and the instructor, jointly. In the event of continued dispute, the student may formally petition the dean of the student’s school who, in consultation with department faculty, may present the matter to the academic council for a decision.

### Grading Policies

The level of student’s performance in classwork and examinations is indicated by letters. *A* (*excellent*), *B* (good), *C* (average), and *D* (poor) indicate that the work has been passed. The foregoing grades may be accompanied by a plus (+) or minus (-) to indicate a relative position within the grade category. *P* shows credit has been earned in a Pass/No-Credit course, and *Z* shows that a course was audited. *S* and *U* indicate satisfactory or unsatisfactory performance in non-academic courses or in a Pass/No-Credit course. *W* indicates that the student withdrew from a course with a passing average. Marks indicating failure and included as such in the grade point average are *F*, *M* (withdrew from a course with a failing average), and *V* (failure because of excessive absences). The *X* indicates that the grade is not available from the instructor.

*I* and *Y* mean that coursework has not been completed by the end of the term. The *I*, which provisionally counts as a failing grade, is given when the reasons for incomplete work are deemed unjustifiable by the instructor. The work is to be made up by the date the instructor specifies, but no later than 45 calendar days from the last class day of the term in which the *I* was given. If the work is not made up during the grace period, the *I* will be converted to *F*. The *Y*, which does not count as a failing grade, is given when the reasons for incomplete work are deemed justifiable by the instructor, or at the end of the first term of a course that continues into a succeeding term. There is no deadline for completion of the work unless the instructor so specifies. In the case of an *I* or *Y*, once the make-up grade is received, it appears to the right of the incomplete grade on the permanent record. In all cases, it is the student’s responsibility to make arrangements for and progress to the completion of an incomplete course.

### Credit and Grade Point Average

The University of Richmond uses the semester hour value. A semester hour is the value of one 50-minute class-hour of work a week through a nominal 14-week semester.

The grade point average is based on two factors:

- **GPA Hours** - The accumulation of academic semester hours that have grades to which grade point values are assigned; and
- **Grade Points** - Given for each semester hour’s grade according to this scale:

<table>
<thead>
<tr>
<th>Grade</th>
<th>GPA</th>

<tr>
<td><em>A</em>+</td>
<td>4.0</td>

**Calculation** - The grade point average is calculated by dividing the total number of grade points earned by the total number of GPA hours.

The accumulations and average are shown each term on the permanent academic record and on the student grade report. Also shown on these reports is the accumulation of Earned Semester Hours. Earned hours are the academic semester hours in which the student has earned passing grades, plus semester hours credit, if any, for accepted transfer work.
Academic Reports

Reports of the student’s progress are prepared each term in the form of the permanent academic record. The information included is the record of the student’s registration and grades, with such other information as may be deemed important. All courses taken at the University of Richmond become a part of the permanent academic record.

Work Taken Elsewhere

This section pertains to students who wish to take academic work elsewhere while actively pursuing a degree at the University of Richmond. (Individuals admitted as transfer students, please see the Advanced Standing section above.)

Study in the United States

The student is to obtain the approval of each department chair concerned and the appropriate dean before taking work elsewhere. The approvals ensure that the work is acceptable to the University, its departmental standards, and the student’s curriculum. The Office of the University Registrar provides the special form for the purpose, and also will answer questions about the procedure.

School of Arts and Sciences
School of Leadership Studies

While students are expected to get approval before taking work elsewhere, work taken without prior approval may be accepted subject to transfer credit policies.

School of Business

The E. Claiborne Robins School of Business will approve for transfer credit those courses that meet the following criteria: The course is completed at an institution accredited by the American Assembly of Collegiate Schools of Business (AACSB); the student receives a final course grade of at least C as verified by an official transcript; the approval of the appropriate department chair and dean is obtained. Approvals should be obtained prior to taking the coursework elsewhere. Courses completed at non-accredited institutions are generally not accepted for credit. Grades for courses taken at another institution are not included in the calculation of the University’s grade point average.

Study Abroad

Students wishing to study abroad should contact the Office of International Education for information about the range of opportunities and the procedures which they must follow. The procedures ensure that academic work abroad will qualify for transfer credits to the University of Richmond, and that the student will continue to be enrolled at the University while abroad. Further information about study abroad is presented in the chapter on International Education.

Visiting Student Status

Under certain circumstances, students, while not enrolled at the University of Richmond, are granted Visiting Student Status. This status is based on attending a University-approved program of study. To determine if a domestic program is approved, contact the Office of the University Registrar; for abroad programs, contact the Department of International Education.

Acceptance of Credit

Summer Study Abroad Programs

Only programs with a University of Richmond director or faculty, which also are administered by the University, are included in this category.

For academic record, degree progress, and grade point average purposes, coursework taken in these programs is treated as if the work were completed on campus. Currently there are 11 such University Study Abroad programs held in: Australia, Costa Rica, Ecuador, the European Union, France, Germany, Greece, Japan, Spain, Russia, and Zimbabwe. All of the programs above are administered through the University of Richmond Summer School office.
Other Programs
Credit will be awarded for pre-approved coursework in which a grade, or equivalent, of C (2.0) or better has been earned. Credit for C (2.0) coursework to be counted toward the major is subject to approval by the academic department concerned. No credit will be awarded for work taken elsewhere until an acceptably complete official transcript in English is received by the University Registrar directly from the institution providing the instruction or the approved agency coordinating the instruction. Such credit is recorded as academic hours passed and is not computed in the student’s grade point average.

NOTE: To determine whether a program is sponsored by the University of Richmond, a student should contact the Office of the University Registrar for programs in the United States, or the Office of International Education for programs abroad.

Academic Standing
Students are expected to achieve in the classroom and make steady progress toward completion of degree requirements. Relevant designations are specified in the following sections.

Class Standings of Students
The class standing is established at first matriculation and is evaluated after grade posting for each subsequent term of enrollment. The standing is based on semester hours passed including, if applicable, acceptable transfer and/or advanced standing credit, but excluding physical activity courses. The standings are:

- Year 1: 0 - 23.9 hours
- Year 2: 24 - 53.9 hours
- Year 3: 54 - 83.9 hours
- Year 4: 84 or more hours

Dean’s List
The Dean’s List of Distinguished Students recognizes outstanding scholars for each fall and spring semester.

School of Arts and Sciences
School of Business
School of Leadership Studies
The student must complete at least 12 earned hours for the semester (excluding P/F hours), with no grade below a B- (2.7), and a minimum term GPA of 3.60.

Academic Deficiencies
Academic deficiencies are of two types: academic warning and academic probation.

Academic Warning
At any time when a student’s overall grade point average falls below 2.00, the student automatically will be on academic warning. A student on academic warning should take active steps to improve academic performance.

Academic Probation
Academic reports are evaluated at the end of each grade-posting period. Regardless of the specific provisions for each school stated below, if at the end of any term a student’s record reveals such significant deterioration in performance that extraordinary action is deemed appropriate by the dean of the student’s school or college, that student may be placed on probation, limited in credit hours of enrollment, or recommended for suspension from the school or college regardless of grade point average. In addition, such student may be restricted from participation in certain University activities.

Appeals of rulings associated with the administration of these regulations shall be directed to the relevant academic council.

School of Arts and Sciences
School of Business
A student who falls below the following minimum accumulations of semester hours and grade point average (GPA) will be placed automatically on academic probation:

- Year 1 (0 - 23.9 hours passed): 1.50 GPA
- Year 2 (24 - 53.9 hours passed): 1.70 GPA
- Year 3 (54 - 83.9 hours passed): 1.85 GPA
- Year 4 (84 or more hours passed): 2.00 GPA
If at the end of the second consecutive semester\(^*\) of enrollment after being placed on academic probation, the student fails to meet the minimum standard based on hours then passed, the student shall be allowed to enroll for no more than 7 semester hours of academic work per regular semester or during the entire summer. Such a student has a maximum of 14 semester hours of work attempted in which to achieve the minimum requirement. Otherwise he or she will be suspended from the School of Arts and Sciences or School of Business.

The above provisions notwithstanding, the dean of the student’s college, in circumstances which seem to warrant such action, may allow the student to continue as a full-time student on probation for a single additional semester.

**School of Leadership Studies**

A student whose leadership studies cumulative grade point average (GPA) falls below 2.30 will be placed automatically on academic probation. While on academic probation a student’s participation in activities such as athletics, debating, dramatic or musical organizations, or their representation of the University in any public capacity, may be restricted.

Following subsequent semesters in which a student fails to reach the minimum GPA required for the major, the record of such student will be reviewed to determine whether further sanctions, which may include dismissal from the School of Leadership Studies, should be applied.

**Readmission to the University**

Students who have withdrawn from the University for whatever reason, other than participating in an approved study abroad, exchange, or visiting away program, and wish to return must make their request for readmission in writing to the Dean of the appropriate academic school. Students seeking readmission to the School of Arts and Sciences should contact the Dean of Richmond College (men) or Dean of Westhampton College (women). Students seeking readmission to the E. Claiborne Robins School of Business or the Jepson School of Leadership Studies should contact the Associate Dean of that school.

**Graduation Qualifications**

To graduate a student must meet certain qualifications.

**Curriculum and Achievement**

A candidate for the Bachelor of Arts, Bachelor of Science, or Bachelor of Science in Business Administration degree must complete 120 semester hours, plus the Wellness requirement. A candidate for the Bachelor of Music degree must complete 126 semester hours, plus the Wellness requirement. Undergraduate degree candidates must earn a grade point average of not less than 2.00 on all coursework attempted and must receive credit for attendance at assemblies and convocations, as required. All degree requirements must be satisfactorily completed.

**Time Limits**

**School of Arts and Sciences**

There is no time limit in regard to the completion of general education requirements. In the event of catalog changes, a student may choose to fulfill admission and general education requirements for graduation from a subsequent catalog provided all of the requirements of the chosen catalog are met.

**School of Business and School of Leadership Studies**

A student must complete the requirements for the degree, as stated in the catalog at the time of entrance, within five years from the date of original entry. Reinstatement to a program after five years requires permission of the academic council of the student’s school. If an extension of time is granted, the student may be required to satisfy the degree requirements in effect at the time of re-entrance.

\(^*\) Work taken during an entire summer, provided 12 semester hours or more are attempted, shall count as a regular semester.
Changes in Catalog Information

Caution: The course offerings and requirements of the University of Richmond are under continual examination and revision. This catalog is not a contract; it merely presents the offerings and requirements in effect at the time of publication and in no way guarantees that the offerings and requirements will not change. The University specifically reserves the right to change requirements for any major, minor, and/or program, and to implement them during any particular year.

The student assumes full responsibility for compliance with all academic requirements. Current course offerings may be obtained from the appropriate department. Current major, minor, program and degree requirements may be obtained from the University Registrar; the Deans’ Offices of the Schools of Arts and Sciences, Business, and Leadership Studies, and Richmond and Westhampton Colleges; or from the department chair of the appropriate department.

In the event the University adopts new general education and/or major, minor, and program requirements, efforts will be made to accommodate hardships during the transition period.

Declaration of Majors/Minors

All undergraduate degrees at the University of Richmond require satisfactory completion of one major. The Bachelor of Arts in Leadership Studies also requires completion of a minor or a leadership concentration. Multiple majors and/or minors also may be pursued, and upon completion will be recorded on the permanent academic record. With the exception of leadership studies, students have the option to declare a major as early as the end of the first year. They are encouraged to declare during the second year, and are expected to declare by the end of the second year.

All declarations of majors and minors must be received in the Office of the University Registrar during the two week Add/Drop period to be effective for that term. Declarations received after Add/Drop will not be processed until the end of the term. For procedures on how to declare majors and/or minors both in the home school and between schools, contact the Office of the University Registrar.

Work at the University

A student must have completed at least 60 semester hours of acceptable course-work required for the degree in one or more of the undergraduate schools of the University. The last 30 hours are expected to be included within the 60 hours.

School of Business

All transfer students, as part of their degree requirements, must complete at least 36 semester hours of coursework in Business/Economics within the School of Business.

School of Leadership Studies

At least 34 of these 60 semester hours must be taken in the School of Leadership Studies.

Financial/Administrative Responsibilities

No degree is conferred if the student’s responsibilities to the University are in an unsatisfactory condition. Responsibilities in this sense include financial and administrative matters such as, but not limited to, delinquent payments, parking fines, or overdue library books.

Degree Application

To graduate a student must file a degree application. Degree applications are to be filed by the second Friday in September for the coming May or August commencement. Those enrolled only in the spring file by the first Friday in February. Students enrolled only in the summer culminating in their graduation file by the third Friday in June.

If degree requirements are not completed prior to the intended graduation date, the student must file a new degree application according to the schedule above.

Degree applications are available in the respective deans’ offices, the residential deans’ offices, and in the Office of the University Registrar.
Students must file the degree application in the Office of the University Registrar.

**Attendance At Commencement**

To graduate a student must comply with the graduation attendance policy. Degrees are awarded in person except by the decision of the University not to do so. A student who expects to graduate in the spring commencement may request absentia status by explaining in writing the very unusual circumstance which prevents participation in the ceremony. This request must be received by the University Registrar no later than eight working days before the ceremony. The University Registrar will notify the degree candidate of the status granted by the University. Unless approved as absentia, a candidate for graduation who does not participate in the commencement ceremony does not graduate. Such candidate may graduate by again filing a degree application and by following the appropriate graduation policy.

August degrees are conferred as of the date specified in the University Calendar, and diplomas are mailed to those qualified.

**Degree With Honors (Latin Honors)**

General academic honors of three ranks are awarded to members of the graduating classes on the basis of their grade point average on work completed at the University of Richmond.

**Graduate Study**

University of Richmond students who are near completion of the undergraduate degree may study in a master's degree program in the University's Graduate School of Arts and Sciences. To qualify for this option, a student must have already passed at least 100 semester hours of coursework before beginning his or her seventh semester of study, have an overall grade point average of at least 3.30, and be admitted to the Graduate School as a regular student by its standard procedures. Individual departments may set a higher minimum grade point average (both overall and in the major) to qualify for this option and/or restrict the courses that may be taken under it. Until students have completed requirements for the bachelor's degree, they may take no more than three courses for graduate credit and not more than two in any given semester. Although a student who is accepted to this option will be enrolled in undergraduate and graduate courses simultaneously, the undergraduate and graduate transcripts will be kept separately. Courses taken for graduate credit will not apply to the bachelor's degree. The student will register as an undergraduate and pay the undergraduate tuition rate until the bachelor's degree is completed.

**Second Undergraduate Degree**

A student may earn more than one undergraduate degree either consecutively or concurrently in relation to another undergraduate degree provided the degrees are not alike, e.g., not two B.A.s or two B.S.s.

The following policies apply to any student seeking a second undergraduate degree.

**Consecutive Bachelor's Degree**

A consecutive bachelor's degree is one which is begun after a first degree has been conferred or after the degree requirements for the first degree have been recorded as completed on the student's permanent academic record.
A student who wishes to pursue the second bachelor’s degree consecutively shall apply to the dean of the school concerned. (Arts and Sciences students should contact the dean of the appropriate residential college.) The dean shall make a decision for admission based on the quality of prior work, the favorable recommendation of the intended major department, and space availability. Once admitted, the student’s grade point average shall be based only on the work taken at the University of Richmond while pursuing the second degree. The student’s dean may limit or deny further registration if the quality of the student’s work indicates that at least a 2.00 average will not have been achieved by the time the student has attempted 30 semester hours. A student admitted for a consecutive degree shall be considered a member of the senior class for registration purposes.

To earn a consecutive bachelor’s degree, a student must achieve at least a 2.00 grade point average on a minimum of 30 additional semester hours of resident academic coursework selected from the catalog of courses. Courses in which a student-opted Pass is earned shall not count in the 30 hours. In addition, general education requirements appropriate to the degree being sought, as well as requirements for the major, must be met satisfactorily. Work taken for the preceding degree may be considered as transfer credit for the purpose of meeting these requirements; however, at least half of the major must be taken at the University of Richmond, and all other degree requirements must be met as outlined on page 41 under Graduation, including the 60-hour residency requirement.

A student who completes the requirements for the consecutive degree is ineligible for Latin honors, and will not be assigned a graduating class rank.

**Concurrent Bachelor’s Degree**

A concurrent bachelor’s degree is one which is pursued at the same time as another bachelor’s degree.

A student who wishes to pursue a bachelor’s degree concurrently shall notify the dean of his or her school promptly after the decision is reached. (Arts and Sciences students should contact the dean of the appropriate residential college.) A student in the School of Business or the School of Leadership Studies who desires a second undergraduate degree in the arts and sciences must receive the approval of the dean of the appropriate residential college as well as the sanction of the dean of their home school. Even when approved for the second degree, such student remains a member of their home school for academic, administrative, and extracurricular purposes.

When two degrees are being sought concurrently, the grade point average computation and all academic policies are administered on the basis of the then-accumulated work for both degrees.

To earn a concurrent bachelor’s degree, a student must complete 150 semester hours of academic work plus the Wellness requirement (156 if one of the degrees is the Bachelor of Music) with at least 90 of the hours taken at the University of Richmond. In addition, the general education requirements appropriate to each degree being sought, as well as requirements for the majors, must be completed satisfactorily. At the proper time, two degree applications must be submitted simultaneously to the University Registrar.

Latin honors, if earned, will be shown on both degrees.
A liberal arts education is typically characterized by the development of broad intellectual and cultural interests and by the achievement of a significant body of skills and knowledge. It is the particular responsibility of a general education curriculum to address the first of these goals—the broadening of students' interests—while also laying the foundation for the acquisition of advanced skills and deeper knowledge within optional areas of concentration, normally defined as majors. So it is at the University of Richmond, where a distinctive general education curriculum has been designed to provide a stimulating and challenging introduction to collegiate life through a First-Year Core Course; to establish the basic prerequisites of productive scholarship through a set of Communication Skills requirements; to convey the basic knowledge and habits needed to live a healthy life through Wellness requirements; and to familiarize students in a meaningful way with some of the major approaches to intellectual and cultural life through a series of Fields-of-Study requirements.

This curriculum is offered by a faculty that sees general education as fundamental to its mission. Through its various general education courses, the faculty intends to incorporate each and every student into a community of learners who value and practice the life of the mind. Beginning with their general education courses and continuing through the courses in their major, their elective courses, and their various co-curricular and extra-curricular learning experiences, University of Richmond students are expected to develop their ability to think critically and independently, to learn to tolerate ambiguity where true ambiguity exists, and to grow in their respect for—and their ability to deal with—the kinds of multiplicity that characterize our complex world. The common goal of the University's faculty is the education of independent, responsible, and contributing members of society.

I. First-Year Core Course (CORE)

This two-semester course explores some of the fundamental issues of human experience through close analysis of relevant texts drawn from a number of cultures, disciplines, and historical periods. In this course all first-year students, together with a significant portion of the faculty, share a common syllabus, and thus engage in a common conversation. A central goal of the course is to incorporate students into a community of learners from the very start of their collegiate careers. It is also hoped that the intensive reading, focused discussions, and frequent writing that typify the course will develop the fundamental skills required for subsequent coursework and life. Sometimes associated with the course are co-curricular events such as lectures and musical performances. This course is to be taken and passed by all students, without exception, in their first year of matriculation. It earns three academic credits per semester.

II. Communication Skills

Ideas and experiences must be communicated if they are to be shared, scrutinized, and transformed into effective knowledge. Toward these ends, the faculty expects each student to develop skills in expository writing, oral communication, and foreign language.

Expository Writing (COM1)

As regards expository writing, or basic composition, the faculty assumes that all entering students have a certain level of technical competence, but scholarly work at the collegiate level demands that a student's writing be not
only technically correct but also purposeful and effective. For this reason, the basic course that satisfies this requirement—English 103—is essentially a course in critical thinking, in which writing skills are developed as a tool for thought and communication. Although some students are exempted from this course on the basis of certain test scores, the majority of incoming students still satisfy this requirement through taking and passing English 103. In addition to this course, the faculty has begun to implement a writing program that will help to enhance the expository writing skills of many University students beyond the minimum level set by this requirement.

**Oral Communication**

Oral communication is another skill that is essential for education and life. Students should be able to speak so that their ideas are expressed logically, lucidly, and effectively, and they should be able to provide relevant evidence whenever appropriate. In addition, students should be able to analyze the spoken discourse of others. The general education curriculum at the University of Richmond assists students in these regards by immediately immersing them into frequent and intensive oral exchanges and presentations in the First-Year Core Course, and by offering relevant courses, such as Rhetoric and Communication Studies 101, through the Department of Speech Communication. In addition, many faculty and departments have been increasing the oral communication components in their courses and seminars, with the goal of enhancing this fundamental skill. Their efforts are assisted by the University’s Speech Center. There is no required course that students must take to fulfill this portion of their general education.

**Foreign Language (COM2)**

Foreign language has become more and more important as the world for which students are preparing themselves has placed increasing demands upon them to understand the national and cultural perspectives of other language groups. The knowledge of a foreign language is critical for achieving such understanding as well as for exposing the learner to other cultures, in ancient or contemporary guise, that he or she may encounter after graduation. For these reasons, the faculty expects all students to demonstrate functional ability in listening, speaking, reading, and writing in a modern foreign language or in reading and writing in a classical language. These abilities are appraised either at entrance or through introductory and intermediate courses.

**III. Wellness Requirement (WEL1 and WEL2)**

In keeping with the University’s objective of fostering knowledge and personal habits that contribute to health and wellness, every undergraduate at the University of Richmond is required to complete a three-part series on wellness. The wellness series covers 1) an alcohol awareness program called URAWARE and 2) two mini-workshops on health and wellness related topics such as nutrition, sexual health, and fitness, called the Plus2 program. The URAWARE component, Wellness 085, is to be taken and satisfactorily completed in the first year of matriculation. The Plus2 component, Wellness 090, is strongly urged to be taken and satisfactorily completed before or during the third year.

**IV. Fields of Study**

Fields-of-study courses introduce students to some of the primary fields, or sets of related disciplines, within which scholars group phenomena for study. These courses are intended to familiarize students with the kinds of questions raised by scholars within each of these groupings, and with the methods by which scholars try to answer such questions. Although fields-of-study courses are typically offered by individual departments, they have nonetheless been designed and approved with general education as their primary objective. Thus, their scope exceeds the boundaries of singular disciplines insofar as they seek to give explicit attention to the perspectives, ways of thinking, and methodological approaches of larger fields of inquiry. In order to give students a broad understanding as well as a basic foundation for further study in any of these...
fields, the faculty requires students to pass specially designated courses in each of six fields-of-study: historical studies, literary studies, natural science, social analysis, symbolic reasoning, and visual and performing arts. The minimum number of academic credits to be earned in each case, except in the natural science, is three. In natural science, as explained below, students must earn four academic credits in each of two different sciences.

**Historical Studies (FSHT)**

Historical studies examine events and actors of the recent or distant past within the context of the ideas, institutions, social norms, cultural practices, and physical environments out of which they arose. Courses with an historical perspective enable us to understand the values and institutions of disparate societies and cultures as they have developed over time.

By emphasizing the critical analysis of sources and the interrelationships among ideas, institutions, social structures, and events within one or more interpretive frameworks, these courses foster students' awareness of the methods and perspectives for understanding past societies and cultures in historical context. Courses that focus narrowly on the history of a discipline, that only use chronology as an organizational structure, or that do not stress the context in which ideas and events occurred fall outside the category of historical studies.

**Literary Studies (FSLT)**

The field of literary studies concerns itself with verbal texts read as structures of meaning. While language is a practical tool for thought and communication of many sorts, the particular focus of literary studies is on linguistic creations as meaningful in themselves, and not purely as documents that record meaning outside themselves.

Courses satisfying the literary studies requirement are centrally concerned with the textual analysis of primary works. They consider a variety of interpretive frameworks and attend to one or more collateral areas of investigation, including the study of the process by which texts are created and received, the historical and cultural contexts in which they are created and received, and their relationships to each other and to other fields of experience and analysis. The field of literary studies brings its perspectives and methods to bear on imaginative and non-imaginative works alike.

**Natural Science (FSNB, FSNC, FSNP)**

The field of natural science is concerned with the physical universe from subatomic to cosmic levels of organization, including inanimate as well as living systems, their structure, diversity, interaction, and evolution. Based upon the generation and testing of hypotheses, scientific inquiry is restricted to the study of repeatable, measurable, and verifiable phenomena. Within this field, knowledge may be gained either by controlled experiment or diligent observation, depending upon the phenomena being studied. Similarly, some of the field's methodologies rely upon quantitative analysis, while others are primarily qualitative.

The natural science requirement is designed to enhance students' appreciation of the beauty of science as well as their understanding of the challenges of doing science. Students gain experience in the formulation and testing of hypotheses and are introduced to more than one scientific methodology. The natural science requirement consists of two laboratory courses selected from two of the three areas of science represented at the University of Richmond, namely, chemistry, physics, and the biological sciences. This requirement can be met by topical as well as survey courses.

**Social Analysis (FSSA)**

Social analysis is the systematic study of individual and social human behavior. This field of study involves a systematic theoretical and empirical examination of the patterns of human behavior within or across various societies and cultures.

Courses satisfying this requirement focus on human behavior. They teach students to analyze individual and group behavior by utilizing a variety of theoretical and empirical frameworks. All courses in this field of study
must include the reading of or involve students in research on patterns of human behavior. Courses that employ social contextual analysis for purposes of providing a frame of reference for the study of other phenomena, such as literary texts, works of art, etc., do not fulfill this requirement.

**Symbolic Reasoning (FSSR)**

As a field of study, symbolic reasoning is distinguished by its attention to internal logical consistency and by its wide external applicability. This field of study emphasizes symbolic problem solving, a process that includes translating problems into terms that are amenable to treatment within a symbolic system, understanding consistent rules by which the information relevant to the problem may be processed in order to obtain a solution, recognizing important underlying principles that govern the application of these rules, and judging both the appropriateness of known solution methods to a particular problem and the quality or reasonableness of the solution obtained.

Courses in this field of study aim to develop in students the skills to obtain valid solutions using one or more symbolic systems, the ingenuity to translate new problems into appropriate terms for such systems, and the persistence to carry a solution method through to completion. The focus of a symbolic reasoning course should be on understanding the symbolic system and how it can be used to develop problem-solving tools rather than on the tools themselves. Applications of these tools, while a welcome addition, should not be the primary objective of the course.

**Visual and Performing Arts (FSVP)**

The field of visual and performing arts considers questions having to do with the forms, traditions, meaning, and historical contexts of works in visual and performance media, and explores issues of method, process, and personal resources in the media.

Courses satisfying this requirement are centrally concerned with the roles of creation and interpretation in the study of art. They develop in students an enhanced understanding of art both by fostering their intellectual appreciation of works of art and by involving them in the creative process. These courses are suffused with the notion that the arts are a powerful and profound influence on human perception and understanding.

**Conclusion**

In addition to the fundamental educational experiences represented by these requirements, the faculty recognizes that thoughtful reflection upon an even wider range of topics and issues—e.g., pertaining to gender, race, ethics, international perspectives, and other matters—is an important component in the education of Richmond students. While some of these topics and issues may be addressed in one or another course in the general education curriculum, the faculty feels strongly that they are best treated—sometimes focally, sometimes incidentally—within many different courses, outside as well as inside that curriculum. By addressing them in a variety of ways, from a variety of viewpoints, and with a variety of voices across the entire curriculum, the faculty as a whole will insure that students are aware of the many complex and serious ways in which these issues touch their lives and the lives of others.

**Note:** Courses meeting general education requirements are denoted with the appropriate code following the course description in this catalog, as well as in the Schedule of Classes, published each semester. The codes are as follows:

- COM1 - Communication Skills - Expository Writing
- COM2 - Communication Skills - Foreign Language
- CORE - First-Year Core Course
- FSHT - Field of Study: Historical Studies
- FSLT - Field of Study: Literary Studies
- *FSNB - Field of Study: Natural Science, Biological Sciences
- *FSNC - Field of Study: Natural Science, Chemistry
- *FSNP - Field of Study: Natural Science, Physics
- FSSA - Field of Study: Social Analysis
- FSSR - Field of Study: Symbolic Reasoning
- FSVP - Field of Study: Visual and Performing Arts
- WEL1 - URAWARE
- WEL2 - Plus2: Wellness Topics

*Note:* The natural science field-of-study requirement consists of two semesters of science from two different subject areas.
The School of Arts and Sciences offers a majority of the courses taken by undergraduate students at the University. Even students who major in business or leadership studies take up to two-thirds of their courses—elective as well as general education courses—in the School of Arts and Sciences. The School provides a broad range of majors and offers numerous opportunities for interdisciplinary study. Such study takes many forms, from self-designed programs, to interdisciplinary concentrations within traditional fields, to fully developed interdisciplinary majors. Graduates today live in a world in which the ability to integrate knowledge and skills from a variety of disciplines is increasingly important. The School of Arts and Sciences fully recognizes this fact and is constantly working to create opportunities for students to integrate and apply what they are learning.

Engagement in active and interactive learning is the hallmark of education in the School of Arts and Sciences. Students are involved in guided independent study projects, collaborative research with faculty and other students, internships and other service learning experiences, as well as artistic and creative projects. Active engagement enables students to assume increasing responsibility for the own learning and development, and prepares them for lifelong growth and adaptation to change.

The faculty of the School are committed, first and foremost, to teaching and learning, and to the overall education and development of their students. Faculty take the advising and mentoring of students very seriously and meet frequently with their students and advisees to discuss course-related projects as well as career plans and long-term goals.

The School’s faculty are also productive scholars and artists, who introduce students to the excitement of research and creative activity. As distinguished scholars, scientists, artists, and practitioners, they are able to teach by example as well as by precept.

By graduation, Arts and Sciences students are well prepared for employment in the business, service, or non-profit sectors and for further study in graduate or professional schools. Contrary to popular belief, Arts and Sciences students do well on the job market, both in getting initial employment and throughout their careers. The knowledge and skills fostered by a liberal arts education serve students well in the world of work, as well as in their personal lives. In addition, an education in the School of Arts and Sciences prepares students to become well-informed and thoughtful citizens, able to contribute to the lives of others and to help advance the society of which they are a part.

Curriculum Requirements

The School of Arts and Sciences offers Bachelor of Arts, Bachelor of Science, and Bachelor of Music degree programs. In addition to the degree requirements previously stated under Graduation, a candidate must satisfy general education requirements and major requirements outlined in the following pages.*

Course limitations - Of the following no more than the stated semester hours can count toward any degree in a given school:

~ 24 semester hours - Courses not in the School of Arts and Sciences curriculum and not comparable in intent and/or subject matter to such courses
12 semester hours - Internship courses of whatever kind, excluding student teaching and Theatre 330-341, Practicum

6 semester hours - Internship 388 taken in the same academic department

Courses taught through the School of Continuing Studies may not be used to meet general education requirements.
See also the previous section entitled “Repeated Courses.”

Bachelor of Arts
I. General Education Requirements

Courses used to satisfy the First-Year Core Course, the Communication Skills, and the Wellness requirements of the General Education Requirements may not be used to meet the fields-of-study requirements for the degree. The First-Year Core Course must be taken in the first year of matriculation. The Communication Skills and the URAWARE Wellness requirements are normally met in the first year of university study, and should not be postponed beyond the second year.

A. First-Year Core Course
A student may satisfy this requirement by passing CORE 101-102.

B. Communication Skills I - English 103
A student may satisfy this requirement by meeting one of the following alternatives:
(1) Passing English 101-102 (no longer offered at the University of Richmond), completing English 103 with a grade of C (2.0) or higher, or presenting a score of 5 or 4 on a Modern Foreign Language or Latin Advanced Placement test, or presenting a score of 5, 6, or 7 on an IB High Level exam in a Modern Foreign Language
(2) Presenting a score on the SAT-II Subject Test - Writing/English Composition or the ACT acceptable to the Department of English
Only alternative (1) carries semester hours credit toward a degree.

C. Communication Skills II - Foreign Language
A student may satisfy this requirement in a modern foreign language or in a classical language by meeting one of the following alternatives:
(1) Passing the intermediate (122 or 202) level of one language, presenting a score of 5 or 4 on a Modern Foreign Language or Latin Advanced Placement test, or presenting a score of 5, 6, or 7 on an IB High Level exam in a Modern Foreign Language
(2) Presenting a score on the SAT-II Subject Test acceptable to the language faculty concerned, or a score of 3 on a Modern Foreign Language Advanced Placement test
(3) Making an acceptable score on a departmental placement test
(4) For non-native English speakers, obtaining an acceptable score on the TOEFL
Only alternative (1) carries semester hours credit toward a degree.

D. Wellness Requirement
A student may satisfy this degree requirement by satisfactorily completing Wellness 085, URAWARE: Alcohol Awareness Program, and two sections of Wellness 090, PLUS2: Wellness Topics.

*University Scholars are not required to satisfy the General Education Requirements, except the First-Year Core Course, CORE 101-102, nor is any major or minor required for their graduation. If a University Scholar declares a major or program, however, that student must satisfy whatever requirements are stated.

*Oldham and Ethyl Scholars are exempt from the Communication Skills requirements only, but must satisfy the First-Year Core Course, the Health and Physical Activity, and all Fields-of-Study requirements of the General Education Requirements.
E. Fields of Study

A student may satisfy the fields-of-study requirements by passing one approved course in each of the areas of historical studies, literary studies, social analysis, symbolic reasoning, and visual and performing arts, and two approved courses in natural sciences from two different subject areas. Such courses must have been approved by the General Education Committee and the faculties of the Schools of Arts and Sciences, Business, and Leadership Studies as meeting these requirements.

Courses meeting general education requirements are designated in this catalog following the course description, as well as in the Schedule of Classes. All courses used to meet general education requirements must be passed with a grade of D- (0.7) or higher, with the exception of English 103, which requires a C (2.0) or higher. No general education courses may be taken Pass/Fail.

Summary of General Education Requirements

First-Year

Core Course, 6 credits

Communication Skills

Expository Writing, 3 credits

Foreign Language, up to 16 credits

Oral Communication

Wellness

URAWARE, non-credit

Plus2 (two topics of choice), non-credit

Fields of Study

Historical Studies, 3 credits

Literary Studies, 3 credits

Natural Science, 8 credits

Social Analysis, 3 credits

Symbolic Reasoning, 3 credits

Visual and Performing Arts, 3 credits

Total: up to 48 credits

II. Requirements for the Major

The major is a field of academic study chosen as an area of specialization. A major will include courses in a subject area,* such other courses outside the subject area as may be designated, and any courses prerequisite to those required courses. Unless a special waiver of the Academic Council has been granted to a department or program and endorsed by the Arts and Sciences faculty, a major will require 30 to 36 hours in a single subject area, including all prerequisites within the subject area. In addition, a major will require no more than 54 total hours, counting all courses both inside and outside the subject area, including all prerequisites for those courses. Majors in interdisciplinary programs will require a minimum of 30 hours and no more than 54 total hours, including all prerequisites.

In no case may a student count more than 60 hours from a single subject area toward the minimum number of hours necessary for graduation.

English 103, the Wellness requirements, and basic modern foreign language courses through the intermediate level will not be counted toward the major. Classical languages are exempt from this exclusion.

A student may concurrently fulfill the requirements of more than one major. To initiate more than one major, the student should declare the majors in the manner currently provided. Upon graduation, only one degree will be conferred,** but each completed major will be recorded on the student's permanent academic record, provided the student has listed the major on the degree application and is certified to have completed all of the requirements specified for the given major.

If a student’s major(s) and other coursework can be arranged to meet the requirements for either the Bachelor of Arts degree or the Bachelor of Science degree, no more than one degree has been earned; however,

---

*Subject area refers to coursework listed under a single specified rubric as published periodically in the Schedule of Classes by the Office of the University Registrar.

**Students interested in earning more than one undergraduate degree should refer to “The Second Undergraduate Degree” on pages 43-44.
the student must specify which degree is desired. Any major associated with a degree not chosen shall be recorded according to the provisions previously stated.

Specific major requirements may be found under the appropriate academic department listing in the Curricula section. In that section, the requirements are presumed to be for the Bachelor of Arts degree unless otherwise stated. For a description of the Minor Option, see that heading in the Program Opportunities section of this chapter.

**Bachelor of Science**

**I. General Education Requirements**

The requirements are the same as for the B.A. degree except proficiency in calculus must also be demonstrated by passing Mathematics 212 or completing acceptably the Advanced Placement Test.

**II. Requirements for the Major**

The provisions listed under the B.A. degree apply. The B.S. degree is offered only in biology, chemistry, computer science, health, interdisciplinary studies, mathematics, physics, psychology, and sport science. For differences in the major requirements for the degrees, consult the appropriate departmental description under “Curricula.”

A major will include courses in a subject area, such other courses outside the subject area as may be designated, and any courses prerequisite to those required courses. (See note under Bachelor of Arts for definition of subject area.) Unless a special waiver by the Academic Council has been granted to a department or program, and endorsed by the faculty, a major will require 30 to 42 hours in a single subject area, including all prerequisites within the subject area. In addition, a major will require no more than 64 total hours, counting all courses both inside and outside the subject area, including all prerequisites for those courses and Calculus II. The interdisciplinary studies program will require a minimum of 30 hours and no more than 64 total hours, including all prerequisites.

In no case may a student count more than 60 hours from a single subject area toward the minimum number of hours necessary for graduation.

**Bachelor of Music**

The Bachelor of Music degree does not require the same general education requirements which pertain to the B.A. and B.S. degrees. Of the hours required for graduation, at least 80 semester hours must be taken within the Department of Music, and a minimum of 30 semester hours must be taken outside the Department of Music.

All Bachelor of Music majors must take the following:

**MUSIC CORE REQUIREMENTS**

109 Elementary Musicianship 4 hours
110 Tonal Harmony I: Common Practice Period 4 hours
211 Tonal Harmony II: Chromaticism 4 hours
212 Analytic Approaches to Twentieth-Century Music 4 hours
213 Computer Music 3 hours
227-228 General History of Music 4-4 hours
24 semester hours of applied courses on major instrument
8 semester hours in large performing ensembles
4 semester hours in small performing ensembles
18 semester hours in Music History and Literature above Music 228, or Music in Popular Culture above Music 200, or Music Theory above Music 212, or Music Technology, excluding ensembles, keyboard skills, applied courses, and Music 388 (Internship)

A Junior Recital
A Senior Recital

**LIBERAL ARTS REQUIREMENT**

Core 101-102, Exploring Human Experience 3-3 hours
Communication Skills I, Expository Writing
English 103, Introduction to Expository Writing; 3 hours
ACADEMIC PROGRAMS

OR
Exemption by Advanced Placement or SAT-II Subject Test
Communication Skills II, Foreign Language
Passing the 202 level (or its equivalent) of Chinese, French, German, Italian, Japanese, Russian, or Spanish
Academic elective courses outside of music including one course from social/behavioral sciences and one course from natural sciences/mathematics, sufficient to bring the total to at least 30 semester hours.

Degree Credit for Professional Studies
Professional studies in medicine, dentistry, or law may be substituted for the fourth year of academic work under the following conditions:
1. At the end of the second year, the student must have completed at least 60 semester hours of academic work with at least 180 grade points
2. Before registering for the third year in the School of Arts and Sciences, the student’s course of study must be approved by the dean of the student’s school, (Dean of Richmond College for men, and Dean of Westhampton College for women)
3. At the end of the third year the student must have completed at least 100 semester hours of academic work with at least 300 grade points
4. During the first year in a professional school, the student must make satisfactory progress toward achieving the professional degree as certified by the professional school

Under the above conditions, the student’s professional work may be offered in lieu of certain degree requirements. A candidate for the B.A. degree may offer, for example, the first year’s work in an accredited law school for a maximum of eight semester hours in the major and the remaining work for elective courses.

Special Program Opportunities
Creative Writing Program
Designed for students who would like to combine the creative and scholarly aspects of literature, this program includes course offerings in creative writing and related disciplines (see listings in English under Curricula), presentations by eminent writers, workshop privileges, and publication outlets. The program assists students to become writers of poetry, fiction, or drama, or to continue their studies on the graduate level. Further information is available from the Department of English office in Ryland Hall.

Honors Program
Outstanding students with intellectual initiative and the desire to pursue academic achievement beyond standard coursework have the opportunity to broaden and deepen knowledge in selected major fields through the Honors Program. Departmental honors coordinators invite promising qualified majors to apply, but an interested student may contact his or her major department or the Faculty Committee on the Honors Program to indicate interest and obtain further information. To qualify, a student should have at least a 3.30 cumulative grade point average, 65 or more semester hours completed, and, excluding coursework primarily for first-year students, 12 or more semester hours completed with distinction in the major field. Successful completion of an Honors Program is shown on the student’s permanent academic record and on the diploma.

Interdisciplinary Programs:
Self-Designed Interdisciplinary Studies Major
Under the general supervision of two faculty advisors and the Coordinator of Interdisciplinary Studies, a self-designed interdisciplinary major is offered. The interdisciplinary major provides a student the opportunity to propose and pursue, with faculty supervision,
a unique program of study leading to either a Bachelor of Arts or a Bachelor of Science degree with a major in Interdisciplinary Studies. A senior thesis, which is the culmination of the major and for which the student receives three credit hours, is required.

Applications and further information are available from the Coordinator of Interdisciplinary Studies or from the Dean of the School of Arts and Sciences whose office is in Boatwright Library. Applications are to be submitted to the Coordinator of Interdisciplinary Studies by April 1 of the second year. At least a 3.00 cumulative grade point average is recommended.

**Interdisciplinary Majors**

In addition to the self-designed interdisciplinary major, the School of Arts and Sciences offers support for interdisciplinary study through six interdisciplinary programs that offer majors within the Bachelor of Arts degree. They are American Studies, Classical Civilization, Criminal Justice, International Studies, Urban Practice and Policy, and Women’s Studies. Further information is available from the Program Coordinators listed under each program.

**International Studies Major**

International Studies is a cross-cultural, interdisciplinary major comprising eight areas of concentration, of which the student selects one. The concentrations are Africa, Asia, International Economics, Latin America, Modern Europe, World Politics and Diplomacy, and Russian and Eastern European Studies. Further information is available from the Office of International Education in the administrative wing of Boatwright Library.

**Interdisciplinary Concentrations**

The School of Arts and Sciences offers a series of curricular configurations known as “interdisciplinary concentrations within disciplinary majors.” Instead of constituting standalone majors or minors, these concentrations are tied closely to selected majors, thus fostering an integrated learning experience that offers depth in a traditional discipline combined with breadth in interdisciplinary study. Current interdisciplinary concentrations include Arts Technology (for Studio Art, Music or Theatre majors) Biochemistry (for Chemistry majors), Comparative Literature (for English majors), Dramatic Studies (for English or Theatre majors), Medieval and Renaissance Studies (for English majors), Music Theatre (for Music or Theatre majors), and Neuroscience (for Biology or Psychology majors). An interdisciplinary concentration within a disciplinary major toward a B.A. degree will require no more than 72 total hours, counting all courses and including all prerequisites for those courses. An interdisciplinary concentration within a disciplinary major toward a B.S. degree will require no more than 75 total hours, counting all courses and including all prerequisites for those courses and Calculus II. For specific descriptions and requirements, refer to pages 145-149.

**Internship Program**

Internships provide students with supervised opportunities to understand by direct experience how skills and theories learned in the classroom are applied in business, industry, community agencies, and government. Each internship must include an academic base, such as an appropriate reading list or other resources, which demonstrates or stresses the interrelatedness of the academic background with the selected workplace.

Internships are usually limited to junior or senior students who must have the prior approval of the department concerned. No more than 12 semester hours of internship courses of whatever kind nor more than six semester hours of Internship 388 taken in the same department may be counted toward a School of Arts and Sciences degree. Student teaching and Theatre Arts 330-341, Practicum, are not included in this policy.

Further information is available from the chair or coordinator of the appropriate department or program.
Marine Studies

The University of Richmond Department of Biology and the Duke University Marine Laboratory (DUML) offer a program supplement in marine science. Instruction is given by DUML and may be accepted as transfer credit in the student’s University of Richmond program. Further information about the program can be obtained from the University of Richmond Department of Biology.

Master’s Degree, Early Beginning

University of Richmond students who are near completion of the undergraduate degree may begin study in a Master’s Degree program in the University’s Graduate School of Arts and Sciences. Please see page 43 for further details.

Minor Option

A minor is a secondary academic specialization which may be sought in addition to the required academic major. A minor consists of at least 15 semester hours and may include certain other requirements as specified by the academic department concerned. A student may elect to complete more than one minor in the degree program. The minor is declared in the same manner as the major. Upon graduation, each completed minor will be recorded on the student’s permanent academic record, provided the minor is listed on the degree application form and the requirements have been met. Many academic departments offer a minor. The requirements in the minor, for the departments in which the minor is available, are presented under the appropriate departmental listing in the Curricula section.

Research Grants for Undergraduates

Each year the School of Arts and Sciences offers its students unusual opportunities for research projects. Grants are awarded by the Undergraduate Research Committee to support research projects in a variety of ways such as purchase of materials and equipment, travel or other such expenses, and presenting or publishing the results of the research. The grant may be awarded for a project which is the student’s own idea or an idea which has been conceived in cooperation with a faculty member; in any case there must be a faculty member who is willing to supervise the project. Generally, the project is approved for academic credit, and often the student and the faculty member will co-author one or more professional papers on the work.

Application forms and further information are available from the Associate Dean of the School of Arts and Sciences whose office is in the administrative wing of Boatwright Library, or through the departmental chair of the department in which the project is to be supervised.

Undergraduate Work Taken After Graduation

Students who have graduated from an accredited college or university and who wish to take undergraduate courses in the liberal arts and sciences during the academic year, but not for degree purposes, should apply to the Office of Admissions for acceptance as an unclassified student. Permission to take such classes may be granted on a space-available basis and with due regard for prior achievements. Application for such undergraduate work to be taken in the summer will be received by the Summer School office. Students who are required to take undergraduate work in preparation for a University of Richmond Arts and Sciences graduate program, or who take undergraduate and graduate work simultaneously, shall register through the Arts and Sciences Graduate School.

Additional majors may be completed after graduation and recorded subject to the following: The student must have a Bachelor of Arts degree or a Bachelor of Science degree from the University of Richmond; all work required to complete the additional major subsequent to graduation must be taken at the University; the academic department concerned must certify that the major is complete; and the student must complete the work within two years of graduation unless additional time is granted by the major department concerned, and the department notifies the University Registrar.
UNIVERSITY OF RICHMOND

Individual Internship
Any academic department may offer an individual internship under the following general description.

388 Individual Internship. Application of academic skills and theories in a selected work environment, plus related academic work supervised by a member of the faculty. Pass/fail grading may be designated by a department for any or all enrollments. May be repeated; however, no more than six semester hours in the same department may be counted toward the total number of hours required for a degree. Prerequisite: Permission of department concerned. 1-6 sem. hrs.

Note: No more than 12 semester hours of internship of any kind may count toward the total number of hours required for a degree. Student Teaching and Theatre Arts Practica are not included in this policy.

First-Year Core Course (CORE)
Kathleen M. Hewett-Smith, Coordinator (English)
This course provides an intensive introduction to critical analysis at the college level for first-year students. Students examine important primary texts from a number of world cultures and historical periods. The course’s primary concern is to develop students’ ability to analyze texts and to express their ideas about these texts and about the issues they raise. The course is required of all first-year students.

101-102 Exploring Human Experience. Intensive reading and analysis of important primary texts dealing with basic issues of human existence. Strong emphasis on discussion and writing. To be taken in consecutive semesters during the first year. 3-3 sem. hrs.

American Studies (AMST)
Robert C. Kenzer, Coordinator (History)
The American Studies Major
Note: The grade point average of the coursework comprising the major must be no less than 2.00 with no course grade below C- (1.7).

Thirty-three semester hours selected from the courses below distributed as follows:
American Studies 201 3 hours
One course selected from either
American Studies 301-341, or 381 3 hours
Either American Studies 390 or 391 3 hours
Area A—American Literature 6 hours
Area B—American History 6 hours
Area C—Social Sciences 6 hours
Area D—Fine Arts and Humanities 6 hours

No more than nine semester hours of courses below the 300 level (and no more than three semester hours at the 100 level) may be counted toward Areas A, B, C, and D.

American Studies Courses (AMST)
201 Introduction to American Studies. Surveys multidisciplinary nature of American Studies by focusing on methodologies, sources, themes, and major ideas used when examining American culture. 3 sem. hrs.
301 The Harlem Renaissance. Study of meaning, goals and strategies, and periodization of the Harlem Renaissance. Prerequisite: American Studies 201, or at least junior status, or permission of instructor. 3 sem. hrs.
321 American Immigration and Ethnicity. Examination, through historical and literary materials, of challenges confronting and posed by waves of immigrants who shaped American civilization. Prerequisite: American Studies 201, or at least junior status, or permission of instructor. 3 sem. hrs.

322 Jews in the American Mind. Interdisciplinary exploration of image of Jews in several spheres of American culture, chiefly letters, higher education, performing arts, and law. Prerequisite: American Studies 201, or at least junior status, or permission of instructor. 3 sem. hrs.

323 African American Intellectual Leadership of the Twentieth Century. Leadership of ideas by such twentieth-century African Americans as W.E.B. Du Bois and Paul Robeson, black feminists and public intellectuals. Prerequisite: American Studies 201, or at least junior status, or permission of instructor. 3 sem. hrs.

381 Community Problem Solving Seminar. Combines internship with reading and discussion about community problems from multidisciplinary perspectives. Prerequisite: American Studies 201 or junior or senior status. 3 sem. hrs.

390 Seminar in American Studies. Designed primarily as capstone experience for American Studies majors, seminar will focus on topic in American culture that can be approached through several disciplines. Prerequisites: American Studies 201, junior or senior status, and permission of the instructor. 3 sem. hrs.

391 Thesis. Thesis project involving primary sources designed, researched, and written by student under faculty supervision. Prerequisite: American Studies 201, junior or senior status, and an approved prospectus with bibliography. 3 sem. hrs.

398 Selected Topics. Varying multidisciplinary topics related to American Studies. 3 sem. hrs.

See the departmental listings for descriptions of the following courses.

Area A: American Literature

Art (ARTS) and Art History (ART)

Charles Johnson, Chair
Professors Addiss, Johnson
Associate Professors Denton, Rhodes, Softic
Assistant Professor Spaulding
Director of the University Museums, Waller
Professors from the fields in art also are employed as adjunct faculty members.

The Department of Art and Art History offers programs in the studio arts, Western and non-Western art history and museum studies. In the new Modlin Center for the Arts, students work in an environment where they can develop their intellectual and creative abilities to the fullest potential. In addition to a rigorous and stimulating curriculum, students also participate in the activities of the University Museums. The museums present exhibitions of both historical and contemporary art with related lectures, workshops, and symposia, with visiting artists, critics, and art historians. A study abroad program allows students to study art and art history in approved programs under the direction of the Office of International Education. Because majors are required to develop a senior project, it is recommended that prospective majors should consult with the department early to allow adequate time for planning.
The Art History Major

Note: A grade of not less than C (2.0) is required in each course comprising the major.

Forty semester hours selected from the courses below distributed as follows:

A. Art History Surveys 9 semester hours
   ART 121 Art History: Prehistory through the Middle Ages, 3
   ART 122 Art History: Renaissance to the present, 3
   Course in non-Western Art History, 3

B. Art History Courses 12 semester hours
   Four courses selected from:
   ART 213 Art of the United States, 3
   ART 214 Northern Renaissance Art, 3
   ART 215 Art of the Renaissance, 3
   ART 216 Mannerism and the Baroque, 3
   ART 217 Nineteenth-Century Art, 3
   ART 218 Twentieth-Century Art, 3
   ART 278 or 279 Selected Topics, 3 (only one course will count toward the major)

C. Studio Art Courses (ARTS) 6 semester hours
   One 2-D and one 3-D course required

D. Seminar in Art History 3 semester hours
   ART 319, Advanced Seminar, 3

E. Related field course 3 semester hours
   ART 281 Philosophy of Art, 3
   or another course in aesthetics

F. ART 365 Art Theories and Methodologies 3 semester hours

G. ART 466 Thesis: Research Project 4 semester hours
   (Students prepare their bibliography and thesis proposal to present to the art faculty at the end of the fall semester; thesis is completed during the spring semester.)

Honors Program in Art History

Majors are encouraged to apply for and pursue the honors program in Art History. To earn honors in Art History, a student must complete at least 13 hours of honors credit with distinction through a combination of upper-level courses including Art 365-466; the program must be planned in consultation with the student’s major advisor and the department. Honors students must also maintain an overall GPA of no less than 3.30 while in the program.

The Art History Minor

Eighteen semester hours approved by the department, including six semester hours in Art History 121-122; three semester hours from Studio Art 101, 103, or 105; nine semester hours from three elective art history courses of which six semester hours must be at the 200-level.

Art History Courses (ART)

121 Art History: Prehistory through the Middle Ages. Survey of Western Art, with some attention given to non-Western Art, from prehistoric times through the Middle Ages. Intended as introductory course for general student as well as art majors and minors. 121 and 122 may be taken independently and in any sequence. 3 sem. hrs.

122 Art History: Renaissance to the present. Historical and analytical study of representative major works of art from Renaissance to the present for general student and art major. 3 sem. hrs. (FSVP)

213 Art of the United States. Art and architecture from 1800 to 1900. Examined in relation to cultural, political and social contexts of nineteenth-century America. 3 sem. hrs.

214 Northern Renaissance Art. Fifteenth- and sixteenth-century Northern Renaissance art from Van Eyck to Bruegel. 3 sem. hrs.

215 Art of the Renaissance. Major developments in Italian art from early thirteenth century through High Renaissance in early sixteenth century. 3 sem. hrs.

216 Mannerism and the Baroque. Major developments in European art of sixteenth and seventeenth centuries. 3 sem. hrs.
217 Nineteenth-Century Art. Major art trends during nineteenth century in Europe. Special attention given to representation of women in art and women artists. 3 sem. hrs.

218 Twentieth-Century Art. Major movements and developments of modern art in Europe and America. Examination of theoretical bases of modern art, concepts of avant-garde and consideration of public’s relationship to modern art. 3 sem. hrs.

224 Art and the Human Spirit. Exploration of significant periods of world art, stressing non-Western traditions in relation to poetry, music, religion, philosophy, and cultural history. 3 sem. hrs. (FSVP)

226 Art and Culture of Japan. Introduction to art and culture of Japan stressing interconnections between art, literature, and historical developments. 3 sem. hrs. (FSVP)

278 Topics in Asian Art. Examples include Japanese prints, painting, ceramics, Buddhist art, and Chinese calligraphy. May be repeated for credit when topic varies. 3 sem. hrs.

279 Selected Topics. Examples include African art, History of Architecture, and other specialized topics. May be repeated for credit if topics differ. Prerequisite: Permission of instructor. 3 sem. hrs.

281 Philosophy of Art. (See Philosophy 281.) 3 sem. hrs.

282 Values in World Film. Study of films from around the world centering on major themes, with focus on differing cultural values and film art and techniques. 3 sem. hrs.

301 Greek Art and Archaeology. (See Classics 301.) 3 sem. hrs. (FSVP)

302 Roman Art and Archaeology. (See Classics 302.) 3 sem. hrs. (FSVP)

303 The Aegean Bronze Age. (See Classics 303.) 3 sem. brs.

319 Advanced Seminar. Highly focused in-depth studies on topics of Art History related to departmental course offerings. Topics to be chosen by instructor. Representative topics: Poetry and Sculpture of Michelangelo, French Eighteenth-Century Tomb Architecture, Hieronymus Bosch, and Picasso. Prerequisite: 200-level Art History course in the area of the Seminar or permission of instructor. 3 sem. hrs.

320 Seminar in Contemporary Art. Major developments in international contemporary art from 1970 to present, with emphasis on current trends. Prerequisites: Art History 121, 122, and 218, or permission of instructor. 3 sem. hrs.

322 Seminar in Museum Studies. History, philosophy, functions, and future of museums; collection research, evaluation, publications, and museum procedures and education. 3 sem. hrs.

365 Art Theories and Methodologies. Study of theoretical approaches and methods used in discipline of art history. Required for art history majors in fall semester of their senior year. Permission of instructor required for non-art history majors. 3 sem. hrs.

370 History and Aesthetics of Film. (See English 370.) 3 sem. hrs.

380 Advanced Topics in Japanese Art. Topics stated for term. May be repeated for credit when topic varies. Prerequisite: Art 226. 3 sem. hrs.

388 Individual Internship. Supervised work experience at approved museum, gallery, or other art institutions. May be repeated for credit at a different institution. Maximum of six semester hours will be allowed toward major. Prerequisite: Permission of instructor. 1-3 sem. hrs.

395-396 Independent Study. Individually designed program under faculty supervision. Prerequisite: Permission of department. 1-3/1-3 sem. hrs.

466 Thesis: Research Project. Required for art history majors in their senior year. Prerequisite: Art History 365. 4 sem. hrs.

The Studio Art Major

Note: A grade of not less than C (2.0) is required in each course comprising the major.

Forty-four semester hours composed of the following courses:

A. Foundation Courses 9 semester hours

ARTS 101 Drawing I, 3
ARTS 103 Sculpture I, 3
ARTS 122 Design I, 3

B. For a concentration in a specific area or medium (generally in 2-D or 3-D): nine hours beyond the 100-level courses, as approved by the department.

C. Studio Art Electives 9 semester hours

D. ARTS 465 Thesis I: Portfolio Development, 4
ARTS 466 Thesis II: Senior exhibition, 4
E. Art History courses  6 semester hours
   ART 121  Art History: Prehistory through the Middle Ages, 3
   ART 122  Art History: Renaissance to the present, 3

F. Related field courses: three hours of a closely related field course is required, as approved by art department; any upper level art history course will count toward this requirement.

A student seeking teaching licensure may substitute 300 or 400-level studio course, as approved by department, for Studio Art 465.

Honors Program in Studio Art
Majors are encouraged to apply for and pursue the honors program in Studio Art. To earn honors in Studio Art a student must complete 12 hours of honor credit with distinction through a combination of upper-level courses with Thesis I and Thesis II; the program must be planned in consultation with the student’s major advisor and the department. Honors students must also maintain an overall GPA of no less than 3.30 while in the program.

Interdisciplinary Concentration in Arts Technology for Studio Art, Music, and Theatre Majors
See pages 145-146.

The Studio Art Minor
Eighteen semester hours approved by the department, including six semester hours in Studio Art 101, 103, or 105; three semester hours from Art History 121 or 122; nine semester hours from three elective studio art courses of which six semester hours must be at the intermediate or advanced levels.

Studio Art Courses (ARTS)

101 Drawing I. One-semester studio course that explores fundamentals of representational and non-representational drawing and visual perception, using pencil, pen and ink, charcoal, and pastel. 3 sem. hrs. (FSVP)

103 Sculpture I. Basic introduction to material and perceptual problems in sculpture. 3 sem. hrs. (FSVP)

105 Painting I. One-semester studio introduction to practice of painting. Will help student develop working understanding of methods and materials of oil painting while investigating basic aspects of visual perception. 3 sem. hrs. (FSVP)

107 Printmaking I. Projects in woodblocks, linoleum cuts, and etching. 3 sem. hrs.

110 Photography I. Introduction to fundamental, technical, and aesthetic issues of black and white photography with emphasis on using medium for personal expression. Includes series of problems designed to increase understanding of basic camera operation, darkroom techniques, and artmaking strategies. History of photography will be included through study of past and contemporary photography. Camera with manually adjustable aperture and shutter speeds required. 3 sem. hrs.

122 Design I. Color theory, perception, and interaction used in painting, collage, and computer design to study basic principles of two-dimensional abstract design, composition, and computer art. 3 sem. hrs.

131 Ceramics I. Basic introduction to wheel-thrown pottery techniques. 3 sem. hrs.

201 Drawing II. Continuation of Studio Art 101. Prerequisite: Studio Art 101. 3 sem. hrs.

203 Sculpture II. Continuation of Studio Art 103, with emphasis on technical problems in sculpture. Prerequisite: Studio Art 103. 3 sem. hrs.

205 Painting II. Continuation of Studio Art 105. Prerequisite: Studio Art 105. 3 sem. hrs.

207 Printmaking II. Projects in plate and stone lithography/introduction to color printing. Prerequisite: Studio Art 107. 3 sem. hrs.

210 Photography II. Explore different styles of photography through lectures, slides, critiques, and assignments. Introduction to black and white archival fiber-base printing process in addition to experimentation with different films, filters, papers, and developers, and presentation techniques. Prerequisite: Studio Art 110. 3 sem. hrs.

222 Design II. Continuation of Studio Art 122. Prerequisite: Studio Art 122. 3 sem. hrs.

223 Digital Artmaking. Introduction to digital art, including its brief history and how to use it as an art medium. Interdisciplinary course provides basic background to the field of computer technology-based artmaking combined with the studio experience of using this technology to create art. (Same as Computer Science 108). 3 sem. hrs. (FSVP)

231 Ceramics II. Continuation of Studio Art 131 with emphasis on development of technique and individual experimentation with form and surface. Prerequisite: Studio Art 131. 3 sem. hrs.
279 Selected Topics. Examples include watercolor technique, landscape painting, nontraditional artmaking, tea and Japanese aesthetics, and others as arranged by the department. May be repeated for credit if topics differ. Prerequisite: Permission of instructor. 1-3 sem. hrs.

301 Drawing III. Continuation of Studio Art 201. Emphasis on advanced problems in drawing. Prerequisite: Studio Art 201. 3 sem. hrs.

303 Sculpture III. Continuation of Studio Art 203. Advanced problems in sculpture, including stone carving and bronze casting. Prerequisite: Studio Art 203. 3 sem. hrs.

305 Painting III. Continuation of Studio Art 205. Emphasis on advanced problems in painting. Prerequisite: Studio Art 205. 3 sem. hrs.

307 Printmaking III. Continuation of Studio Art 207. Emphasis on advanced problems in printmaking and introduction of experimental printmaking processes. Prerequisite: Studio Art 207. 3 sem. hrs.

322 Design III. Continuation of Studio Art 222. Emphasis on advanced problems in design. Prerequisite: Studio Art 222. 3 sem. hrs.

331 Ceramics III. Continuation of Studio Art 231. Emphasis on advanced techniques, glaze chemistry, and firing techniques. Prerequisite: Studio Art 231. 3 sem. hrs.

388 Individual Internship. Supervised work experience at approved artist’s studio, museum, or gallery. Prerequisite: Permission of instructor. 1-3 sem. hrs.

395-396 Independent Study. Individually designed program under faculty supervision. Prerequisite: Permission of instructor. 1-4/1-4 sem. hrs.

401 Drawing IV. Continuation of Studio Art 301. Emphasis on personal expression in drawing and independent projects. Prerequisite: Studio Art 301. 3 sem. hrs.

403 Sculpture IV. Continuation of Studio Art 303. Emphasis on personal expression in sculpture and independent projects. Prerequisite: Studio Art 303. 3 sem. hrs.

405 Painting IV. Continuation of Studio Art 305. Emphasis on personal expression in painting, and independent projects. Prerequisite: Studio Art 305. 3 sem. hrs.

407 Printmaking IV. Continuation of Studio Art 307. Emphasis on personal expression in printmaking. Prerequisite: Studio Art 307. 3 sem. hrs.

422 Design IV. Continuation of Studio Art 322. Emphasis on advanced problems and portfolio development in design. Prerequisite: Studio Art 322. 3 sem. hrs.

431 Ceramics IV. Continuation of Studio Art 331. Emphasis on personal expression in ceramics. Prerequisite: Studio Art 331. 3 sem. hrs.

465 Thesis I: Portfolio Development. Senior studio art majors will create focused body of work and begin to clarify and establish future directions and resources for personal research and artmaking in preparation for their spring thesis exhibition. Prerequisite: Studio art major, senior level. 4 sem. hrs.

466 Thesis II: Senior Exhibition. Graduating studio art majors will organize and present exhibition of their art. Prerequisite: Studio Art 465. 4 sem. hrs.

Astronomy (ASTN)

101 Astronomy. Survey including solar system, stars, galaxies, cosmology, etc. Historical background with emphasis on current theories, observations, and topics of special interest. Observations of the night sky. 3 sem. hrs.

Biology (BIOL)

W. John Hayden, Chair
Professors Bishop, Hayden, Kisb
Associate Professors de Sá, Kingsley, Radice
Assistant Professors Elhai, Goodner, Reynolds, Smallwood, Stenger, Wohl
Directors of Biology Laboratories Lessem, Reiner, Smith
Manager of Biology Laboratories Farrell

The Biology Major

Note: The grade point average of the coursework in biology and chemistry must be no less than 2.00 with no course grade below C- (1.7).

For either the Bachelor of Arts or Bachelor of Science degrees at least 32 hours of biology, including Biology 211, 212, 213, 214 and 16 additional hours in biology selected from approved courses, plus Chemistry 103-104 or 151 and Chemistry 205-206. Physics 131-132 and Mathematics 129 are recommended. The following courses will not count towards the biology major: any 100-level course, 349, 350, 370, 371, 388, 391, 395, 396. All other 200- and 300-level courses may be used to meet major requirements. Neither Biology 326 nor Chemistry 326 can count towards both the Biology and Chemistry majors; likewise, neither Biology 327 nor Chemistry 327 can count towards both the Biology and Chemistry majors.
The Biology Minor
Biology 211, 212, 213, 214, at least 4 additional hours selected from courses approved for the major, and not less than a C- (1.7) in each course.

Honors Program
Students invited into the Honors program may earn honors in Biology by completing 12 hours of honors credit through a combination of upper level courses, Honors Research, and Honors Seminar; the program should be planned in consultation with the student’s research advisor and the department’s honors coordinator. Honors students must also maintain an overall GPA of no less than 3.30 while in the program and write an original honors thesis to be submitted to their research advisor.

Interdisciplinary Concentration in Neuroscience for Biology or Psychology Majors
See pages 149.

DUML OPTION: The Duke University Marine Sciences Laboratory, in cooperation with the Department of Biology, provides opportunities for instruction in the marine sciences. Work taken in the program may be included in the student’s University of Richmond curriculum only with the prior approval and under the direction of the Department of Biology. Students interested in this option are encouraged to apply to the department for further information.

Biology Courses (BIOL)
102 Exploring Human Biology. Examination of human biology from perspective of cellular processes, genetics, structure and function of organ systems, and evolution. Many topics will include application of the scientific method and consideration of ethical issues. For non-science major. Will not serve as basis of further work in science nor meet entrance requirements for any health profession. Three lecture and two laboratory hours a week. Prerequisite: High school biology. 4 sem. hrs. (FSNB)

105 Impact of Science on Societal Problems. How scientific thought, particularly in biology, can be brought to bear on a question of social interest. Students will be guided to take problem apart and use scientific literature to find elements of a solution. Hands-on experimentation and presentation of knowledge to others will be stressed. Five hours of lecture/lab a week. 4 sem. hrs. (FSNB)

107 Human Genetics. Introduction to basic concepts in human genetics and how advances in the field impact health care, biotechnology, public policy, and the law. Topics such as the Human Genome Project, gene therapy, and prenatal testing for genetic disorders will be discussed. Students will gain working knowledge of how scientists think and how they approach research problems. Designed for students with little or no background in biology, chemistry and mathematics. Three lecture and two laboratory hours a week. 4 sem. hrs. (FSNB)

108 Environmental Biology. Basic ecological principles and selected topics in environmental science, including worldwide impact of growing human population, patterns of energy consumption, and issues of water quality, water management, land use, food production, and biological resources. Application of the scientific method will be incorporated in laboratory component. For non-science major. Will not serve as basis of further work in science nor meet entrance requirements for any health profession. Three lecture and two laboratory hours a week. Prerequisite: High school biology. 4 sem. hrs. (FSNB)

211 Organismal Biology I. Introduction to organismal biology; origin of life; basic biochemistry; biology of prokaryotes; eukaryotic cell structure and function; biology of protistans, fungi, and plants, including their diversity, anatomy, physiology, reproduction, and evolution. Development of laboratory skills. Will serve as basis for further work in science and meet entrance requirements for any health profession. Three lecture and three laboratory hours a week. Prerequisite: High school biology. 4 sem. hrs. (FSNB)

212 Organismal Biology II. Continuation of introduction to organismal biology; biology of animals, including their diversity, anatomy, physiology, behavior, reproduction, and evolution; principles of ecology. Continued development of laboratory skills. Will serve as basis for further work in science and meet entrance requirements for any health profession. Three lecture and three laboratory hours a week. Prerequisite: Biology 211. 4 sem. hrs. (FSNB)

213 Genetics. Classical and molecular analysis of biological adaptability, continuity, and variation. Laboratory uses established methods of genetic investigation with focus on analysis of experimental data. Three lecture and three laboratory hours a week. Prerequisites: Biology 211, 212 and Chemistry 104 or 151. 4 sem. hrs.
214 Cell and Molecular Biology. Introduction to structure and function of biological molecules and cellular organelles. Laboratory emphasizes separation and analysis of cell constituents. Three lecture and three laboratory hours a week. Prerequisites: Biology 211, 212, 213 and Chemistry 104 or 151. 4 sem. brs.

225 Evolution. Introduction to biological evolution including history of field, mechanisms of evolution, and fossil record. Understanding of basic genetics recommended. Prerequisite: Biology 212. 4 sem. brs.

301 Microbiology. Morphology and physiology of bacteria, with laboratory emphasis on techniques of culturing and handling organisms. Three lecture and three laboratory hours a week. Prerequisites: Biology 214 and Chemistry 104 or 151 or permission of instructor. 4 sem. brs.

303 Plant Morphology. Structure, life histories, and phylogeny of major divisions of algae, fungi, and terrestrial plants. Three lecture and three laboratory hours a week. Prerequisite: Biology 212. 4 sem. brs.

305 Plant Anatomy. Microscopic structure of vascular plants with emphasis on function, development, and evolution. Three lecture and three laboratory hours a week. Prerequisite: Biology 212. 4 sem. brs.

306 Systematic Botany. Identification and classification of vascular plants; emphasis on local flora; principles of systematics. Two lecture and four laboratory hours a week. Prerequisite: Biology 212. 4 sem. brs.

308 Comparative Vertebrate Anatomy. Comparative anatomy and biology of several systems of organs of representative vertebrates in an evolutionary context. Two lecture and four laboratory hours a week. Prerequisite: Biology 212. 4 sem. brs.

309 Invertebrate Zoology. Morphology, physiology, development, and relationships of representative invertebrate animals. Three lecture and three laboratory hours a week plus field trips. Prerequisite: Biology 212. 4 sem. brs.

311 Microanatomy. Microscopic structures and functions of vertebrate tissues and organs. Laboratory emphasizes quantitative light and electron microscopy and computer-assisted image analysis. Three lecture and three laboratory hours a week. Prerequisite: Biology 211, 212, 214. 4 sem. brs.

312 Developmental Biology. Development of animals, including embryogenesis, metamorphosis, and regeneration. Emphasizes mechanisms of cell differentiation and pattern formation. Three lecture and three laboratory hours a week. Prerequisite: Biology 214. 4 sem. brs.

314 Molecular Genetics. Examination of experimental underpinnings of knowledge about gene transmission and function through critical analysis of key papers. Lab projects focus on developing skill in posing problems that can be addressed experimentally. Three lecture and three laboratory hours a week. Prerequisite: Biology 214. 4 sem. brs.

315 Plant-Microbe Interactions. Examination of interactions between plants and bacteria, fungi, and viruses. Mechanisms of interactions will be explored from both the microbe and plant perspective. Introduction to current techniques used to study these interactions. Three lectures and three laboratory hours a week. Prerequisite: Biology 214. 4 sem. brs.

316 Reproductive Biology of Flowering Plants. Introduction to diverse aspects of floral biology including ecology of plant-pollinator interactions, wind pollination, flower development, and self-incompatibility. Additional topics and more in-depth laboratory experience included in 4 semester hour version. Three or six hours of lecture/discussion/laboratory a week. Prerequisite: Biology 214. 3-4 sem. brs.

318 Field Biology. Introduction to theory and practice of field biology research, including sampling, monitoring, and experimental design. Emphasis on both gathering quantitative information and understanding natural history of the study organism. Three lectures and three laboratory hours a week. Prerequisite: Biology 214. 4 sem. brs.

319 Mountain Ecology. (Summer only.) Field oriented approach to ecology. Includes extended camping in remote regions of Appalachian Mountains. (Additional fee for field trips.) Prerequisites: Biology 212 and permission of instructor. 4 sem. brs.

320 Bacterial Development. Genetic mechanisms by which bacteria respond to environmental stresses to change their morphology and biochemical repertoire. Regulation of complex behavioral and morphological changes by both unicellular and multicellular bacteria. Prerequisite: Biology 213. 4 sem. brs.
326 Biochemistry. (See Chemistry 326). Prerequisites: Biology 212, Chemistry 206, and permission of instructor. 4 sem. hrs.

327 Biochemistry II. (See Chemistry 327). Prerequisites: Chemistry 326 or Biology 214 or permission of instructor. 3 sem. hrs.

328 Vertebrate Zoology. Comprehensive survey of vertebrate classes emphasizing phylogenetic theory, natural history, behavior, and ecology. Two lecture and four laboratory hours a week. Prerequisite: Biology 212. 4 sem. hrs.

330 Ecology. Interrelationships of organisms and their environments. Three lecture and three laboratory hours a week plus two overnight field trips. Prerequisite: Biology 212. 4 sem. hrs.

332 Tropical Marine Biology. Introduction to marine biology and other oceanographic disciplines using tropical marine habitats as specific examples. Three lecture hours a week and laboratory portion composed of field trips and exercises including Spring Break field experience in Caribbean (extra fee required). Prerequisites: Biology 212 and permission of instructor. 4 sem. hrs.

333 Microbial Ecology. Examination of ecological role of microorganisms in terrestrial, freshwater, and marine habitats with emphasis on role of microorganisms in flow of materials and energy through global ecosystem. Laboratory includes independent research project. Prerequisites: Biology 214 and 301 or permission of instructor. 4 sem. hrs.

334 Oceanography. Integrated introduction to biological, geological, chemical, and physical oceanography. Multidisciplinary approach to ocean processes. Three lecture hours a week and laboratory and field trips. Prerequisites: Biology 212 and Chemistry 104 or 151. 4 sem. hrs.

335 Freshwater Biology. Physical, chemical, and biological properties of fresh waters. Three lecture and three laboratory hours a week. Prerequisite: Biology 212. 4 sem. hrs.

336 Plant Physiology. Explores roles of endogenous factors (hormones, biological clocks, phytochrome), environmental influences (light, temperature, water, and inorganic nutrients), and gene expression in plant functions, growth and development. Three lecture and three laboratory hours a week. Prerequisite: Biology 214. 4 sem. hrs.

337 Comparative Animal Physiology. Introduction to major characteristics of animal function at level of whole organism and component structures and organ systems. Emphasis on physiological function and processes related to survival in natural environment. Topics include respiratory physiology, blood and oxygen transport systems, gut anatomy and digestion, energy metabolism, body size, pressure physiology (altitude, deep-sea, and diving), temperature adaptation and heat balance, water relations, locomotion and biomechanics, and information control and integration. Three lecture and three laboratory hours a week. Prerequisites: Biology 214 and Chemistry 206. 4 sem. hrs.

339 Physiology of Marine Organisms. Physiological adaptations, including osmoregulation, respiration, diving physiology, and temperature regulation of organisms to marine environments, such as estuaries, the open ocean, and deep sea. Half-day field trips required. Three lecture/laboratory hours a week. Prerequisites: Biology 214. 3 sem. hrs.

340 Introduction to Immunology. Overview of immunology. Current theories and their explanation of pertinent contemporary issues included. Three lecture and three laboratory hours a week. Prerequisite: Biology 214. 4 sem. hrs.

341 Animal Physiological Ecology. Introduction to animal physiological adaptation to the natural environment. Emphasis will be on physiological responses of animals to both biotic and abiotic factors and interaction with ecology and population dynamics of species. Topics covered will stress interdisciplinary relationship between physiology and both natural biological sciences (ecology, natural history, behavior, and evolution) as well as applied sciences (population management and conservation biology). Prerequisites: Biology 212. 4 sem. hrs.

342 Biology of Cancer. Historical perspective on principal developments in cancer research. Topics focus on molecular basis of cancer: selection and clonal evolution of cancer cells, oncogenes and tumor suppressor genes, control of tumor growth and metastasis, RNA and DNA transforming viruses, carcinogenesis induced by chemicals and radiation, and molecular basis of cancer treatment. Three lecture and three laboratory hours a week. Prerequisites: Biology 213, 214, and Chemistry 206. 4 sem. hrs.

344 Behavioral Ecology. Introduction to analysis of behavior of organisms, including humans, by study of how behavior affects survival and reproduction. Behaviors studied include foraging, aggression, cooperation, and reproduction. Verbal, graphical, and mathematical models to describe and predict behavior are studied and tested. Three lecture and three laboratory hours a week; may include overnight field trips. Prerequisites: Biology 212 and Mathematics 111 or 121, or permission of instructor. 4 sem. hrs.
349-350 Undergraduate Research. Independent research conducted with faculty supervision. May be repeated without credit. Prerequisite: Permission of instructor. 2-2 sem. hrs.

351 Special Topics. Special course areas covered when sufficient interest. Considers subject matter not covered in other biology courses. Prerequisite: Biology 214. 1-4 sem. hrs.

355 Human Anatomy and Physiology I. (See Health and Sport Science 365.) 4 sem. hrs.

356 Human Anatomy and Physiology II. (See Health and Sport Science 366.) 4 sem. hrs.

370 Women in Science. Critical analysis of involvement of women in science, history of participation of women in science, current trends and barriers to full participation in science and feminist analyses of science. Continuing dialogue on how science is done and impact that feminist scholarship has had on this dialogue. Prerequisite: Students must have fulfilled their FSNS requirement or have permission from the instructor. 3 sem. hrs.

371 Urban Ecology. Interdisciplinary approach to ecology of past, present and future cities. Involves class discussions, field trips and team research projects. Three hours of class a week. 3 sem. hrs.

374 Evolutionary Biology of Lower Tetrapods. Introduction to amphibians and reptiles and fundamental transitions in vertebrate evolution. Prerequisite: Biology 212 or equivalent. 4 sem. hrs.

380 Philosophical Issues in Evolutionary Biology. Philosophical problems within evolutionary biology and its influence on society. Issues range from how natural selection works (at what levels, to what ends) to how human traits (intelligence, sexual preference, altruistic and violent tendencies) may be influenced by our evolutionary history, and how such influences should be considered in our ethical and legal codes. Lecture/seminar format, with student oral presentations and term papers. 3 sem. hrs.

385 Tropical Biology and Conservation. Introduction to principles of tropical biology and conservation, including historical and economic components. Prerequisite: Biology 102, 212, or equivalent. 4 sem. hrs.

384 Eukaryotic Genetics. Principles underlying gene expression in higher eukaryotes, examined through selected genetic pathologies. The course seeks to increase students' facility in making creative use of the primary scientific literature. Prerequisite: Biology 213. 3 sem. hrs.

388 Individual Internship. Supervised independent work under field conditions. Designed to give student applied experience in biological specialty. Prerequisite: Biology major at junior or senior rank. 4 sem. hrs.

391 Honors Seminar. Special topics, for junior and senior honors candidates. Prerequisite: Permission of instructor. 1 sem. hr.

395-396 Honors Research. Laboratory or field-centered independent study. Prerequisite: Permission of instructor. 2-2 sem. hrs.

Chemistry (CHEM)

Stuart C. Clough, Chair
Professors Gupton, Myers
Associate Professors Abrash, Clough, Dominey, Goldman, Stevenson
Assistant Professor O’Handley
Director of Chemistry Laboratories Ferguson

The Chemistry Major

For the Bachelor of Arts degree:
A total of 31 hours in chemistry approved by the department including Chemistry 103-104 (or 151), 205-206, 300, 301, 309 (or 310), 322, 421, and 422.

For the Bachelor of Science degree:
A total of 35 hours in chemistry approved by the department including Chemistry 103-104 (or 151), 205-206, 300, 301, 309, 310, 322, 421, and 422.

And for any of the above degrees:
Eight semester hours in Physics, and six semester hours in related fields approved by the department. Two full years of either biology or physics are recommended. A grade of not less than C- (1.7) is required in each course applied to the hours needed in the main field of study.

Interdisciplinary Concentration in Biochemistry for Chemistry Majors

For the Bachelor of Science degree with a concentration in biochemistry:
A total of at least 46 hours including Chemistry 103-104 (or 151), 205-206, 300-301 (or 302), 309-310, 326, and 327; three courses chosen from Biology 213, 214, 301, 307, 314, 325, 336, 338, 339, 340, and 342; and 3 semester hours of Chemistry 320 including a senior paper on an approved topic. See page 146.

Note: Credit will be given for the concentration in biochemistry or the minor in biology but not both.
Certifications in the Major
Certifications by the department, based on American Chemical Society specifications, require completion of the minimum requirements for the Bachelor of Science degree and

For chemistry:
Completion of 10 additional semester hours approved by the department, including Chemistry 302, 320, 326, 418 and 419. Additional recommended coursework: Mathematics 129, 235, 240, and 245.

For chemistry/biochemistry:
Chemistry 302, 320, 326, 327, 418, and 419. Additional coursework: Biology 203, 204, and 340.

The Chemistry Minor
Chemistry 103-104 (or 151), 205-206, 300 and 301 (or 302), and one additional course approved by the department. A grade of not less than C- (1.7) is required in each course.

Chemistry Courses (CHEM)
103-104 Fundamentals of Chemistry. Principles of chemistry including stoichiometry, states of matter, atomic and molecular structure, chemical bonding, periodicity, energy relationships and equilibria, acid-base chemistry, electrochemistry, kinetics, and systematic study of families of elements. Laboratory work includes inorganic qualitative analysis. For science-oriented students, but may be taken by other interested persons. Meets requirements for chemistry major and serves as prerequisite for medical, dental, or related studies. Three lecture and three laboratory hours a week. Previous knowledge of chemistry helpful but not required. Prerequisites: High school algebra and geometry. Chemistry 103 is prerequisite to 104. 4-4 sem. hrs. (104 only, FSNC)

110 Chemistry in Context. Focus on impact, influence, and consequences of fundamental principles of chemistry on society. Three lecture and three laboratory hours a week. Prerequisites: High school chemistry and biology or permission of instructor. 4 sem. hrs. (FSNC)

111 Chemical Structure Determination. Introduction to how chemists qualitatively determine structures of compounds. Three lecture and three laboratory hours a week. Prerequisite: High school chemistry or permission of instructor. 4 sem. hrs. (FSNC)

Note: Chemistry 110 and 111 will not count towards the major.

151 Intensive General Chemistry. Principles of chemistry, including atomic and molecular structure, bonding, periodicity, energy relationships and equilibrium, acid-base chemistry, electrochemistry, kinetics, and states of matter. For exceptionally well-prepared, science-oriented students. Meets requirements for chemistry major and serves as a prerequisite for medical, dental, or related studies. Three lecture and three laboratory hours a week. Prerequisites: High school algebra and geometry plus high school AP course in chemistry with a score of 3 or better on the Advanced Placement Test, or permission of instructor. 4 sem. hrs. (FSNC)

Note: Credit will be given for Chemistry 151 or 103-104, but not both.

205-206 Organic Chemistry. Chemistry of compounds of carbon, which is fundamental to understanding of both chemistry and biology. Nomenclature, structure-physical property relationships, reactions, reaction mechanisms, spectroscopy, and introduction to macromolecules including those of biological significance. Three lecture and three laboratory hours a week. Prerequisite: Chemistry 104 or 151. Chemistry 205 is prerequisite to 206. 4-4 sem. hrs.

252 Materials and Polymers. Introduction to fields of materials science and polymers. Issues of synthesis, structure, physical and chemical properties which are central to design and use of new materials will be covered. Important applications of products used in industry and in our lives will also be discussed. Three lecture and three laboratory hours a week. Prerequisite: Chemistry 204 or 206. 4 sem. hrs.

300 Measurement Statistics. Overview of statistics of measurements on chemical systems. Includes characteristics of data which contain random error. Statistics used to describe and summarize trends of measured data will be introduced, as well as a number of statistical tools needed to draw meaningful and objective conclusions based on data. Should be taken simultaneously with Chemistry 301. 1 sem. br.

301 Analysis I. Principles and techniques of chemical and instrumental methods used for quantitative analysis. Includes lecture coverage and extensive laboratory use of gravimetric, titrimetric, electrochemical, and spectroscopic methods. Two lecture and eight laboratory hours a week. Prerequisite: Chemistry 104 or 151. Corequisite: Chemistry 300. 4 sem. hrs.

302 Analysis II. Principles and techniques of chemical and instrumental methods used for compound identification, separation, and purification. Focus on modern instrumental methods for compound structure elucidation and principles underlying instrumentation itself. Two lecture and eight laboratory hours a week. Prerequisite: Chemistry 206. 4 sem. hrs.

308 Statistical Mechanics. (see Physics 308.) 3 sem. hrs.
309-310 Physical Chemistry. Principal laws and theories of chemistry: gas laws and kinetic molecular theory, classical and statistical thermodynamics, wave mechanics and molecular structure, and chemical kinetics. Principles and properties of liquids, solids and solutions, and phase equilibria are examined along with electrochemistry. Three lecture and four laboratory hours a week. Prerequisites: Chemistry 104 or 151, Physics 132 and Mathematics 212. Chemistry 309 is prerequisite to 310. 4-4 sem. hrs.

316 Environmental Chemistry. Study of the fate, transport, and distribution of chemicals in the environment. The chemistry of the atmosphere, hydrosphere, and geosphere will be covered, highlighting effects of inorganic and organic pollutants. Topics such as global warming, stratospheric ozone depletion, acid rain, photochemical smog, and groundwater contamination will be discussed in detail. Three lecture hours a week. Prerequisite: Chemistry 206 or permission of instructor. 3 sem. hrs.

320 Introduction to Research. Laboratory research experience with a faculty member. 1-3 sem. hrs.

322 Junior Seminar. Regular attendance in departmental seminar program. One class hour a week. Prerequisite: Chemistry 206. 0 sem. hrs.

326 Biochemistry I. Structure and chemistry of biologically important macromolecules and chemical processes involved in cellular synthesis; degradation and assembly of these macromolecules. Three lecture and three laboratory hours a week. Prerequisite: Chemistry 206 or permission of instructor. 4 sem. hrs.

327 Biochemistry II. Current research topics in biochemistry such as DNA repair, recent developments in enzymology, metabolic control, biochemical endocrinology, biochemical physiology, biochemical immunology, and biochemical genetics. Three lecture hours a week. Prerequisite: Chemistry 326 or Biology 214 or permission of instructor. 3 sem. hrs.

330 Projects. Laboratory work requiring integration of information from various fields of chemistry and involving a number of techniques. 1 or 2 sem. hrs.

401-402 Quantum Mechanics. (See Physics 401-402.) 3-3 sem. hrs.

418 Chemical Synthesis Laboratory. Synthetic techniques including vacuum line, airless ware, gas addition, and high temperature applied toward synthesis and characterization of organometallic, transition metal coordination, main group inorganic, and organic compounds. Four laboratory hours a week. Prerequisite: Chemistry 206. 1 sem. br.

419 Advanced Inorganic Chemistry. Study of principles of chemistry involved in bonding, structure, properties, and reactions of main group metal, transition metal, coordination, and organometallic compounds with emphasis on periodic trends, thermodynamic and kinetic factors, and symmetry. Three lecture hours a week. Prerequisites: Chemistry 206 and 309 (309 may be taken concurrently). 3 sem. hrs.

421-422 Senior Seminar. Participation in departmental seminar program, to include regular attendance and one presentation each semester. Presentation will include both written and oral component, each prepared on specific topic in chemistry. Prerequisite: Chemistry 322. 1-1 sem. hrs.

427 Independent Study. In-depth exploration of subjects not included in other courses, done independently but under faculty member’s supervision. Prerequisites: Four semesters of chemistry and permission of instructor. 1-2 sem. hrs.

433 Special Topics. Special interest topics offered at department’s discretion. Considers subject matter not covered in other chemistry courses. 1-3 sem. hrs.

Classical Civilization

Stuart L. Wheeler, Coordinator (Classical Studies)

The Classical Civilization Major

Note: The grade point average of the coursework comprising the major must be no less than 2.00 with no course grade below C- (1.7).

Thirty-three semester hours including a three-hour research seminar (Classical Civilization 498). With the advice of an advisor from the faculty of the Department of Classical Studies or the Classical Civilization Advisory Committee, and the approval of the program coordinator, each student designs his or her own major which must include either Greek and Roman Values (Classics 305) or the Classical Tradition (Classics 306).

Although each student plans his or her major according to individual interests, the following emphases are recommended possibilities: Greek and Roman archaeology; Classical and Medieval history; Classical, Medieval, and Renaissance literature; and the Classical Tradition in art, history, literature, and philosophy. (For examples of such major programs, see the coordinator.)
A faculty member selected by the coordinator shall be involved in the on-going advising of each major. Courses may be selected from those listed under the Department of Classical Studies and from the courses listed below (preapproved as belonging to the Classical Civilization major) or other courses approved by the coordinator.

The Classical Civilization Minor
Eighteen semester hours approved by the coordinator of which at least 12 must be in the Department of Classical Studies and the remainder from the courses listed below or other courses approved by the coordinator. (Latin and Greek courses may not be counted toward this minor.)

Classical Civilization Courses (CLCV)

Classical Civilization 498. Major Seminar. Study of research strategy and methodology inherent in Classical Civilization. Preparation of research paper. Prerequisite: Permission of coordinator. 3 sem. hrs.

See the departmental listings for descriptions of the following courses.

Anthropology (ANTH)
205 Introduction to Cultural Anthropology

Art History (ART)
201 Greek Art and Archaeology
202 Roman Art and Archaeology
214 Northern Renaissance Art
215 Art of the Renaissance
216 Mannerism and the Baroque
322 Seminar in Museum Studies

English (ENGL)
301 English Literature from the Middle Ages through the Renaissance
302 English Literature from the Restoration through Romanticism
342 Modern Grammar
390 Interdisciplinary Studies in the Middle Ages and Renaissance
402 Chaucer
403 Shakespeare to 1600
404 Shakespeare after 1600
405 Milton
406 Critical Approaches to Shakespeare
411 Topics in Medieval Literature
412 Topics in Renaissance Literature
413 Topics in Restoration and Eighteenth-Century Literature
414 Topics in Romantic Literature
450 Critics since Plato

History (HIST)
329 History of Greece
330 Hellenistic Greece and Republican Rome
331 The Roman Empire
332 Medieval Church
333 European Economic History to 1450
334 High and Late Middle Ages
335 Renaissance

Philosophy (PHIL)
271 Ancient Greek Philosophy
281 Philosophy of Art

Political Science (PLSC)
311 Political Theory: Plato to Locke

Religion (RELG)
200 Symbol, Myth, and Ritual
230 The History of Israel
231 The Bible and Western Culture
240 Introduction to the New Testament
241 Introduction to Early Christian Era
243 The World of the New Testament
256 Introduction to the History of Christianity
258 Medieval Religious Thought
331 The Hebrew Prophets
332 Hebrew and Christian Wisdom Literature
340 Varieties of Early Christianity
341 Paul and Christian Origins
342 John in Early Christian Literature

Rhetoric and Communication Studies (RHCS)
301 Classical Rhetoric

Note: A grade of not less than C- (1.7) is required in all coursework comprising the Greek or Latin major or minor.

The Greek Major
Thirty-six semester hours including 12 hours of a core curriculum and 24 hours of Greek.

II. Twenty-four semester hours of Latin

Note: A minimum of two years of Greek is recommended for students intending to pursue graduate study.

The Latin Minor
Eighteen semester hours of Latin, with at least six semester hours at the 300 level.

No Latin 100- or 200-level course may be used to meet the Literary Studies field-of-study requirement.

Latin Courses (LATN)

101-102 Elementary Latin. Introduction to Latin language and Roman culture. Prerequisite: Latin 101 is prerequisite to 102. 3-3 sem. hrs.

201-202 Intermediate Latin. Continued study of Latin language and Roman culture plus selected readings. Prerequisite: Latin 102 or permission of department. Latin 201 is prerequisite to 202. 3-3 sem. hrs. (202 only, COM2)

General Prerequisite for all 300- and 400-level Latin courses: Latin 202 or permission of department.

301 Plautus. Study of Roman comedy using Latin texts, videotapes, and live performance. 3 sem. hrs. (FSVP)

302 Ovid. Mythic traditions of Graeco-Roman culture. 3 sem. hrs.

303 Roman Epic. Special emphasis on Vergil's Aeneid. 3 sem. hrs.

304 Roman Historiography. Emphasis on Livy and Tacitus. 3 sem. hrs.

305 Horace - The Lyric Poetry. 3 sem. hrs.

306 Roman Philosophical Literature. Special emphasis on Lucretius' De Rerum Natura or Cicero's Tusculan Disputations. 3 sem. hrs.
307 Catullus. Literary analysis of selected readings. 3 sem. brs. (FSLT)

308 The Novel. Latin novels of Petronius and Apuleius. 3 sem. brs.

309 Cicero. Theory and history of Roman oratory. 3 sem. brs.

398 Selected Topics. Topics or themes in Roman literature and history. Examples include historical biography, epistolography, drama, Latin Christian literature, Medieval or Renaissance Latin, and art criticism in Latin literature. 3 sem. brs.

498 Major Seminar. Required of all majors. Study of research strategy and methodology inherent in Latin studies. Preparation of research paper. Prerequisite: Permission of department. 3 sem. brs.

499 Independent Study. Content adapted to requirements and interests of participant. Prerequisite: Permission of department. 1-3 sem. brs.

Classics in English (CLSC)

The following courses are designed for the student who is interested in the cultures and literatures of Greece and Rome. Knowledge of Greek or Latin is not required.

While these courses do not fulfill the foreign language communication skills requirement, courses so designated meet various fields-of-study requirements.

Classics Courses (CLSC)

201 Classical Elements in the English Language. Vocabulary development and use of English through study of Greek and Latin elements in English. 3 sem. brs.

206 Greek and Roman Mythology: Epic. Selected mythic themes in Greek and Roman epic literature from Homer to Vergil. Emphasis on myths prominent in Western literature. 3 sem. brs. (FSLT)

207 Greek Magic. Exploration of magic as a means to understanding and affecting the natural world. Major topics include erotic magic, dreams and divination, ritual purification, sacred plants, and healing. 3 sem. brs.

208 Mythology: Greek Drama. Study of myths preserved in Greek dramas, and historical and literary analysis of these plays. 3 sem. brs. (FSLT)

209 The Built Environment. (See Urban Practice and Policy 209.) 3 sem. brs.

301 Greek Art and Archaeology. Architecture, painting, and sculpture of Greece; the techniques by which these were produced and are reclaimed and displayed. (Same as Art 301.) 3 sem. brs. (FSVP)

302 Roman Art and Archaeology. Architecture, painting, and sculpture of Roman world. (Same as Art 302.) 3 sem. brs. (FSVP)

303 The Aegean Bronze Age. Cycladic, Minoan, and Mycenaean cultures and their connections to the ancient Near East. 3 sem. brs.

304 The Feminine in Greco-Roman Literature. Concept of the feminine as seen in major works of Greek and Roman poetry, prose, and drama. 3 sem. brs.

305 Greek and Roman Values. Investigation of ancient Graeco-Roman values, artistic, religious, political, and personal, as found in eclectic survey of unusual primary texts. Focuses on methods of understanding these distant and relatively well-preserved civilizations. 3 sem. brs. (FSHT)

306 The Classical Tradition. Legacy of classical Greece and Rome in medieval and modern worlds. 3 sem. brs. (FSHT)

307 Myth and Film. Study of use of ancient myth in modern cinema. 3 sem. brs.

308 Women in Greece and Rome. Structure of Greek and Roman societies based on analysis of the position of women within them. Comparison with other disenfranchised groups, particularly ethnic minorities. 3 sem. brs. (FSMA)

312 The Land of Hellas: Ancient Topography—Modern Legacy. (Summer only.) Study of ancient remains of Bronze Age and Classical Greece and their role as a binding force for the ethnic and national identity of the modern country (taught abroad). 3 sem. brs.

388 Individual Internship. Supervised independent work. Prerequisite: Permission of department. 3 sem. brs.

398 Selected Topics. Topics or themes in Classics. Examples include origin and development of historiography, ancient conceptions of death and the soul, ancient athletics, Greek and Roman novel, pagan and Christian beliefs in late antiquity, Greek sculpture, the Etruscans, and Greek topography. Prerequisite: Permission of department. 3 sem. brs.

499 Independent Study. Content adapted to requirements and interests of participant. Prerequisite: Permission of department. 1-3 sem. brs.
The Criminal Justice Minor

Requirements:
Students must take 18 semester hours from Group A, including all of the specific courses required for the major, plus one additional elective from Group A. The minor does not require any courses from Group B.

Note: Students are responsible for completing all prerequisites for courses that are part of the criminal justice program.

Group A: Core Courses

Criminal Justice (CJ)
- 320 Fundamentals of Criminal Law
- 321 Fundamentals of Criminal Procedure
- 379 Selected Topics
- 388 Individual Internship
- 450 Research Practicum
- 490 Senior Seminar

Philosophy (PHIL)
- 220 Contemporary Moral Issues
- 260 Philosophical Problems in Law and Society
- 364 Philosophy of Law

Political Science (PLSC)
- 331 Constitutional Law
- 333 Civil Rights/Civil Liberties
- 337 Politics and the Legal System

Psychology (PSYC)
- 299 ST:Understanding Human Behavior
- 299 ST:Human Diversity

Sociology (SOC)
- 305 Deviance
- 311 Criminology
- 313 Juvenile Delinquency
- 314 Field Investigation of the Juvenile and Adult Criminal Justice Systems
- 324 Law and Society

Group B: Related Courses

Note: These electives must be selected in consultation with the program coordinator.

Accounting (ACCT)
- 201, 202 Fundamentals of Financial/Managerial Accounting

Mathematics (MATH)
- 119 Social Science Statistics

Political Science (PLSC)
- 221 Introduction to Public Policy
- 303 Metropolitan Problems and Politics
307 Public Management
371 Introduction to Political Research and Analysis

Psychology (PSYC)
200 Methods and Analysis
311, 312 Child Development
313, 314 Social Psychology
435 Advanced Personality and Social Psychology
456 Developmental Psychopathology

Rhetoric and Communication Studies (RHCS)
105 Interpersonal Communication
201 Argumentation and Debate
306 Persuasion

Sociology (SOC)

Economics (ECON)
J. Patrick Raines, Chair
Professors Dolan, Raines
Associate Professors Cook, Craft, Dean, McGoldrick, Nicholson, Schmidt, Whitaker, Wight

Economics Major
Note: A grade point average of C (2.00) is required in the major, with no course grade below a C- (1.7) in Economics 270, 271, or 272.
Thirty semester hours in economics courses, including Economics 101, 102, 270, 271, and 272; four economics electives (two of which must be at the 300-level) and Economics 380, Senior Capstone Experience; Business Administration 205, Software Tools and Applications; and 18 semester hours in closely related fields, of which 12 hours must be at the 300 level.
Note: Successful completion of Psychology 200 or Business Administration 201 can be used in lieu of Economics 270 to satisfy the statistical requirements of the major; however, another 300-level economics course must be taken in its place (Economics 340 is suggested). Students cannot receive credit for both Business Administration 201 and Economics 270.
Majors are strongly encouraged to take Economics 101 and 102 during their first year, and Economics 270, 271, and 272 during their second year. A basic foundation in calculus (e.g. Math 211) is assumed for Economics 271.

The Economics Minor
Note: A grade point average of C (2.00) is required in the minor with no grade less than C- (1.7) in Economics 271 and 272.
Eighteen semester hours in economics including Economics 101, 102, 271, 272, and six semester hours at the 300 level. A basic foundation in calculus (e.g. Math 211) is assumed for Economics 271.
Students may plan their course load to pursue a general degree in economics or to study a specific area in economics. Voluntary elective fields have been developed in the areas of Business Economics, International Economics, Economic History, Public Policy, and Quantitative Economics. Students are encouraged to speak with their academic advisor about the options available to them. Students interested in pursuing a graduate degree in economics are encouraged to take Math 235, Multivariate Calculus; Math 240, Differential Equations; and Math 245, Linear Algebra.

Economics Courses (ECON)

101 Principles of Microeconomics. Provides students with the analytical perspective to think critically about market system and social objectives it may serve. Topics include supply and demand, market structure, production, market failure (e.g., pollution), and benefits and costs of government intervention. 3 sem. hrs. (FSSA)

102 Principles of Macroeconomics. The study of national income determination within a global economy. 340-349 Quantitative Economics (ECON)

340 Econometrics. Basic concepts in matrix algebra and statistical inference; classical linear regression model; problems of estimation in linear regression; applications to macro and microeconomics; simultaneous equation systems. Prerequisite: Economics 270. 3 sem. hrs.

341 Mathematical Economics. Examines various economic concepts by means of mathematical analysis. Prerequisite: Economics 270. 3 sem. hrs.

Additional 300-level Electives (ECON)

360 Selected Economic Topics. Major areas in economics, application of economic principles, and analysis of policy issues. Prerequisite: A core course to be announced. 1-3 sem. hrs.

Capstone Experience (ECON)

380 Senior Capstone Experience. Students will be required to complete one or more of the following courses of study: a senior research thesis, a major seminar, a cumulative exam, a teaching practicum, an experiential learning project, or another experience approved by the Capstone Coordinator. Note: Participation in the Honors program fulfills the Capstone requirement. Prerequisites: Economics 270, 271, 272, and Senior standing. 3 sem. hrs.

Honors (ECON)

390 Honors in Economics. Honors seminar. Prerequisite: Departmental invitation. 3 sem. hrs.

391 Honors in Economics. Capstone independent research project and Honors paper. Note: Participation in the Honors program fulfills the Capstone requirement. Prerequisite: Departmental invitation. 3-3 sem. hrs.

In addition to the courses listed here, the Department participates in the Honors Program of the School of Arts and Sciences.
State-Approved Teacher Licensure Programs at the University of Richmond

The University of Richmond was first granted an Approved Teacher Education Program by the Virginia State Board of Education in 1972. Since that time the University’s Department of Education has maintained approved program status and, as such, participates in reciprocity of licensure with states that have interstate agreements with Virginia. Currently Virginia has licensure reciprocity with 39 states and the District of Columbia.

In order for programs to remain current with licensure regulations as mandated by the Virginia State Department of Education, the requirements as stated are subject to change.

The Education Minor

Students seeking teacher licensure in the state of Virginia cannot major in Education. They must major in another liberal arts area and complete a teacher licensure program. Education is not, therefore, an academic major at the University of Richmond. Students who complete the requirements of one of the Education Department’s Teacher Licensure Programs will receive a minor in Education.

Teacher Licensure Programs and the Liberal Arts Major

The Teacher Licensure Programs at the University of Richmond prepare students to teach at the Elementary level (preK-6), the Secondary level (6-12) or Comprehensive level (preK-12) in Art or Foreign Language. Students seeking an Elementary (preK-6) license may major in any liberal arts discipline. Students seeking a Secondary (6-12) or Comprehensive (preK-12) license must meet the requirements for a major which is compatible with one of the following licensure (endorsement) areas:

- Art
- Computer Science
- English
- Foreign Language -- French
- Foreign Language -- German
- Foreign Language -- Spanish
- Government
- History
- History and Social Science
- Mathematics
- Science -- Biology
- Science -- Chemistry
- Science -- Physics

Students majoring only in Business or Leadership are not eligible for a teaching license in Virginia.

Program Objectives

The Teacher Licensure Programs at the University of Richmond are structured to assist students in achieving (1) knowledge of public education as a contemporary institution—its functions and governance; (2) an understanding of the philosophical, sociological, psychological, and historical foundations of education; (3) an understanding of student development with emphasis on student learning and achievement; (4) familiarity with the intellectual, social, emotional, and physical characteristics of students which affect the learning process; (5) knowledge of instructional techniques, materials, and procedures pertinent to particular content areas and grade levels; (6) competency in planning, implementing, and evaluating classroom instruction; (7) competency in establishing and maintaining an orderly and supportive classroom environment.

Teacher Education Advisory Committee

A committee appointed by the Dean of the School of Arts and Sciences and composed of members of the Arts and Sciences faculty, faculty of the Department of Education, and public school personnel advises the Department of Education on matters related to the ongoing evaluation and coordination of the Teacher Preparation Program.

Admission to the Teacher Licensure Program

Students must go through a formal application process and be admitted to a Teacher Licensure Program. The application process takes place while students are taking Education 301 or 302. For details of the process and application criteria, see the chronology below.
Teacher Licensure Program Chronology

(Transfer students may need an extra semester or year to complete the requirements for licensure.)

Year One

Students interested in becoming teachers should contact the Department of Education during their first year at the University and arrange to meet with a faculty advisor. They should also enroll in Psychology 100, Introduction to Psychological Science. This four-credit-hour course, taken at the University of Richmond, is required for all University of Richmond students preparing to become teachers.

Year Two

Students begin the education sequence by taking Education 301, if they are interested in elementary education, or Education 302, if they are interested in secondary education. While taking Education 301 or 302, students must submit a formal application to the Teacher Licensure Program and arrange to take Praxis I. To be eligible for admission to the program, students must (1) have achieved a cumulative grade point average of 2.70, (2) earned a grade of B- (2.7) or better in Education 301 or 302, and (3) received passing scores on all three sections of Praxis I.

Year Three

Students enroll in the sequence of courses for either elementary or secondary education. During the fall semester of this year, students also apply for the student teaching experience that will occur during the fall semester of the fourth year. Students must maintain a cumulative grade point average of 2.70 to be eligible for student teaching.

Year Four

Students enroll in and complete the semester-long teaching experience and the accompanying seminar. Students also complete Career Development Center placement file and licensure application forms. (The Department of Education will forward licensure applications and recommendations for licensure only for those students who complete the student teaching experience through the University of Richmond.)

Students should take the appropriate Praxis II if this is required for their licensure area. Students must receive passing scores on Praxis II to be eligible for licensure. Students should consult their faculty advisor in the Department of Education for information about this requirement.

Academic Requirements

Only students who maintain a cumulative grade point average of 2.70 and perform satisfactorily in field experiences will be permitted to remain in a Teacher Licensure Program. Coursework in Education in which a grade of less than B- (2.70) is received must be repeated. A student who earns less than a B- (2.70) in two Education courses will not be permitted to remain in a Teacher Licensure Program.

Licensure of Teachers

Licensure application forms may be obtained from and when complete should be returned to the Department of Education at the University of Richmond.

With the licensure application, students must also submit (1) official transcripts of all college work including transfer credit, (2) passing scores on the required Praxis tests, and (3) a check, money order, or cashier's check made payable to the State Department of Education to cover the application fee.

Upon satisfactory completion of degree requirements and the University’s Approved Teacher Education Program, and upon receipt of the required licensure materials, the Virginia State Department of Education will issue a Collegiate Professional License which is valid for five years and renewable with additional professional and/or college credit.

Secondary and Comprehensive Subject Area Endorsement Requirements

Licensure requirements for some endorsement areas include particular courses in the academic major and/or a related field. Consult the section that follows for the requirements for each endorsement area.

ART ENDORSEMENT (preK-12)
Students seeking the Art endorsement must meet the requirements of the Studio Art major.

COMPUTER SCIENCE ENDORSEMENT
Students seeking the Computer Science endorsement must meet the requirements of the Computer Science major.

ENGLISH ENDORSEMENT
Students seeking the English endorsement must meet the requirements of the English major. Their coursework in English must include the following:

English 342 Modern Grammar, 3
English 576 Introduction to Composition Theory and Pedagogy, 3

FOREIGN LANGUAGE ENDORSEMENTS (preK-12)

French
Students seeking the French endorsement must meet the requirements of the French major and also take the following course:

Modern Languages 410 The Teaching of a Modern Foreign Language, 3

German
Students seeking the German endorsement must meet the requirements of the German major and also take the following course:

Modern Languages 410 The Teaching of a Modern Foreign Language, 3

Spanish
Students seeking the Spanish endorsement must meet the requirements of the Spanish major and also take the following course:

Modern Languages 410 The Teaching of a Modern Foreign Language, 3

Latin
Students seeking the Latin endorsement must meet the requirements of the Latin major.

Additional Foreign Language endorsements
Students completing the requirements for an endorsement in French, German, or Spanish may add an endorsement in a second modern language by completing 24 hours of coursework above the intermediate level in the second language.

GOVERNMENT ENDORSEMENT
Students seeking the government endorsement must meet the requirements of the Political Science major.
HISTORY ENDORSEMENT
Students seeking the history endorsement must meet the requirements of the History major with a concentration in either U.S. History or World History.

HISTORY AND SOCIAL SCIENCE ENDORSEMENT
Students seeking the history and social science endorsement must meet the requirements of the History major. Students seeking this endorsement must also take the following courses:

Political Science (PLSC): 6 hours
- 220 Introduction to American Government, 3
- 336 American Constitutional History, 3

Economics (ECON)
Three hours of coursework.

Geography (GEOG)
Three hours of coursework.

Please note: The History and Social Science endorsement prepares students to teach all areas of secondary social studies.

MATHEMATICS ENDORSEMENT
Students seeking the Mathematics endorsement must meet the requirements for either the Bachelor of Arts or Bachelor of Science degree in mathematics.

SCIENCE ENDORSEMENTS
Biology
Students seeking the Biology endorsement must meet the requirements of the Biology major.

Chemistry
Students seeking the Chemistry endorsement must meet the requirements of the Chemistry major.

Physics
Students seeking the Physics endorsement must meet the requirements for the Bachelor of Science degree in Physics.

Additional Science Endorsements
Students completing the requirements for an endorsement in Biology, Chemistry, or Physics may add an endorsement in a second science by completing 18 hours of coursework in the second science.

ADD-ON ENDORSEMENT REQUIREMENTS
Students who meet the endorsement requirements in any teaching area may apply for an add-on endorsement if they meet the requirements for a minor that is compatible with one of the following licensure (endorsement) areas:
- Computer Science
- Dance (preK-12)
- Journalism
- Mathematics -- Algebra I
- Speech Communication
- Theatre Arts (preK-12)

Education Courses (EDUC)
301 Foundations and Approaches to Elementary Education. Introductory analysis of American Education. Readings from various texts provide exposure to historical, philosophical, sociological and legal issues of education. In addition, the critical examination of goals, content and methods of elementary schooling will be stressed. Emphasis will be placed on curriculum theory, learning theory, and meeting needs of special students. Particular attention will be given to recently developed approaches to teaching and learning. Includes one semester hour of field laboratory. Prerequisite: Sophomore status. 4 sem. hrs.

302 Foundations and Approaches to Secondary Education. Introductory course on middle and secondary education in the United States which explores the philosophical, sociological, historical, and political perspectives of middle and secondary schools. Attention given to legal issues and concerns, teacher preparation, and current trends and issues. Includes one semester hour of field laboratory. Prerequisite: Sophomore status. 4 sem. hrs.

312-313-314 Independent Study in Education. Special projects and practical experience in educational programs. 1-2-3 sem. hrs.

316 Special Topics. Accommodates special needs of teachers and school systems through use of selected contemporary topics, resource persons, and prepared programs; supports requests for professional development. Variable credit depending on course structure and time commitment. 1-3 sem. hrs.
319 Student Development Theory and Its Application to Residential Life. Theoretical and experiential study of human behavior. Emphasis on self-awareness and growth, and its application to understanding students and their lives. Attention given to leadership skills in residential setting. Graded pass/fail. Prerequisite: Selection as Residential Life staff member or permission of instructor. 1 sem. hrs.

322 Teaching Diverse Learners. Examines the teaching, instruction, and curricula required to meet the needs of diverse students who, by virtue of their experiential, cultural, socioeconomic, linguistic, and physiological backgrounds, challenge traditional curriculum and instructional programs. 3 sem. hrs.

323 Science in the Elementary School. Theories, research, methods and materials relevant to teaching elementary science: theoretical foundations, empirical research, constructivism, teaching strategies, problem solving, and process skills. Experience with use of technology in context of science instruction. Prerequisite: Education 301 (may be taken concurrently). 3 sem. hrs.

324 Reading in the Elementary School. In-depth examination of developmental nature of language and reading ability and its link to literacy development. Study of methods and materials associated with reading instruction. Prerequisite: Education 301. 4 sem. hrs.

325 Language Arts in the Elementary School. Examination of language arts processes of communicating (speaking, listening, reading and writing) along with specific methods to promote growth in communication skills in elementary school children. Includes study of selected children’s literature. Prerequisite: Education 301. 3 sem. hrs.

327 Mathematics in the Elementary School. Theories, research, methods and materials relevant to teaching elementary mathematics: theoretical foundations; empirical research; constructivism, teaching strategies; problem solving; fundamental mathematical concepts. Experience with use of technology in context of mathematics instruction. Prerequisite: Education 301. 3 sem. hrs.

328 Social Studies in the Elementary School. Understanding the knowledge, skills, and processes of history and the social science disciplines as defined in the Virginia Standards of Learning, and how those standards provide the necessary foundation for teaching history and social science. Prerequisite: Education 301. 3 sem. hrs.

333 Drugs and Society. (See Health and Sport Science 333.) 3 sem. hrs.

335 Assessment and Evaluation in Education. Considers issues surrounding assessment in the school setting. Introduction to forms of assessment, including standardized, diagnostic, authentic, performance, and portfolio. Emphasis on procedures of construction, analysis, and evaluation of tests. 3 sem. hrs.

342 Instructional Design and Evaluation. Process of establishing appropriate goals and objectives for instruction in middle and secondary schools including writing cognitive, affective, and psychomotor objectives and using these in planning and evaluation aspects of instruction. Attention to design, construction, use of classroom tests, and general principles of assessment. Prerequisite: Education 302. 3 sem. hrs.

343 Computers in the Classroom. Theory and pedagogy of using technology for instruction in all areas of K-12 curriculum. Prerequisite: Admission to the teacher preparation program and junior status. 3 sem. hrs.

344 Technology Practicum. Practical experience in teaching children with and about technology and developing technology curriculum. Requires portfolio. Graded pass/fail. Prerequisite: Education 343 (may be taken concurrently). 1 sem. hr.

345 Curriculum Modifications for Inclusion. Includes techniques and methodology for modifying instruction and assignments. Includes collaborative paradigms and assessment across the exceptionalities and the content areas, K-12. Prerequisite: Education 301 or 302. 3 sem. hrs.

358 Classroom Management. Behavioral principles and procedures for reducing classroom problems, increasing motivation, and strengthening desired classroom behavior. Prerequisite: Education 301 or 302. 3 sem. hrs.

375 Using Literature to Craft Classroom Writing. (Summer only.) (Same as English 375.) 3 sem. hrs.

425 Language Arts and Social Studies in the Elementary School. Examines purposes and curriculum structure of language arts and social studies programs. Language arts component will emphasize methods and materials for instruction in speaking, listening, writing, spelling, and grammar. Social studies area will include objectives, instructional strategies, and evaluation of social studies education. Includes three hours of lecture and one hour of laboratory a week. Prerequisites: Permission of instructor. 4 sem. hrs.

446 Research and Analysis of Teaching. Research results are used to identify teacher behaviors and characteristics essential to effective instruction. Students will develop and demonstrate methodologies appropriate to meeting student needs. Classroom strategies are examined via micro-teaching demonstrations. Includes a one-semester-hour laboratory. Prerequisites: Education 342. 4 sem. hrs.
449 Content Area Reading. Reading and critical thinking in secondary school content areas. Specific strategies are explored that enhance comprehension, concept development, and vocabulary knowledge. Effects of text organization and relationship between reading and writing are examined for all content areas. Prerequisite: Senior status or permission of instructor. 3 sem. hrs.

451 Survey of Children's Literature. Survey of modern and traditional literature with emphasis on evaluative criteria used in selecting books based on school and recreational needs and interests of children. Features storytelling, creative dramatics, and ways of integrating books into curriculum. 3 sem. hrs.

Student Teaching Courses (EDUC)

475 Student Teaching, Elementary Education (preK-6). Involves working directly with students in classroom on full-time basis under direction of cooperating teacher and University supervisor; student assumes full teacher responsibility for all instructional periods and school activities. Weekly seminar. Graded pass/fail; however, a comprehensive evaluation is completed for each student teacher. Prerequisite: Departmental Approval. 12 sem. hrs.

477 Student Teaching, Secondary Education (6-12). (See description under Education 475.) 12 sem. hrs.

478 Student Teaching, Comprehensive Endorsement Subject Area (preK-12). (See description under Education 475.) 12 sem. hrs.

479 Elementary Student Teaching Seminar. Seminar correlates with elementary student teaching. Forum for discussion and examination of critical issues related to students’ teaching responsibilities and competence. Corequisite: Enrollment in Education 475. 2 sem. hrs.

480 Secondary/Comprehensive Student Teaching Seminar. Seminar correlates with middle and secondary student teaching. Forum for discussion and examination of critical issues related to students’ teaching responsibilities and competence. Corequisite: Enrollment in Education 477 or 478. 2 sem. hrs.

English (ENGL)

Raymond F. Hilliard, Chair
Professors Dance, Hilliard, Loxterman, McMurtry, Nelson, W.D. Taylor
Associate Professors Barza, Givens, Gruner, Hewett-Smith, Hickey, S. Jones, MacAllister, Russell, Schwartz, Tremaine
Assistant Professors Allen, Larkin, Marx
Director of Writing Center Essid

Note: Students must complete English 103 with a grade of C (2.0) or better before taking any other English courses. (This does not apply to students who are exempt from English 103 on the basis of an Advanced Placement or English Achievement score.) English 299, Introduction to Literary Analysis, is a prerequisite to most advanced literature courses. A grade of C (2.0) or better is required in all coursework comprising the English major or the minor.

The English Major

Thirty-six semester hours in English approved by the department as noted below.

English 299 3 hours
Four survey courses: 12 hours
from group A and one from group B
One American literature course at the 300 or 400 level (not including English 330) 3 hours
One theory course 3 hours
One foundational author course 3 hours
Two Topics Seminars at the 400 level 6 hours
(400-level courses are more specialized than those at the 300-level and often have a 300-level prerequisite.)
Two electives, one of which may be at the 200 level (Exceptions: English 208, 213, 220, or 232 may not be taken as an elective.) 6 hours

The English Minor

Twenty-one hours in English approved by the Department as noted below.

English 299 3 hours
Two British survey courses from among English 301, 302, 303 6 hours
One American Literature course at the 300 or 400 level 3 hours
One Special Topic Seminar at the 400 level 3 hours
Two other English courses, one of which may be at the 200 level
6 hours
(Exceptions: English 208, 213, 220, or 232 may not be taken as an elective.)

English 299 is a prerequisite to most 300- and 400-level English courses (for possible exceptions, see below under Advanced Literature Courses).

Special topics seminars may be taken more than once for credit when topic changes.

Honors Program
To earn honors in English, a major must complete three additional hours in a Special Topics Seminar or in a Graduate Course (choice to be made in consultation with the Honors Coordinator). The student must also complete three hours of thesis writing (English 499, Honors Thesis) and have attained a departmental GPA of 3.60 by the beginning of the fall semester of the senior year. The student must also maintain that GPA through the completion of the program and an overall GPA of no less than 3.30 while in the program. The thesis must be submitted to a faculty committee in the spring of the student's senior year. Honors will be granted only to those students whose theses meet departmental standards. Students who have not declared that they are seeking honors will be considered candidates until they fail to meet one of the program's requirements. For further information and advice on standards and curriculum, see the Honors Coordinator.

Additional Courses (ENGL)
The following courses may be taken for credit toward the 122 hours required for graduation, but may not be counted in the hours required for the English major.

100A-100B Interdisciplinary Writing. (Summer only). Provides students with critical writing/reading skills within interactive computer classroom. Focus on frames of inquiry which inform various academic disciplines. Part I (100A) includes introduction to computer technology and critical reading and writing with emphasis on personal responses to individual texts (visual and print) drawn from across disciplines, along with a short research-based assignment. Part II (100B) includes continuation of critical reading and writing with emphasis on cross-disciplinary texts, library skills orientation, research-based assignment, oral presentations, and collaboration on creating a Web site. (Limited to Summer College students). 1-1 sem. hrs.

375 Using Literature to Craft Classroom Writing. (Summer only.) May not be counted for required hours in the English major. (Same as Education 375.) 3 sem. hrs.

388 Individual Internship. Application of academic skills and theories in placement approved by department. Includes academic work. Supervised by member of the English faculty. Approximately 50 hours of work required for each hour of credit. No more than three semester hours of credit may be earned in English 388. Prerequisites: Three semester hours of 300-level English with grade of C (2.0) or better, written application in advance of internship, and recommendation of the English faculty member who will supervise the internship. 1-3 sem. hrs.

Environmental Studies (EVRN)
John W. Bishop, Coordinator (Biology)
The environmental studies major enables students to better understand, evaluate, and change the way humans relate to their natural world. It consists of courses in the natural sciences, social sciences, humanities, law, and business that relate directly to environmental issues, as well as environmental studies courses that help students integrate what they learn in other courses.

The Environmental Studies Major
Note: The grade point average of all the coursework comprising the major in environmental studies must be no less than 2.00 with no course grade below C- (1.7).

The Environmental Studies major requires a total of 36 semester hours, including 21 hours in the following core courses:

- Introduction to Environmental Studies
- Environmental Ethics
- Environmental Economics
- Environmental Law and Policy
- Research Methods in Environmental Studies
- Senior Seminar

An additional 15 hours in elective courses that carry environmental studies credit are required, distributed as follows: six hours in natural sciences, three in social sciences, three in humanities, and three in any area. At least two of the 36 hours applied toward the major must be the result of experiential learning.

(Note: Because the environmental studies major was not approved until May, 2000, the specific courses that will carry environmental studies credit had not been approved by the time this catalog was printed. It is anticipated, however, that the Introduction to Environmental Studies course will be offered for the first time in the spring semester of 2001 and that other courses will be phased in during the next two years.)
Geography (GEOG)

Geography Courses (GEOG)

206 World Regional Geography—Developed Regions. World’s economically developed areas (Europe, North America, Australia, CIS [former Soviet Union], Japan). 3 sem. hrs.

Health and Sport Science (HSS)

Note: The Department of Health and Sport Science will close at the end of the 2000-2001 academic year. The Department is accepting no new majors or minors. Current majors and minors are expected to complete their Health and Sport Science requirements by the end of Spring 2001.

Donald W. Pate, Chair
Associate Professors Pate, Pierce
Assistant Professors C. Johnson

Health (HSS)

Note: The grade point average of the coursework comprising the Health major or minor must be no less than 2.00 with no course grade below C- (1.7).

No Health and Sport Science course, with the exceptions of 300, 365, and 495 may be counted more than once toward any major or minor taken within the department.

The Health Major

Required Courses: 32 hours
Health and Sport Science 300, 330, 331, 333, 340, 365, 366, 375, 437, 495

Nineteen hours of related coursework:
  Biology 211-212
  Chemistry 103-104
  Math 119

Electives:
  Three hours from approved Health and Sport Science courses
And for the Bachelor of Science degree:
  Mathematics 212 3 hours

The Health Minor

Required Courses: 18 hours
Twelve hours from the following Health and Sport Science courses:
  Health and Sport Science 300, 330, 331, 333, 340, 365, 375
Electives:
  Six hours from approved Health and Sport Science courses

Sport Science

Note: The grade point average of the coursework comprising the sport science major or minor must be no less than 2.00 with no course grade below C- (1.7).

No Health and Sport Science course, with the exceptions of 300, 365, and 495 may be counted more than once toward any major or minor taken within the department.

The Sport Science Major

For either the Bachelor of Arts or Bachelor of Science degree the student must select one of the following options:

I. Human Movement Science:

Departmental Hours: 32 hours
Required Courses: 26 hours
  Health and Sport Science 300, 356, 365, 366, 367, 368, 468, 495

Two of the following: 6 hours
  Health and Sport Science 333, 339, 351, 354, 388, 390

Required Courses outside of HSS Department: 7-11 hours
  Math 119, Biology 102, or 211-212

Recommended Courses:
  Psychology 211, 321, 323; Physics 131, 301, 308;
  Biology 211; Chemistry 103-104, 205-206, 327

II. Sport Administration

Departmental Hours: 30 hours
Required Courses: 24 hours
  Health and Sport Science 300, 354, 355, 357, 359, 370, 388, 495

Electives: 6 hours
  Approved courses within the HSS Department

Required Courses outside of HSS Department: 9 hours
  Math 119

Three hours from the following:
  Accounting 201, Finance 360,
  Computer Science 105 or 150
Three hours from the following:
Economics 101-102, Computer Science 105 or 150
*A Business Administration MINOR or MAJOR is strongly recommended.

III. Psychology/Sociology

Departmental Hours: 30 hours
Required Courses: 18 hours
- Health and Sport Science 300, 354, 355, 407, 468, 495
Electives: 12-14 hours
- Health and Sport Science 331, 353, 354, 355, 365, 366, 367, 368, 388
Required Courses outside of HSS Department:
- Math 119; Biology 102, 211-212

Psychology or Sociology courses may be acceptable as electives upon departmental approval.

For the Bachelor of Arts degree:
- Biology 102

For the Bachelor of Science degree:
- Biology 211-212
- Mathematics 212

*For more information about the Sport Science concentrations of Exercise Physiology, Sport Psychology/Sociology, or Sport Management, contact the Health and Sport Science Department.

The Sport Science Minor
Health and Sport Science 360, 355, 365, 367, 368 16 hours
Elective courses from Health and Sport Science approved by the department 2 hours

Note: The Health major must take 15 hours other than 300 and 365.

The Sport Administration Minor
Health and Sport Science 355, 357, 359, 370 12 hours
Elective courses approved by the department 6 hours

| African History | 6 hours |
| Research Seminar for Majors | 3 hours |

Elective Courses 12 hours

Note: (1) International and Comparative History Courses, History 392-396, may be used to satisfy course requirements in the above regional fields. A student may not apply a given International/Comparative course to more than one field. Only one course in each regional field may be satisfied with an International/Comparative course. (2) Courses offered under History 398, Selected Topics may be difficult to assign to the above regional fields. The Chair, in consultation with the course instructor, will determine which, if any, of the field requirements such courses fulfill.

The History Minor
Eighteen semester hours in history, including a minimum of nine hours at the 300 level or higher.

Note: Students who present a score of 5 or 4 on the Advanced Placement European History examination or a 7, 6, or 5 on the International Baccalaureate History of Europe higher level examination receive credit for History 202 (three semester hours) and an additional three semester hours of 200 level history credit. Those who present a score of 5 or 4 on the Advanced Placement United States History examination receive credit for History 205-206 (six semester hours). Students who present a 7, 6, or 5 on the International Baccalaureate History of the Americas higher level examination receive six hours of 200 level history credit. These credits may be applied to the history major (including the appropriate field requirements) and minor. Students who have received Advanced Placement credit for History 202 and History 205-206 may not take these courses for credit.

Honors Program
Majors who meet the Arts and Sciences requirements for departmental honors are encouraged to apply for and pursue the honors program in history. To earn honors in history a student must complete 12 semester hours in honors courses—six in intensive readings seminars in historiography (History 410-411) and six in a two-semester research seminar (History 412-413). Honors students are exempt from History 400, but must satisfy all other requirements for the major. History 410 may be applied to any field requirement in the major; 411 may be applied to the United States field requirement.

Internships
The Department of History has a program of prearranged individual internships. Interested students should apply to the department for details.

Interdisciplinary Studies and Interdisciplinary Colloquia (IDST, COLQ)

Steven L. Barza, Coordinator

Interdisciplinary Studies offers two distinct programs—Interdisciplinary Colloquia and the Self-Designed Interdisciplinary Studies Major.

The Interdisciplinary Colloquia

The Interdisciplinary Colloquia, which are one-semester electives, provide an opportunity to explore a variety of topics that do not typically fall within disciplinary boundaries. They are taught on a small-group basis, stressing student-faculty interaction, and are open to all students without prerequisites. Students should ascertain which courses are available in any given semester. The following courses are typical of the offerings:

Interdisciplinary Colloquia (COLQ)

178 Artificial Life: An Emerging Discipline. Survey of current work being done in new field of Artificial Life whose purpose is to discover principles governing the origins and emergence of evolution, development, communication and learning by synthesizing biological phenomena. Research and methodology into formal basis for life in order to examine life-as-we-know-it in context of life-as-it-could-be. 3 sem. hrs.

201 Beyond Words: Perception and Meaning in Music, Dance, Poetry, and the Visual Arts. Despite tendency to equate meaning with words, much of our perception goes beyond words. Examines our perception of nonverbal meanings in the arts. Includes attendance at variety of cultural events, such as concerts, exhibitions, operas, dance concerts, poetry readings. 3 sem. hrs.

203 Music and Religion in American Culture. Discussion of various ways in which religion finds expression in folk, popular, and classical music, both sacred and secular. 3 sem. hrs.

205 Aristotle Across Disciplines. Survey of Aristotle’s contributions to and continued influence on the core of a liberal education. Among areas considered are aesthetics, logic, rhetoric, ethics, politics, psychology, biology, medicine, physics, and cosmology. 3 sem. hrs.

334 Urban Revitalization and Preservation. Using the city of Richmond as a laboratory, a study of importance of preserving old and historic structures, districts, and artifacts, and of maintaining integrity and flavor of existing neighborhoods within context of modern urban environment. 3 sem. hrs.
The Interdisciplinary Studies Major

Note: A grade of not less than C (2.0) is required in each course comprising the major. The nature of the approved program will determine whether the degree is a Bachelor of Arts or Bachelor of Science. (See pages 50-52.) The Interdisciplinary Studies major provides a student the opportunity to propose and pursue, with faculty supervision, a unique program of study.

For either the Bachelor of Arts or Bachelor of Science degree: Thirty semester hours of coursework including the senior thesis.

The specific program of study is developed by the student for the junior and senior years, and consists of a theme and supporting courses. The program must be approved by two faculty advisors, the Interdisciplinary Studies coordinator, and the dean of the School of Arts and Sciences.

The Interdisciplinary Studies Minor

Note: A grade of not less than C (2.0) is required in each course comprising the minor.

The Interdisciplinary Studies minor is designed for the exceptionally motivated student and is contingent upon the approval of two faculty advisors, the Interdisciplinary Studies coordinator, and the dean of the School of Arts and Sciences.

Requirements: Eighteen semester hours of coursework including the senior thesis.

The specific program of study is developed by the student with consultation with two faculty advisors, cohering to a central student-determined theme, involving two or more departments, culminating in a significant senior thesis. The program must be approved by two faculty advisors, the Interdisciplinary Studies coordinator, and the dean of the School of Arts and Sciences.

Interdisciplinary Studies Courses (IDST)

398-399 Senior Thesis. For students in the Interdisciplinary Studies major. 1.5/1.5 sem. hrs.

The Interdisciplinary Studies program offers courses which are open to any student for elective credit. The following courses are typical of the offerings.

300 Technologies of Change: Information Resources, Policies, and Communities. Focus on understanding, using, and evaluating information technologies for research, communication, manipulation of data, and presentation of ideas and results. Consideration of public policy, ethical, and technological issues related to information access, presentation, ownership, and distribution. 3 sem. hrs.

390 Interdisciplinary Studies in the Middle Ages and Renaissance. (See English 390). 3 sem. hrs.

397 Special Topics. Topics will vary from semester to semester. 3 sem. hrs.

International Studies (IS)

John W. Outland, Coordinator

The International Studies major is composed of seven concentrations which are coordinated by advisors with special expertise in the areas. Students with specific interests outside the described concentrations may petition to create an independent concentration.

The International Studies Major

NOTE: A grade of not less than C (2.0) is required in all coursework comprising the major.

Required:

Enhanced Language Proficiency

Six semester hours of 300- or 400-level coursework in the Department of Modern Languages and Literatures, excluding courses taught in English. Each grade must be C (2.0) or higher.

Journalism (JOUR)

Michael Spear, Coordinator
Associate Professors Nash, Spear

Journalism professionals are also employed as adjunct faculty members.

Note: The grade point average of the coursework comprising the major and the minor must be no less than 2.00 with no course grade below C-(1.7).

The Journalism Major

Twenty-seven semester hours in journalism, including Journalism 200, 201, 301, 302, 303, 304, and three hours of 288 or approved substitute.

English 342, 367, and 368 may be used to count for no more than six of the 27 semester hours required in journalism.

The Journalism Minor

Eighteen semester hours in journalism, including Journalism 200, 201, 301, 303, any 200- or 300-level Journalism course as an elective, and 3 hours of Journalism 288 or approved substitute.

General Prerequisites: Journalism 200 and 201 are prerequisites for some 200-level and all 300-level courses in journalism, and should be completed before the end of the sophomore year.

Journalism Courses (JOUR)

200 News Media and Society. History and development of print and electronic media. Conflicts between free press and other social objectives. External and internal controls affecting news media and flow of information. 3 sem. hrs. (FSSA)

201 News Writing. Intensive training in basic writing and reporting skills, news values, and research. Includes frequent writing assignments. Prerequisites: Basic typing skills, basic skills in English. 3 sem. hrs.

202 Feature and Magazine Article Writing. Research and writing of news-feature and magazine articles. Prerequisites: Journalism 200 and 201. 3 sem. hrs.

203 Television News. News reporting and production techniques of television, with emphasis on writing and some training in use of equipment. Prerequisites: Journalism 200 and 201. 3 sem. hrs.

205 Photojournalism. Theory and practice of news and feature photography, darkroom technique, properties of light and film. Prerequisites: Journalism 200 and 201 or permission of instructor, 35mm single lens reflex camera, lab fee. 3 sem. hrs.

206 Public Relations. Theory and practice of public relations. Case studies involving preparation of publicity campaigns and media relations, employee publications. Prerequisites: Journalism 200 and 201 or permission of instructor. 3 sem. hrs.

288 Practicum. Reporting for campus news media, with class discussion of reporting assignments and editorial processes. May be repeated no more than three times. Counts as internship in regard to 12-hour limit for such courses. Prerequisites: Journalism 200 and 201. 1 sem. hr.

301 Copy Editing. Improving news writing through practice in copy reading, editing, and discussion of news styles, grammar, usage, page design, headline writing, picture selection, news judgment. Prerequisites: Journalism 200 and 201. 3 sem. hrs.

302 Public Affairs Reporting. Writing and reporting on public institutions such as police, courts, and legislative bodies. Interviewing and research using public documents. Frequent off-campus writing assignments. Prerequisites: Journalism 200 and 201. 3 sem. hrs.

303 Journalism Ethics, Law. Case studies of ethical conflicts encountered in reporting and editing. Current state and federal laws regulating news media, especially libel, privacy, and freedom of information statutes. Prerequisites: Journalism 200 and 201. 3 sem. hrs.

304 Seminar. Study of specialized field of reporting or writing. Prerequisite: Journalism 301. 3 sem. hrs.
305 Precision Journalism. Computer-assisted reporting that uses survey research methods. Emphasizes news writing techniques; includes field experiments, basic statistics, construction of questionnaires for polls, random-sample polling, and analysis of database searches. Prerequisites: Journalism 200 and 201. 3 sem. hrs.

306 Graphics and Design. Introduction to graphics and design in newspapers; some attention given to magazines and advertising. Stresses design principles, typography, photo editing. Prerequisites: Journalism 200 and 201. 3 sem. hrs.

388 Individual Internship. Supervised work in writing, research, or production at approved news or public relations outlet. Must be taken pass/fail. May be repeated, but not to accrue more than three hours total credit. Prerequisite: Journalism 201. 1-3 sem. hr.

Mathematics and Computer Science (MATH and CMSC)

COMPUTER SCIENCE (CMSC)

Note: Knowledge of the topics of Computer Science 150 is prerequisite to all higher numbered Computer Science courses. Students who have obtained this knowledge through a high school or some other course are permitted and encouraged to begin with Computer Science 221.

The Computer Science Minor

I. Computer Science 150, 221, 222, and 301.

II. One additional three- or four-hour Computer Science course for which Computer Science 222 is a prerequisite.

Computer Science Courses (CMSC)

101 Minds and Machines. (See Mathematics 101.) 3 sem. hrs. (FSSR)

105 Problem Solving Via Computer Programming. Solving problems by writing computer programs. Introduction to computer architecture. Emphasis on symbolic reasoning rather than on use of current software tools. For non-majors. Not open to students who have completed Computer Science 150 or 221. 3 sem. hrs. (FSSR)

108 Digital Armtaking. (See Studio Art 223.) 3 sem. hrs. (FSVP)

150 Introduction to Computing. Techniques for using computers to solve problems, including top-down design and structured programming. Topics include arrays and subprograms. Three lecture and three laboratory hours a week. Prerequisite: None; however, strong mathematics aptitude usually predicts success in computer science. 4 sem. hrs. (FSSR)

Note: Knowledge of the topics of Computer Science 150 is prerequisite to all higher numbered Computer Science courses. Students who have obtained this knowledge through a high school or some other course are permitted and encouraged to begin with Computer Science 221.

195 Special Topics. Special topics satisfying neither major nor minor requirements. 1-3 sem. hrs.

221 Data Structures. Introduction to data structures, including stacks, queues, linked lists, and binary trees. Topics include recursion, data abstraction, and analysis of searching and sorting algorithms. Prerequisite: Computer Science 150. Three lecture and three laboratory hours a week. 4 sem. hrs. (FSSR)

222 Discrete Structures for Computing. Sets, functions, elementary propositional and predicate logic, Boolean algebra, elementary graph theory, matrices, recurrence relations, proof techniques (including mathematical induction and proof by contradiction), combinatorics, probability, and random numbers, with applications to computing. Corequisite: Computer Science 221. 3 sem. hrs.
Note: Many 300-level courses in computer science include a "consulting laboratory." This is an instructor-designed, organized, and supervised component of the course that may occur as a fourth hour of lecture or as an extra course component scheduled outside of the lecture period. Scheduling and format will be discussed at the first class session. The format may vary by instructor and course. Students are urged to contact the instructor prior to registration if they have a question about the laboratory.

301 Computer Systems and Architecture I. Fundamentals of computer organization with focus on machine and assembly language levels. Topics include Boolean algebra, digital logic, data representations, study of a modern processor's architecture and assembly language, and creation of simulators and assemblers. Consulting laboratory. Prerequisite: Computer Science 221. 4 sem. hrs.

315 Algorithms. Advanced data structures and their algorithms. Topics include balanced trees, graphs, networks, and hashing. Emphasis is given to analysis of the algorithms' time and space complexity. Consulting laboratory. Prerequisite: Computer Science 221. 4 sem. hrs.

321 Operating Systems. Memory management, process management, structure of operating systems, and case studies. Consulting laboratory. Prerequisites: Computer Science 222 and 301. 4 sem. hrs.

322 Software Engineering Practicum. Project-oriented course designed to implement concepts developed in other computer science courses. Principles of software engineering will be emphasized throughout. Consulting laboratory. Prerequisites: Computer Science 315 and 321. 4 sem. hrs.

323 Design and Implementation of Programming Languages. Issues in design and implementation of programming languages, including run-time environment, binding times, and support for structured programming. Consulting laboratory. Prerequisites: Computer Science 301 and 315. 4 sem. hrs.

325 Database Systems. Database models, including Entity-Relationship Model, Network Model, Hierarchical Model, Relational Model, and Object-Oriented Model. File structures, including B-tree indexes. Normalization of relational databases. Software development, including embedded SQL. Consulting laboratory. Prerequisite: Computer Science 315. 4 sem. hrs.

328 Numerical Analysis. (See Mathematics 328.) 3 sem. hrs.

330 Theory of Computation. Finite state machines, regular languages, push down automata, context-free languages, Turing machines, recursive functions, and related topics. Prerequisite: Computer Science 315. 3 sem. hrs.

332 Computer Networks. Principles and techniques for data communication between computers. Topics include physical media, signalling, error detection and correction, communication protocols, routing and congestion control in large networks, application of computer networks, and recent advances. Consulting laboratory. Prerequisite: Computer Science 315. 4 sem. hrs.

333 Parallel Programming. Principles and techniques for programming computers that have multiple processors. Writing programs for parallel computers that enhance run-time efficiency, portability, correctness, and software modifiability. Consulting laboratory. Prerequisite: Computer Science 315. 4 sem. hrs.

340 Directed Independent Study. To enable well-qualified students who have completed basic requirements for major to work independently in areas not included in curriculum. Prerequisite: Permission of departmental chair and instructor. 1-3 sem. hrs.

395 Special Topics. Selected topics in computer science. Prerequisite: Permission of instructor. 1-4 sem. hrs.

420 Senior Research. 1-3 sem. hrs.

MATHEMATICS (MATH)
Note: The grade point average of the coursework comprising the major or the minor must be no less than 2.00 with no Mathematics course grade below C- (1.7).

The Mathematics Major
For either the Bachelor of Arts or Bachelor of Science degree:
Note: Mathematics 306 or 320 must be completed prior to the senior year.
II. Two of the following Mathematics courses: 307, 321, 324, 350, 331, and 336.
III. Six additional semester hours from mathematics courses numbered 240 or higher.
And for the Bachelor of Arts degree: Computer Science 150.
And for the Bachelor of Science degree:
Computer Science 150, and four courses in one natural science or Computer Science with at least two of these courses at the advanced level.

The Mathematics Minor
I. Mathematics 211, 212, 235, and 240 or 245.
II. Two courses at the 300-level.

Mathematics Courses (MATH)
101 Minds and Machines. Formal deduction in propositional logic. Fundamentals of computer architecture. Elementary exploration of extent to which symbolic reasoning can be automated. (Same as Computer Science 101.) 3 sem. hrs. (FSSR)

102 Problem Solving Using Finite Mathematics. Topics to demonstrate power of mathematical reasoning. Applications will be emphasized. 3 sem. hrs. (FSSR)

103 An Introduction to Simulation (The Mathematics of Waiting in Line). Introduction to fundamentals of abstracting practical situations involving waiting lines (e.g. supermarket lines, assembly lines, emergency rooms, computer networks) into mathematical models. Abstracted models will be simulated using computer software to obtain approximate solutions. Introduction to statistical analysis of data is also included. 3 sem. hrs. (FSSR)

104 Symmetry in Tilings and Patterns. Introduction to symmetry and its use in the generation and classification of geometric patterns. 3 sem. hrs. (FSSR)

119 Social Science Statistics. Introduction to statistical methods with applications to social sciences. Sampling, hypothesis testing, analysis of variance, and nonparametric methods. Emphasis on proper use of statistical computing tools such as SPSS. 3 sem. hrs.

195 Special Topics. Special topics satisfying neither major nor minor requirements. 1–3 sem. hrs.

211 Calculus I. Derivative and integral; derivatives of trigonometric, exponential, logarithmic, and inverse trigonometric functions; applications of curve sketching; applications to physical, life, and social sciences; Mean Value Theorem and its applications; Fundamental Theorem of Calculus. Prerequisite: High school precalculus. 3 sem. hrs. (FSSR)

212 Calculus II. Techniques of integration; applications of integration; improper integrals; l’Hospital’s Rule; Taylor’s Theorem and applications, infinite series, differential equations. Prerequisite: Mathematics 211 or one year of high school AP calculus. 3 sem. hrs. (FSSR)

235 Multivariate Calculus. N-dimensional Euclidean space, functions of several variables, partial derivatives, multiple integrals, applications. Prerequisite: Mathematics 212. 3 sem. hrs. (FSSR)

240 Differential Equations. Methods of solution, existence and uniqueness theorems, modeling and applications. Prerequisite: Mathematics 212. 3 sem. hrs.

245 Linear Algebra. Vector spaces, matrices, systems of linear equations, and linear transformations. Prerequisite: Mathematics 212 or Computer Science 222. 3 sem. hrs.

306-307 Abstract Algebra I and II. Systematic study of theory of groups, rings, and fields. Prerequisites: Mathematics 245 and 250 (Mathematics 250 may be taken concurrently). Mathematics 306 is prerequisite to 307. 3 sem. hrs.

310 Advanced Calculus. Topics from multivariable calculus, theorems of Green, Gauss, and Stokes, uniform convergence, partial differential equations. Fourier series or calculus of variations. Prerequisite: Mathematics 235. 3 sem. hrs.

315 Modern Geometry. Geometry of surfaces in 3-dimensional space, including lengths, areas, angles, curvature, and topology. Classification of Euclidean isometries. Classification of compact surfaces having constant Gaussian curvature. Prerequisites: Mathematics 235 and 245. 3 sem. hrs.

320-321 Real Analysis I and II. Topological properties of real line and Euclidean space. Convergence, continuity, differentiation, and integration properties of real-valued functions of real variables. Prerequisites: Mathematics 235 and 250. Mathematics 320 is prerequisite to 321. 3 sem. hrs.

325 Discrete Mathematical Models. Graph models; Markov chain models; Queuing theory models; Applications of discrete probability. Prerequisite: Mathematics 245. 3 sem. hrs.

324 Continuous Mathematical Models. Continuous models in modern applications. Primary focus on practical understanding of the modeling process, with goals of developing individual modeling skills, and ability to critically read modeling reports in scholarly journals. Mathematical topics include ordinary differential and partial differential equations. Prerequisites: Mathematics 240 and 245. 3 sem. hrs.
328 Numerical Analysis. Analysis and implementation of algorithms used in applied mathematics, including root finding, interpolation, approximation of functions, integration, and solutions to systems of linear equations. (Same as Computer Science 328.) Pre-requisites: Mathematics 212, 245, and Computer Science 150. 3 sem. hrs.

331 Complex Analysis. Introduction to calculus of functions of single complex variable, including series, calculus of residues, and conformal mapping. Prerequisite: Mathematics 310 or Physics 301. 3 sem. hrs.

336 Operations Research. Linear and Integer Programming: algorithms, complexity, sensitivity, and duality. Applications such as assignments, networks, scheduling. Prerequisite: Mathematics 235 and 245. 3 sem. hrs.

340 Directed Independent Study. For well-qualified students who wish to work independently in areas not included in curriculum. Prerequisite: Permission of departmental chair and instructor. 1-3 sem. hrs.

350 Coding Theory. Error-correcting codes are used to ensure reliable electronic communication in everything from compact disc players to deep space transmission. Topics include linear codes, design theory, cyclic codes, counting arguments for nonexistence, and decoding algorithms. Prerequisite: Mathematics 245 or permission of instructor. 3 sem. hrs.

355 Cryptography. History and development of “secret codes” with applications to electronic commerce, diplomatic and military communications, and computer security. Emphasis on mathematical structures underlying classical, arithmetic, algebraic, mechanical, electronic, and public-key cryptosystems. Prerequisites: Mathematics 245 and either Mathematics 240 or Computer Science 222 or permission of instructor. 3 sem. hrs.

395 Special Topics. Selected topics in mathematics. Prerequisite: Varies with topic. 1-3 sem. hrs.

420 Senior Research. 1-3 sem. hrs.

Military Science (MLSC)

James R. Meredith, Lieutenant Colonel, U. S. Army, Chair
Professor Meredith
Assistant Professors Cook, Schweichler

The objective of the Military Science Program is to provide the leadership and management foundation required for military service as a commissioned officer or in a civilian counterpart position. In support of this objective the curriculum includes classroom instruction and off-campus activities geared to the development of leadership skills. The program is divided into two general parts: the Basic Course and the Advanced Course.

The Basic Course is offered to first-year and sophomore students. Enrollment carries no Army commitment and there is no obligation to enroll for successive course offerings. United States Army ROTC scholarship students must participate in field exercises and leadership laboratory. Non-scholarship students must attend selected out-of-classroom activities.

The Advanced Course is restricted to juniors and seniors. There are physical and academic requirements for entrance established by the Department of Military Science. Participation provides a $200 monthly stipend, and requires a contractual obligation to the United States Army. Advanced Course students must participate in all field training exercises and leadership laboratories. Advanced course students may participate in the University’s study abroad program. Students who satisfactorily complete degree requirements, professional military education requirements, and the Military Science Program will be commissioned as second lieutenants in the United States Army Reserve. United States Army ROTC scholarships are available on a competitive basis.

Note: Up to six semester hours may be applied toward graduation for ROTC Basic Camp Attendance and/or prior military service.

Military Science Courses (MLSC)

101 Basic Military Science. Organization, structure, role, and customs and traditions of the United States Army. Leadership development. Introduction to basic map reading. Prerequisite: First-year or sophomore class standing, or permission of departmental chair. 2 sem. hrs.
201 Basic Military Science: Military Leadership.
Factors of military leadership. Uses case studies to examine common character traits of leaders in relation to different leadership styles. Introduces professional military ethics and helps students identify personal leadership traits through practical exercises. Prerequisite: Military Science 101 or permission of departmental chair. 2 sem. hrs.

202 Basic Military Science: Military History.
Traces development of American military system from Colonial Period to present. Analyzes principles of war, their applicability in selected battles, role of military professionals in shaping United States policy, and where the military profession fits in society. 3 sem. hrs.

204 ROTC Basic Camp.
Five weeks of training at a military installation. Travel pay and salary provided through Department of Military Science. No military service obligation. Basic Camp graduates are eligible to enroll in Advanced Military Science courses. Amount of academic credit awarded for Basic Camp depends upon amount of basic military science credit previously earned. Graded pass/fail. Prerequisite: Permission of departmental chair. 0-6 sem. hrs.

205 Leadership Development and Training.
Introduction to the learning, training, and application of basic military skills in a military environment. Begins with methods of instruction, training assessment, and planning effective training. Focuses on training the trainer with emphasis on development of self-confidence and oratory skills using military common skills tasks as a vehicle. Further focuses on techniques in assessing, team building, individual counseling, and development. Prerequisites: Military Science 201 and 202 or permission of departmental chair. 2 sem. hrs.

301-302 Advanced Military Science.
Management principles and leadership, instructional methods; organization and function of Army branches; theory and dynamics of unit operations; and exercise of command. Physical training mandatory. Two class hours and two laboratory hours a week. Prerequisite: Permission of departmental chair. 2-2 sem. hrs.

303-304 Advanced Military Science.
Staff organization and procedures, training management, logistics, administration of military law; and exercise of command and professional ethics. Physical training mandatory. Two class hours and two laboratory hours a week. Prerequisite: Permission of departmental chair. 2-2 sem. hrs.

390 Independent Study.
In-depth exploration of a subject not included in other courses offered by the department to be done independently but under the supervision of a faculty member. Prerequisites: Two semesters of Military Science and permission of instructor. 1-2 sem. hrs.

Modern Languages and Literatures
Julie C. Hayes, Chair
Professors Hayes, Ravaux-Kirkpatrick, Terry
Associate Professors Bonfiglio, Bradley-Cromey, Feldman, Ferranti, Howell, Kasongo, Perry, Troncale
Assistant Professors Bower, Decker, Heredia-Ruiz, O’Donnell, Ruhi
Instructors Booth, Dean
Director of the Chinese Language Program Tan
Director of the Intensive Language Program in French Semones
Director of the Italian Language Program Marcin
Director of the Japanese Language Program Suzuki
Director of the Intensive Language Program in Spanish Peebles
Director of the Multi-Media Language Laboratory Ross

Introductory courses in literature, numbered 321-332, fulfill the Literary Studies field-of-study requirement in the general education curriculum. Note: The grade point average of the coursework comprising the major or the minor must be no less than 2.00 with no course grade below C- (1.7).

The Modern Languages and Literatures Majors (available in French, German, and Spanish)

AND
400-level
Elective
At least 15 of the 30 hours must be taken on the University of Richmond campus in the language of the major. If the student participates in a study abroad program, at least three of these 15 hours must be taken upon return from the program.

Students who demonstrate advanced or superior proficiency in Spanish and who are pursuing a major or a minor in Spanish must complete the requirements for each with courses other than 301, 305, 306, or 402. Spanish 404 must be taken.
The nine (9) hours language requirement for the major and the six (6) hours language requirement for the minor are thus waived; however, the total number of hours required for the major and minor remains the same.

Students who demonstrate advanced or superior proficiency and who wish to take Spanish courses as electives (not pursuing a major or minor) must follow the same criteria.

See International Studies curriculum for the following majors: Latin American Studies, Russian and East European Studies, Modern Europe.

Study Abroad
Study and travel abroad are strongly encouraged for all students. The department offers summer study programs in Berlin, Germany; La Rochelle, France; Salamanca, Spain; San Jose, Costa Rica; St. Petersburg, Russia; Quito, Ecuador; and Japan. In addition, there are exchange agreements for study during the academic year in Argentina, France, Germany, Japan, Mexico, Russia, and Spain; others are being negotiated.

300 level 6 hours
Electives:
400 level 3 hours
300 or 400 level 3 hours

Administration
Placement: A student who desires to continue study of a language begun elsewhere or spoken as a native tongue will be placed for continuation by the Department of Modern Languages and Literatures. The determination of level may be by the score received on the College Board Achievement Test in a given language, by the evaluation of a required placement test, or, in special cases, by interview. Students who meet the foreign language communication skills requirement by placement may not take for credit 100- or 200-level courses in the same language.

Sequential Credit: Once the 100 or 200 level is begun, continuation, if any, must be to the next higher level within the sequence of courses. Students cannot receive credit toward graduation for 100- or 200-level sequential coursework which is taken after credit has been earned in coursework more advanced in the sequence.

Medium of Instruction: All courses taught in the department are taught in the respective language with the exception of the courses listed in the Modern Languages category and designated courses in Russian.

Philosophy (PHIL)

James Hall, Chair
Professors Hall, McWhorter, Shapiro
Associate Professor Schauber
Assistant Professors Goddu, McCormick

The Philosophy Major
Note: No more than one grade below C (2.0) will be counted toward the major.

1. Thirty-three semester hours in the philosophy department, composed of:
   A. Philosophy (PHIL)
      251 Symbolic Logic
      271 Ancient Greek Philosophy
      272 Modern Western Philosophy
      343 Twentieth-Century Continental Philosophy
      344 Twentieth-Century Analytic Philosophy
      351-2 Philosophical Methods: Majors' Minors' Seminar
   B. One 300-level course in value theory and its applications, such as:
      360 Ethics
      364 Philosophy of Law, or another specific course such as may be approved by the department from year to year.
   C. Three electives, at least one of which must be at the 300 level.

2. Fifteen approved semester hours in related fields.

The Philosophy Minor
Note: A grade of not less than C- (1.7) is required in each course comprising the minor.

Fifteen semester hours in the philosophy department, composed of:
   A. Philosophy (PHIL)
      271 Ancient Greek Philosophy
      272 Modern Western Philosophy
   B. Three electives, at least one of which must be at the 300 level.

All 200-level courses are open to first-year students. All 300-level courses presume some previous exposure to philosophy or a related area of study.
Philosophy Courses (PHIL)

220 Contemporary Moral Issues. Philosophical introduction to ethics. Aims to clarify, organize and sharpen our ideas about moral concerns of everyday life, and to examine and critique prominent moral theories. Topics may include abortion, euthanasia, capital punishment, animal rights. 3 sem. hrs.

251 Elementary Symbolic Logic. Introduction to modern logic beginning with truth-functions and covering formal proofs (propositional and predicate) through level of multiply-general and relational statements. No mathematical applications. Recommended for pre-law and pre-computer studies. 3 sem. hrs. (FSSR)

258 Introduction to Feminist Theories. Introductory survey of social, political and philosophical theories espoused, developed, and used by feminist thinkers. 3 sem. hrs.

260 Philosophical Problems in Law and Society. Examination of purpose and justification for legal limits on individual liberty, with special attention to problems of liability and punishment. 3 sem. hrs.

271 Ancient Greek Philosophy. Introduction to ancient Western philosophy, with emphasis on Plato and Aristotle. Discussion of both the development of philosophical thought and topics such as: What is knowledge? Why should I be moral? and What is the good life? 3 sem. hrs. (FSHT)

272 Modern Western Philosophy. Study of development of modern philosophy from Descartes to Kant. Readings from Descartes, Hume, and Kant; some attention may be given to other modern philosophers such as Leibniz, Spinoza, Locke, and Berkeley. Readings drawn from primary texts. 3 sem. hrs. (FSHT)

281 Philosophy of Art. Conceptual problems about art, the artist, and aesthetic judgment. Role of intention, intellect, and inspiration in both creation and craft. Is objective judgment and criticism possible? Prerequisite: One previous philosophy course or, for art history majors, permission of department. (Same as Art 281.) 3 sem. hrs.

289 Science, Pseudo-science, and the Paranormal. Examines such things as Big-Foot, Bridie Murphy, Demon Possession, Astrology, Poltergeists, Telepathy, Crystal Power, Tarot Reading, Space-Alien Abductions, Homeopathy, and similar traditional and New Age “paranormal phenomena.” Its point is to learn and internalize the techniques and characteristics of responsible inquiry. Extensive reading and discussion, in-class presentation (on assigned topic), major paper (on free topic), and final examination. 3 sem. hrs.

298 Power and Politics. Examination and appraisal of classical liberal political philosophies—particularly their treatment of consent, rebellion, and political change—in light of twentieth-century civil rights movements. Theorists studied include John Locke and various American revolutionaries such as James Madison. Movements studied are the Montgomery Bus Boycott of 1955-56, the Birmingham desegregation movement of 1963, and the gay and lesbian movement of the 1990s. Studies will evaluate liberalism both as a descriptive and prescriptive theory. Lecture/discussion format. 3 sem. hrs.

299 Philosophy of Science. General introduction to philosophy of science dealing with structure of scientific theories, nature of scientific activity, and scientific world picture. Note: No prerequisite for junior and senior science majors. 3 sem. hrs.

336 Nineteenth-Century European Philosophy. Examination of movements and individuals; emphasis on Kierkegaard’s and Marx’s response to Hegel. Previous work in philosophy or good background in history and/or literature is presumed. 3 sem. hrs.

337 Social and Political Philosophy. Examination of major theories in social and political philosophy, both historical and current. 3 sem. hrs.

343 Twentieth-Century Analytic Philosophy. Critical examination of twentieth-century topics and thinkers in the Analytic tradition. 3 sem. hrs.

344 Twentieth-Century Continental Philosophy. Critical examination of twentieth-century topics and thinkers in the French and German traditions. 3 sem. hrs.

350 Topics Seminar: Historical. Selected topics in philosophy arranged historically. Recent topics: Kant, Hegel, Critical Theory, Heidegger. May be repeated for credit when topic differs. 3 sem. hrs.

351-352 Philosophical Methods: Majors’/Minors’ Seminar. Reading, writing, critiquing, presenting, and defending philosophical essays. Techniques of analysis and hermeneutics. Preparation of proposal, bibliography and partial draft of a senior project, including extensive presentation and critique of work in progress. Required for majors; open to minors. Ordinarily taken in junior year. Prerequisite: Permission of department. 3-3 sem. hrs.
357 Nietzsche. Devoted to analysis and understanding of some of the main philosophical themes and writings of Friedrich Nietzsche (1844-1900), such as critique of Western morality and religion; affirmation of creativity and life of this world, eternal recurrence of all things, and diagnosis of modern nihilism and suggestions as to how it might be overcome. Close reading of a number of texts by Nietzsche. Lecture/discussion format. 3 sem. hrs.

358 Topics in Feminist Philosophy. Examination of recent and contemporary feminist theory. 3 sem. hrs.

359 Thinking and Seeing: Philosophy and the Visual Arts. Devoted to exploring some questions having to do with the meaning and significance of the visual arts. Among topics of the course are: relation between words and visual images, use of art as a way of learning about ourselves and the world, phenomenology of visual experience, and criteria for interpreting the meaning of art works. Theorists include G.E. Lessing and representative thinkers from such recent tendencies as phenomenology, existentialism, deconstruction, and psychoanalysis. 3 sem. hrs.

360 Ethics. Critical examination of main types of ethical theory. Discussion of current topics and controversies, as well as fundamental questions about the object of morality and the objectivity and justification of moral evaluations. 3 sem. hrs.

362 Philosophy of Religion. Is there such a thing as religious knowledge? Can a rational individual believe in God(s)? Alternative conceptions of use and meaning of theological language (description, ritual, belief formation, moral persuasion). Transcendence. Mysticism and logic. Prerequisite: One previous philosophy course or, for religion majors, permission of department. 3 sem. hrs.

364 Philosophy of Law. Alternative ways of conceiving of law. Such legal concepts as right and strict liability. Such problems as nature of judicial decision-making process, tension between crime control and due process, rationale of legal punishment, insanity defense. Prerequisite: One previous philosophy course. 3 sem. hrs.

365 Action, Responsibility, and Free Will. Examination of a core philosophical puzzle—can responsible action be both free and determined?—in writings of classical and contemporary philosophers. Seminar format, with multiple written and oral critiques, term paper, mid-term and final exams. Prerequisite: One previous philosophy course. 3 sem. hrs.

380 Topics Seminar: Issues. Selected topics in philosophy arranged by issues. Recent topics: The Emotions: Rationality, Ideology and Difference; Action and Free Will. May be repeated for credit when topic differs. 3 sem. hrs.

386 Honors Seminar. Seminar for honors students on topic selected mutually by instructor and those enrolled. Prerequisite: Permission of department. 3 sem. hrs.

390 Independent Study. Faculty member directs student's reading and study. Prerequisite: Permission of department. 1-3 sem. hrs.

395 Honors Thesis. Supervised completion of research thesis begun and approved in Majors' Seminar. 3 sem. hrs.

Physics (PHYS)

Gerard P. Gilfoyle, Chair
Associate Professors Gilfoyle, Rubin, Vineyard
Assistant Professor Fetea

The Physics Major

Note: A grade of not less than C (2.0) is required in each physics course included in the major.

For the Bachelor of Arts degree:
28 semester hours in physics courses approved by the department including:
Physics 101-102 or 131-132
Physics 205, 221, 397-398, 497-498
Mathematics 212
15 semester hours in courses outside of physics approved by the department
This degree is offered primarily for students who wish to prepare for interdisciplinary or medical sciences studies, or to earn a cultural degree.

For the Bachelor of Science degree:
Physics 205, 301, 303, 305, 308, 397
398, 401, 402, 497-498
3 semester hours of experimental work including Physics 221
Chemistry 103-104
Mathematics 245
7 semester hours in courses outside physics approved by the department

The Physics Minor

Seventeen semester hours in physics courses, including at least nine semester hours in courses numbered above 200, excluding 397-398 and 497-498. A grade of not less than C- (1.7) is required in each physics course included in the minor.
Notes
The beginning courses in Physics (101, 102, 121, 123, 125, 131, and 132) offer different approaches to the subject matter depending on the student’s intended major. Any of these courses may be used for partial fulfillment of the natural science fields-of-study requirement for general education.

Physics 121, 123, and 125 are general courses for students whose intended major is in other than the natural and mathematical sciences.

For students intending to major in the natural or mathematical sciences, Physics 131-132 is the recommended option; however, Physics 101-102 is also acceptable for these majors. Students should consult with the department of their intended major for more information concerning this option.

Physics Courses (PHYS)

101-102 General Physics. Basic course without calculus. Mechanics, heat, sound, magnetism, electricity, light, and modern physics. Includes laboratory. Note: Physics 101 not prerequisite to 102. Prerequisites: Algebra and trigonometry. A student may not receive credit for both Physics 101 and 151; nor for Physics 102 and 132. 4-4 sem. hrs. (101 or 102, FSNP)

121 Astrophysics. Celestial motions, stellar structure, cosmology, and related problems including appropriate concepts of elementary physics. For nonscience majors. Includes laboratory. 4 sem. hrs. (FSNP)

123 Waves. Sources and properties of waves in matter and fields and related elements of mechanics, electricity, and optics. For nonscience majors. Includes laboratory. 4 sem. hrs. (FSNP)

125 Elements of Physics. Principles and applications of physics. Topics selected from mechanics, sound, light, electricity, magnetism, heat, and modern physics. For nonscience majors. Includes laboratory. 4 sem. hrs. (FSNP)

131-132 General Physics with Calculus. Calculus-based introductory course. Mechanics, heat, sound, magnetism, electricity, and light. Includes laboratory. Prerequisites: Math 211 (or 111)-212 (may be taken concurrently). Physics 131 is prerequisite to 132 unless permission is granted by the instructor. A student may not receive credit for both Physics 131 and 101, nor for 132 and 102. 4-4 sem. hrs. (131 or 132, FSNP)

205 Introduction to Modern Physics. Quantization of matter and energy, waves vs. particles, atomic spectra, atomic structure, Schrödinger equation. Prerequisite: Physics 152 or permission of department. 3 sem. hrs.

215 Computational Methods in Physics. Project-oriented: applying computers to solution of problems in physical sciences. Prerequisites: Physics 132 and some familiarity with at least one higher-level computer language. 3 sem. hrs.

216-217 Electronics. Basic electronics and instrumentation for science majors. Study of dc and ac circuits, diodes, rectifiers, operational amplifiers, binary logic, Boolean algebra, digital circuits, analog-digital conversion, transducers, and computer interfacing. Includes laboratory. Prerequisites: Physics 101-102 or 132. 4-4 sem. hrs.

221-222 Intermediate Laboratory. Experiments in classical and modern physics emphasizing independent work. Six laboratory hours a week. Prerequisite: Physics 101-102 or 132. 2-2 sem. hrs.

301 Mathematical Methods in Physics. Selected mathematical topics needed for upper-level work in physics. Topics taken from vector calculus, matrices, calculus of variations, orthogonal functions, and complex analysis. Prerequisite: Physics 132 or permission of department. 3 sem. hrs.

303 Mechanics. Mathematical analysis of physical laws pertaining to dynamics of particles and rigid bodies. Introduction to moving coordinate systems and Lagrange’s and Hamilton’s methods. Prerequisite: Physics 301 or permission of department. 3 sem. hrs.

305-306 Electricity and Magnetism. Electrostatic fields and potentials, dielectrics, magnetic fields and potentials. Maxwell’s equations, electromagnetic waves. Prerequisite: Physics 301 or permission of department. Physics 305 is prerequisite to 306. 3-3 sem. hrs.

308 Statistical Mechanics. Statistical methods applied to description of physical systems. Statistical calculation of thermodynamic quantities, laws of thermodynamics, statistical distributions, and classical and quantum statistics of ideal gases. Prerequisite: Physics 301 or permission of department. (Same as Chemistry 308.) 3 sem. hrs.

321 Advanced Laboratory. Application of fundamental experimental techniques to advanced physics problems from mechanics, electromagnetism, and thermal, modern, atomic, nuclear, and particle physics. Three to six laboratory hours a week. Prerequisite: Physics 221 or permission of department. 1-2 sem. hrs.

381-382 Research. Six hours a week of laboratory or independent study. Prerequisite: Permission of department. 2-2 sem. hrs.

**401-402 Quantum Mechanics.** Wave mechanics and quantization, Schroedinger equation for variety of potentials, hydrogen atom in detail, perturbation methods. Prerequisites: Chemistry 310 or Physics 205, 303, and Mathematics 245 or permission of department. Physics 401 is prerequisite to 402. (Same as Chemistry 401-402.) 3-3 sem. hrs.

**404 Theoretical Physics.** Application of mathematics to selected topics in physics. Prerequisite: Physics 301 or permission of department. 3 sem. hrs.

**479 Special Topics.** Topics include Particle and Nuclear Physics, Solid State, Modern Optics, Relativity, Field Theory. Prerequisite: Permission of department. 3 sem. hrs.

**497-498 Senior Seminar.** Required of all senior physics majors. Does not count in hours required for minor. 1-1 sem. hrs.

Associate Professors Caragipo, Kandel, Palazzolo  
Assistant Professors Jones-DeWeever, Wang

**The Political Science Major**

**Note:** The grade point average of the coursework comprising the major, including required courses, must be 2.00 or above with no course grade below C-(1.7).

Thirty semester hours in political science, at least 21 of which must be at the 300 level or above, including:

Political Science 220, 371, 400
Two of the following: 221, 240, 250
One of the following: 311, 312, 315
In addition to the 30 hours in political science,  
Mathematics 119 (prefered), Economics 274, or equivalent is required as a prerequisite for Political Science 371.

The major must include a minimum of 18 semester hours of University of Richmond political science courses. No more than six hours credit toward the major can be given for courses offered by other departments or schools at the University of Richmond.

The department recommends additional coursework in political science and related fields beyond that specified for the major. Study abroad is also encouraged. Students who have an interest in attending law or graduate school should consult with the department chair about undergraduate courses that they should consider taking.

**The Political Science Minor**

**Note:** The grade point average of the coursework comprising the minor, including required courses, must be 2.00 or above with no course grade below C-(1.7).

Eighteen semester hours in political science, at least 12 of which must be at the 300 level or above, including:

Political Science 220, 371 (prerequisite Math 119)  
One of the following: 221, 240, 250

**Political Science Courses (PLSC)**

**220 Introduction to American Government.** Basic roles, structures, and functions of American political institutions and introduction to American political process. 3 sem. hrs.

**221 Introduction to Public Policy.** Contemporary social and economic problems in America, public policies adopted or proposed to deal with them, and ways of analyzing those problems and policies. 3 sem. hrs. (FSSA)

**240 Introduction to Comparative Politics.** Concepts, approaches, classifications, and models useful in comparing political structures and processes. Political systems characteristic of countries with different cultures and levels of economic development. 3 sem. hrs. (FSSA)

**250 Introduction to International Relations.** Framework for analyzing contemporary international system: goals of nation-states and other actors; how such actors attempt to achieve their goals; and some forces which help or hinder attainment of goals. 3 sem. hrs. (FSSA)

**300 Bureaucracy and Public Policy.** Examination of nature of bureaucracy and power of public sector bureaucrats and agencies to shape, create, implement, resolve disputes about, and evaluate public policies. Prerequisite: Political Science 220, 221 or permission of instructor. 3 sem. hrs.

**303 Metropolitan Problems and Politics.** Analysis of and practical involvement with major issues affecting metropolitan governments. Prerequisite: Political Science 220 or permission of instructor. 3 sem. hrs.

**304 Virginia Government and Politics.** Virginia government at state, county, municipal, and special district levels. Emphasis on legislative, executive, and judicial organization; state politics and intergovernmental relations. Prerequisite: Political Science 220 or permission of instructor. 3 sem. hrs.
ARTS AND SCIENCES CURRICULA

307 Public Management. Comparative analysis of management in public and private sectors. Focuses on the managerial position and public administration as a profession. Prerequisite: Political Science 220 or permission of instructor. 3 sem. hrs.

311 Political Theory: Plato to Locke. Enduring basic issues in political theory studied through writings of Western civilization's great philosophers. 3 sem. hrs.

312 Modern Political Theory. Ideas of major political philosophers of late eighteenth, nineteenth, and twentieth centuries, such as Rousseau, Burke, Hegel, Marx, J. S. Mill, and Nietzsche. 3 sem. hrs.

315 American Political Theory. Political thought in America from colonial times to present, emphasizing themes of liberty, individualism, community, and national purpose. 3 sem. hrs.

321 Women and Power in American Politics. Examines women's access to and exercise of power in the U.S., and effects of government power on women's lives. Takes conscious account of differences with respect to race, ethnicity, class, and sexuality. Prerequisite: Political Science 220 or Women's Studies 220 or permission of instructor. 3 sem. hrs.

322 Public Opinion and Public Policy. Examines relationship between public opinion and public policy by identifying democratic values, public preferences, and interactions between elected officials and people they govern. Prerequisite: Political Science 220 or permission of instructor. 3 sem. hrs.

324 The Politics of Social Welfare. Development and adequacy of programs addressing needs of “the deserving poor” in the U.S. Insights into why some programs fail and others succeed. Course is usually offered in conjunction with Virginia Union University. Prerequisite: Political Science 220 or permission of instructor. 3 sem. hrs.

325 Minority Politics. Comparative examination of the history, problems, and political role of minority groups in the U.S. Prerequisite: Political Science 220. 3 sem. hrs.

326 Legislative Process. Organization and functions of American Congress. Prerequisite: Political Science 220 or permission of instructor. 3 sem. hrs.

327 The American Presidency. Political leadership in American political system from perspective of Chief Executive. Particular attention to expansion and use of presidential power. Prerequisite: Political Science 220 or permission of instructor. 3 sem. hrs.

328 American National Government. Research seminar on national policy-making process. For advanced political science students. Prerequisite: Political Science 220 or permission of instructor. 3 sem. hrs.

329 Campaigns and Elections. Analysis of institutions and process of American electoral system and behavior of American electorate. Prerequisite: Political Science 220 or permission of instructor. 3 sem. hrs.

331 Constitutional Law. Role of United States Supreme Court in American politics studied through examination of landmark constitutional decisions pertaining to functional and territorial distribution of governmental powers. Prerequisite: Political Science 220 or permission of instructor. 3 sem. hrs.

332 Civil Rights/Liberteries. Analysis of contemporary legal status and interpretation of constitutional rights and liberties. Emphasis on landmark Supreme Court decisions involving various provisions of the Bill of Rights and the Fourteenth Amendment. Prerequisite: Political Science 220 or permission of instructor. 3 sem. hrs.

336 American Constitutional History. Background, adoption, and development of the Constitution, with emphasis on role of Supreme Court and judicial review in American history and on changing interpretations of key provisions in the Constitution. 3 sem. hrs.

337 Politics and the Legal System. Analysis of structure, processes, and personnel of American legal system. Emphasis on decision making of private parties, judges, juries and attorneys in context of civil litigation and criminal prosecution. Prerequisite: Political Science 220 or permission of instructor. 3 sem. hrs.

341 Great Britain, France, and Germany. Geographical and historical settings, political cultures, political parties and elections, executives, legislatures, bureaucracies, and legal systems in three major Western European countries. Comparisons of public policies and responses to challenges of welfare state. Prerequisites: Political Science 220 and 240 or permission of instructor. 3 sem. hrs.

342 Russia and the Newly Independent States. Recent developments in the former Soviet Union. Ethnic, cultural, religious, and economic diversity; political institutions, parties, and elections; and current leaders. Prerequisite: Political Science 240 or permission of instructor. 3 sem. hrs.

343 Politics of Asia. Study of historical, cultural, and social forces shaping contemporary politics of Asia. Comparative survey of major political systems and critical examination of key issues. Attempts to link Asian Studies with mainstream political science. 3 sem. hrs.
344 Europe Today. Political, social, ethnic, and economic developments in Western Europe since WWII. Formation of European institutions such as European Union, Council of Europe, and NATO. Cooperation and conflict among European states, parties, and interest groups. 3 sem. hrs.

345 Politics of China, Hong Kong, and Taiwan. Study of contemporary political history of China; analysis of political systems of the People’s Republic of China, the Hong Kong Special Administrative Region, and the Republic of China on Taiwan; and discussion of key political, economic, and military issues. 3 sem. hrs.

346 Politics of Cultural Pluralism. Comparative examination of politicization of race, ethnicity, religion, and caste in contemporary world. Prerequisite: Political Science 220, 240, 250, or International Studies 201 or permission of instructor. 3 sem. hrs.

347 Politics of Developing Nations. Comparative analysis of political, social, and economic development or modernization of nations in Africa, Asia, and Latin America. Topics include influence of ideology, revolution and reform, national integration, neo-imperialism and dependency, and economic growth and equality. Prerequisite: Political Science 240 or 250 or permission of instructor. 3 sem. hrs.

348 Politics of Africa. Comparative study of state formation, nation-building, political economy, social structure/movements, selected regions and countries in Africa. Prerequisite: Political Science 240 or 250 or permission of instructor. 3 sem. hrs.

349 Politics of Latin America and the Caribbean. Influence of historical, social, and cultural forces on contemporary politics of Latin America and the Caribbean. Effects of social structure and underdevelopment on processes of democratization, institution building, national integration, and economic development. Case studies of selected countries illustrate major themes and issues explored. Prerequisite: Political Science 240 or 250 or permission of instructor. 3 sem. hrs.

350 American Foreign Policy. Sources, substance, and purposes of U.S. foreign and defense policy. Prerequisite: Political Science 220 or 250 or permission of instructor. 3 sem. hrs.

352 International Law and Organization. Development, processes, and functions of contemporary international law and organization. Emphasis on conflict management, promotion of economic and social welfare, and development of community. Prerequisite: Political Science 250 or permission of instructor. 3 sem. hrs.

353 International Development Policy. Assistance policies of wealthy nations and multilateral organizations, development policies and problems of poor or underdeveloped nations, and dynamics of economic, political, environmental, and cultural transactions. Prerequisite: Political Science 250 or permission of instructor. 3 sem. hrs.

354 International Political Economy. Politics, processes, and institutions underlying contemporary global economic interdependence, with special focus on international trade, finance, and assistance; alternative theoretical models for understanding these events, processes, and institutions. Prerequisite: Political Science 250 or permission of instructor. 3 sem. hrs.

355 The United States and the Pacific Rim. Study of changing U.S. role in the Asia-Pacific region, U.S. relations with the major powers in the region, and salient regional and bilateral political, security, and economic issues. 3 sem. hrs.

371 Introduction to Political Research and Analysis. Approaches, orientations, theories, scope, and methods used in study of politics, exemplified primarily through practical exercises and readings. Prerequisites: Political Science 220 and Mathematics 119 or Economics 274, or permission of instructor. 3 sem. hrs.

372 Applied Research. Application of advanced research techniques in such areas as public opinion, voting, and policy evaluation. Prerequisite: Political Science 371 or permission of instructor. 3 sem. hrs.

379 Selected Topics. Examples include Comparative Public Policy, Deficits and Public Interest, Political Terrorism, and Leadership and Women’s Movements. 1-3 sem. hrs.

388 Individual Internship. Prerequisites: Permission of department chair. 1-6 sem. hrs.

390 Independent Study. Prerequisite: Permission of department chair. 1-3 sem. hrs.

393 Seminar. Selected topics of special interest to advanced students. 3 sem. hrs.

395 Legislative Internship. Combines weekly seminar on the state legislative process with work as assistant to a state legislator, government agency, interest group, or press during session of the Virginia General Assembly. Prerequisites: Political Science 220 and permission of instructor. 6 sem. hrs.

400 Senior Seminar. Reading and research focusing on important topics in political science. Both topics and instructors change from semester to semester. Prerequisites: Senior status and completion of 21 hours in political science. 3 sem. hrs.

The Psychology Major
The Department of Psychology offers a rigorous, hierarchically organized curriculum which combines the highest expectations of achievement with a nurturing environment rich in opportunities for personal engagement and intellectual stimulation. Our central mission is to provide an academic setting for students to become skilled, adaptable, and highly capable of working collaboratively; to excel in the best graduate and professional schools or in the most competitive entry-level employment opportunities; and to lead productive lives characterized by a lifetime of learning, leadership, and service. We seek to offer our students a distinctive experience of engagement—a love of learning and involvement with the community—which is brought together by a unique interaction among the quality of our student experience and the dedication of our faculty to excellence in teaching and scholarship.

Our faculty share in the vision that education is as much of an activity as it is a body of knowledge. As professional educators, we embrace pedagogical strategies that place special emphasis on the scientific process, on intellectual challenge and complexity, on engagement in primary source readings, on interactive and collaborative learning, on critical and analytical thinking, on making full use of current technologies, on professional ethics, on effective oral and written expression, on recognizing multicultural perspectives, on appreciating psychology’s unique position within the liberal arts, on involvement in the intellectual and cultural community, and on respect for individual differences. These emphases of our curriculum reflect our goals and aspirations as educators; they represent directions for both stimulating and challenging the intellectual curiosity of our students; moreover, they pervade all levels of our undergraduate curriculum, from our introductory course to our most advanced courses.

For the Bachelor of Arts degree:
35 semester hours in psychology including:
Psychology 100 or 101
Psychology 200
One course in the 250-299 series
One Methods & Analyses course and corequisite in the 310-328 series
One Methods & Analyses course and corequisite in the 330-348 series
One course in the 433-449 series

For the Bachelor of Science degree:
35 semester hours in psychology, including:
Psychology 100 or 101
Psychology 200
One course in the 250-299 series
One Methods & Analyses course and corequisite in the 310-328 series
One Methods & Analyses course and corequisite in the 330-348 series
Two courses in the 433-449 series
17 semester hours in related areas, consisting of:
Math 211-212
Either Mathematics 235, 240, 245, or Computer Science 150
Either Biology 211 and 212, Chemistry 103-104, Physics 101-102, or Physics 131-132

And for all degrees:
No more than four semester hours selected from courses numbered 250-299 may be applied to the 35 semester hours required in psychology.
No more than three semester hours of internship or six semester hours of Psychology 361 may be applied to the major.

Interdisciplinary Concentration in Neuroscience for Biology and Psychology Majors
See page 149.

The Senior Capstone Experience
The Psychology Department’s Senior Capstone Experience is intended to provide psychology majors with an intensive and integrative experience in psychology to culminate their undergraduate careers.
Students pursuing either the Bachelor of Arts or the Bachelor of Science degree must choose one of three Senior Capstone options:

Option 1: Advanced Seminar. One course in the Psychology 433-449 series to be taken during the fall or spring semester of the student’s senior year.

Option 2: Senior Research and Advanced Seminar. One course in the Psychology 433-449 series to be taken during the fall or spring semester of the student’s senior year, and collaboration with a faculty member on a year-long senior research project.

Option 3: Senior Honors Research and Two Advanced Seminars. One course in the Psychology 433-449 series to be taken during the fall semester of the student’s senior year, a second course from this series to be taken during spring of the senior year, and collaboration with a faculty member on a year-long senior honors research project.

The Psychology Minor

Twenty-four semester hours in Psychology including:

- Psychology 100 or 101
- Psychology 200

One course in the 250-299 series

One Methods & Analyses course and corequisite in the 310-328 series

One Methods & Analyses course and corequisite in the 330-348 series

Study Abroad

Psychology majors are encouraged to take advantage of study abroad. The key to successful integration of a study abroad experience with a psychology major is early and careful planning with the student’s advisor and department chair. In most cases students will want to have their final three semesters on campus. Therefore, if a student anticipates participating in a study abroad program, the best times to be away are the sophomore year, the first semester of the junior year, or during a summer.

Psychology Courses (PSYC)

100 Introduction to Psychological Science. Scientific exploration of human behavior, with emphasis on scientific and technological skills involved in process of conducting psychological research. Three lecture and two laboratory hours a week. (Students who have completed Psychology 101 may not enroll in Psychology 100). 4 sem. hrs. (FSSA)

101 Introduction to Psychological Science. Intensive examination of psychology as a natural science. Emphasis on promoting application of scientific method toward understanding psychological phenomena. Three lecture and two laboratory hours a week. 4 sem. hrs. (Students who have completed Psychology 100 may not enroll in Psychology 101.)

Prerequisite to all of the following psychology courses: Psychology 100 or 101.

200 Methods and Analyses. Introduction to research methods and statistical procedures in psychological science. Emphasis on mastering fundamental scientific and technological skills associated with literature review, research design, experimental manipulation, data collection, data analysis, data graphics, data interpretation, and scientific writing. Five lecture and two laboratory hours a week. 4 sem. hrs.

Note: To be eligible for enrollment in 300-level and 400-level psychology courses, students must pass Psychology 200 with a grade of C- (1.7) or better.

Overview of Course Series 230-249 (PSYC)

Designed primarily for non-majors, these courses may not be taken for credit toward the major or minor.

249 Special Topics. Special course offerings to explore specific directions within subdiscipline of psychology. Prerequisite: State when course is offered. 3 sem. hrs.

Overview of Course Series 250-299 (PSYC)

These courses represent the second curricular level within the major and minor. Emphasis is on the integration of theory and research across two or more disciplines or sub-disciplines. Psychological theories, issues, and research.

299 Integrated Topics. Special course offerings that provide an integrative perspective of psychological theories, issues, and research across two or more disciplinary (or subdisciplinary) contexts. Prerequisite: Psychology 100 or 101. 3 sem. hrs.

Overview of Course 300 (PSYC)

Recommended for majors who are planning to attend graduate school in psychology. Psychology 399 may be substituted for Psychology 300.

300 History and Systems of Psychology. History of psychology and of major schools of thought and their viewpoints. Prerequisites: Psychology 250-299 series requirements. 3 sem. hrs.
Overview of Course Series 311-348 (PSYC)

The odd-numbered courses focus on the critical analysis of theory and research within a subdisciplinary area of psychology. Students may enroll in an odd-numbered course without enrolling in its companion (even-numbered) methods and analyses course.

The even-numbered courses are laboratory-based offerings that focus on the application of specific methodologies and statistical analyses associated with a subdisciplinary area of psychology. Students may not enroll in an even-numbered course without also enrolling in its companion (odd-numbered) theory-based course.

311 Child Development. Critical examination of research and theory on developmental changes and processes from prenatal through preadolescent periods. Emphasis on theoretical and empirical work on historical foundations, behavior genetics, attachment, development of perception, cognition, language, and social contexts and relationships. 3 sem. hrs.

312 Child Development: Methods and Analyses. Intensive laboratory experience focusing on conceptual, methodological, and analytical skills employed in investigation of child development. Corequisite: Psychology 311. 3 sem. hrs.

313 Social Psychology. Critical overview of current theory and research in social psychology, with emphasis on conceptual and empirical work on social cognition, social influence, affective processes, attraction, altruism, aggression, and group dynamics. 3 sem. hrs.

314 Social Psychology: Methods and Analyses. Intensive laboratory experience focusing on methodological, computing, and statistical skills indigenous to experimental social psychology. Corequisite: Psychology 313. 3 sem. hrs.

315 Adult Development. Critical examination of research, theory, and methods of cognitive processes associated with adulthood and aging, including thinking, learning, intelligence, memory, problem solving, creativity, and wisdom. 3 sem. hrs.

316 Adult Development: Methods and Analyses. Intensive coverage of experimental and statistical methods used to study cognitive processes in adulthood. Extensive use of computers to design and analyze research pertinent to cognitive aging. Corequisite: Psychology 315. 3 sem. hrs.

318 Psychopathology: Methods and Analyses. Intensive laboratory experience focused on conceptual, methodological, and analytical skills used in clinical psychology and investigation of psychopathology and behavior disorders. 3 sem. hrs.

327 Behavioral and Social Bases: Theory and Research. Critical overview of theory and research in a behavioral or social subdiscipline of psychology. 3 sem. hrs.

328 Behavioral and Social Bases: Methods and Analyses. Methodology and analytic procedures used in psychological research with in-depth application to a behavioral or social subdiscipline of psychology. Corequisite: Psychology 317. 3 sem. hrs.

331 Behavioral Neuroscience. Biological and physiological processes involved in central and peripheral regulation of animal and human behavior. 3 sem. hrs.

332 Behavioral Neuroscience: Methods and Analyses. Intensive experience with techniques and approaches used in design, execution, and analysis of research in behavioral neuroscience. Corequisite: Psychology 331. 3 sem. hrs.

333 Cognitive Science. Critical examination of interdisciplinary studies of knowledge representation, information processing, and learning with theories and methods drawn from psychology, computer science, linguistics, philosophy, and neuroscience. 3 sem. hrs.

334 Cognitive Science: Methods and Analyses. Intensive experience with techniques used in computer simulation, experimental program design, and data processing and analysis in interdisciplinary study of cognition. Corequisite: Psychology 332. 3 sem. hrs.

335 Learning and Memory. Topics include classical conditioning, instrumental learning, principles of reinforcement, punishment and avoidance condition, stimulus generalization and discrimination, retention and forgetting, nature and functioning of memory, and learning and performance of motor skills. 3 sem. hrs.

336 Learning and Memory: Methods and Analyses. Intensive experience with implementing methodology and analytic approaches used in study of learning and memory. Corequisite: Psychology 335. 3 sem. hrs.

347 Biological and Cognitive Bases: Theory and Research. Critical overview of theory and research in a biological or cognitive subdiscipline of psychology. 3 sem. hrs.
348 Biological and Cognitive Bases: Methods and Analyses. Methodology and analytic procedures used in psychological research with in-depth application to a biological or cognitive subdiscipline of psychology. Corequisite: Psychology 327. 3 sem. hrs.

Overview of Course Series 350-359 (PSYC)
Special opportunities for exploration of topics in depth after introduction to a subarea of psychology.
359 Special Topics. Special course offerings to explore specific direction within subdisciplinary area of psychology. Prerequisite: Stated when course is offered. 3 sem. hrs.

Overview of Course Series 361-399 (PSYC)
These courses provide intensive study with opportunity for individualized direction.
361 Independent Research. Individual research conducted in collaboration with faculty. Note: No more than six semester hours may count toward a psychology major. Prerequisite: Permission of supervising instructor. 1-3 sem. hrs.
388 Individual Internship. Supervised independent work in field situation designed to give student applied experience after completion of appropriate coursework in subarea of psychology. Prerequisite: Course from the Psychology series 250-299 appropriate to the internship setting. 1-3 sem. hrs.
399 Junior Thesis. Critical overview of major developments in history and philosophy of science, with specific focus on philosophy, history, and current status of psychological science. Emphasis placed on developing individual research proposals for senior honors research. Prerequisites: Minimum overall grade point average of 3.30 and permission of instructor. 4 sem. hrs.

Overview of Course Series 433-499 (PSYC)
Prerequisites: Completion of all 200-level requirements. Completion of a Methods and Analyses course in the Psychology 311-329 series is strongly recommended but not required.
433 Multivariate Statistics. Multiple variable research design and applied multivariate analyses, including multiple regression, factor analysis, and multivariate analysis of variance. 4 sem. hrs.
434 Tests and Measurements. Application of measurement theory to development and evaluation of educational and psychological tests. 4 sem. hrs.
435 Advanced Personality and Social Psychology. Critical examination of theory and research associated with interface between personality and social psychology. 4 sem. hrs.
436 Developmental Psychopathology. Intensive analysis of description, etiology, and development of individual patterns of behavioral maladaptation in childhood and adolescence with critical evaluation of child and family treatment approaches. 4 sem. hrs.
438 Group Processes. In-depth analysis of psychology of group formation, group conflict, group decision-making, and intergroup relations. Emphasis on critical analysis of current theory and research on collective phenomena. 4 sem. hrs.
439 Psychoneuroendocrinology. Important modulatory roles the brain and hormones play in display and control of various social behaviors and physiological phenomena in humans and other animals. 4 sem. hrs.
440 Advanced Neuroscience. Advanced interdisciplinary examination of field of neuroscience, including biochemistry of the neuron, biology of the brain, and creation of psychology out of nervous tissue. 4 sem. hrs.
441 Clinical Neuroscience. Examination of ways in which brain function is modified to create symptomatology and syndromes that comprise clinical topics in psychology. The contrast between psychological and biological bases of disorder is considered. 4 sem. hrs.
442 The Neurobiology of Relationships. Examination of complex array of behaviors that animals display toward each other from the perspective of evolutionary pressures that shaped extant neurobiology. Focus on inextricable link between human and animal origins. 4 sem. hrs.
449 Advanced Seminar. Special intensive seminar offerings based on student demand and faculty availability. 4 sem. hrs.
461-462 Senior Research. Senior research project completed in collaboration with faculty mentor. 3-3 sem. hrs.
491-492 Senior Honors. Advanced research opportunity for selected students requiring completion and presentation of senior thesis. Prerequisite: Departmental invitation. 3-3 sem. hrs.
ARTS AND SCIENCES CURRICULA

Religion (RELG)

Frank E. Eakin, Jr., Chair
Professor Eakin
Associate Professors Bergren, Davis, Shaw
Assistant Professor Geaney, Winiarski

Note: The grade point average of the coursework comprising the major or the minor must be no less than 2.00 with no course grade below C- (1.7).

The Religion Major
Thirty semester hours in religion, including six hours in Biblical Studies, (three hours each from 230s/330s and 240s/340s), three hours in Historical Studies (250s/350s), three hours in a study significantly oriented toward a non-western religion (250, 251, 252, 253, 352, 353, 354, 355, 360, or 366), three hours in Ethical-Theological Studies (260s/360s), Major Seminar (Religion 398), plus 18 semester hours in related fields as approved by the Department. (A course used to satisfy the non-western requirement may not be used to satisfy any other requirement for the major). It is recommended that the religion major take at least three 300-level courses. Each student will develop the major program in consultation with the departmental chair.

The department encourages dual majors of religion with other disciplines in the humanities and social sciences, and special consideration will be given to students completing majors in two disciplines. Certain closely related courses in other departments may be included within the required 30 semester hours of religion, with departmental approval in each case.

- Electives in Theatre or Dance (three hours must be at 300 level) 6 hours

Limitations
Theatre 315 (Independent Study), 330-341 (Practica) and 388 (Internship) cannot be counted in the minor.

Honors Program
Students electing to fulfill requirements for the honors program in the Department of Theatre and Dance must designate six hours of honors credit in upper level classes. This will require the student to do additional work over and above the normal requirements of the course. In addition, the student must take Theatre 380, Honors Thesis Preparation, and Theatre 381, Honors Performance/Thesis. The student must have attained a departmental GPA of 3.50 by the beginning of the fall semester of the senior year. The student must maintain that GPA, along with an overall GPA of no less than 3.0, through the completion of the program. Students who have not declared that they are seeking honors will be considered candidates until they fail to meet one of the program requirements.

Theatre Courses (THTR)
115 Theatre Appreciation. Theatre as collaborative art from perspective of audience member as critic. Observation and evaluation of theatre work in progress and performance with accent on field study and interaction with theatre professionals. Lab component: 8 hours, to be arranged. 3 sem. hrs. (FSVP)

119 Broadway Musical Theatre. Survey of the Broadway Musical Theatre from 1920s to present day. Provides basic background in music theory and culminates with performance of a musical written and produced by class members. In addition to regular class meetings, weekly labs are held for rehearsals and presentation of special topics. (See Music 119.) 3 sem. hrs.

201 Production I: Stagecraft. Technical aspects of scenery; theory and practical applications. Laboratory hours required. 3 sem. hrs. (FSVP)

202 Production II: Stage Lighting. Mechanics and artistic aspects of stage lighting in theory and in practice; designing and executing light plots. Laboratory hours required. 3 sem. hrs.

204 Production Management. Principles of stage management, equipment operation (sound and light), and property supervision. Practical application stressing efficient production. Laboratory hours required. 3 sem. hrs.

206 Introduction to Costume. Introduction to role of costume designer as collaborative artist in theatre process. Survey of historical implications for design. Basic skills of costume construction. Laboratory assignments with mainstage productions. 3 sem. hrs. (FSVP)

212 Basics of Acting. Basic methods of analysis and performance techniques necessary to generate believable human behavior on stage. Study of roots (mind/body processes), not ends of acting (performance). Class exercises to develop and discipline actor's physical, vocal, and imaginative equipment. Laboratory assignments with major productions. 3 sem. hrs. (FSVP)

213 Fundamentals of Stage Makeup. Art and application of theatrical makeup, realism to fantasy. Corrective makeup; specialty makeup (aging, scars, beards, animal faces). Laboratory assignments in conjunction with all major productions. 3 sem. hrs.

220 Readings in Classical Theatre. Examination of classical plays as basis for production and performance. All plays in English. Prerequisite: Majors and minors only. 1 sem. br.
### 301 Scene Design
Artistic aspects of stage setting in theory and in practice. Consideration of mechanical perspective, watercolor sketching, color schemes, and history of period design. Laboratory hours required. **Prerequisite:** Theatre 201 or permission of instructor. 3 sem. hrs. (FSVP)

### 302 Scene Painting
Study of function of scenic artist in theory and practice. Hands-on approach to scene painting. **Prerequisite:** Theatre 201 or permission of instructor. 3 sem. hrs. (FSVP)

### 308 Basics of Directing
Principles and techniques of directing the realistic modern play. Case studies and scene work. One-act play prepared for production by each student. Laboratory assignments with major productions. **Prerequisite:** Theatre 212 or 325 (or permission of instructor). 3 sem. hrs.

### 309 Theatre History
Survey of theatre history, primitive through modern. Accent on theatre practices established long ago but still present. Great plays (via performances on tape and film); performance sites, players, and theatre practitioners (slides and film strips). 3 sem. hrs.

### 310 Managing Performing Arts Organizations
(See Music 310.) **Prerequisite:** Theatre Major or Dance Minor. 3 sem. hrs.

### 312 Special Topics
Representative topics: Acting for the Camera, Advanced Costume, Advanced Directing, Advanced Makeup, Critical Theory, History of Apparel, Improvisation, Performance Theory, Stage Combat. **Prerequisite:** Permission of instructor. 3 sem. hrs.

### 315 Independent Study
**Prerequisite:** Permission of instructor. 1-3 sem. hrs. Restriction: Prospectus must be submitted and approved prior to the end of advance registration. Does not count for Theatre or Dance minor.

### 320 Advanced Acting: Twentieth-Century Acting Styles and Theory
Concentrated scene study class that explores relationship between twentieth-century dramatic literature and acting techniques and theories that developed to meet demands of these plays. By preparing scenes from various modern genres of theatre, acting students examine techniques and research methods necessary to unlock performance elements of the most demanding dramas of the last 100 years. **Prerequisite:** Theatre 212 or permission of instructor. 3 sem. hrs.

### 325 Script Analysis
Systematic approach to understanding and realizing the theatrical implications of playscripts. Script study as if in preparation for mounting production. Laboratory hours required. 3 sem. hrs. (FSLT)

### 327 Acting Shakespeare I
Introduction to methods of textual analysis and literary research necessary to prepare a Shakespearean play for performance. **Prerequisite:** Theatre 212 or permission of instructor. 3 sem. hrs.

### 328 Acting Shakespeare II
Introduction to emotional, physical, and vocal techniques necessary for performing a Shakespearean play. Builds on work of Theatre 327 in providing students with analytical means and research methods necessary to make informed artistic decisions. **Prerequisite:** Theatre 327. 3 sem. hrs.

### 380 Honors Thesis Preparation
Research and preparation for honors thesis or project in Theatre or Dance. **Prerequisite:** Acceptance in the Department Honors Program. 3 sem. hrs.

### 381 Honors Performance/Thesis
Research and writing honors thesis or realization (including rehearsals and all drawings) of a creative honors project in Theatre or Dance. **Prerequisite:** Acceptance in the Department Honors Program. 3 sem. hrs.

Understanding theatre arts through analysis of and participation in creative theatrical efforts. Fifty hours work for one hour of practicum credit. Includes research and written work appropriate to the theatrical activity involved. Twelve hours maximum credit; six hours maximum per semester. **Prerequisite:** Permission of department. **Restriction:** Does not count for Theatre or Dance major or minor.
**388 Individual Internship.** Practical application of theatre and dance principles and skills in supervised, out-of-class environment. Graded pass/fail only. Prerequisites: Majors and minors only; faculty approval before beginning work. 1-3 sem. hrs. Restriction: Does not count for theatre major or minor or dance minor.

**The Urban Practice and Policy Minor**

**Note:** The grade point average of the coursework comprising the minor must be no less than 2.00 with no course grade below C- (1.7).

The major consists of 18 semester hours of academic work, three of which must be from:

- URPP 209 The Built Environment, 3
- The remaining 15 hours in the minor should be taken from the following courses. One course is required from each of three of the four divisions outlined below. The remaining six hours are to be selected from among the courses below according to the individual minor’s interests or course availability. An internship may be substituted for one of the two elective courses (see below). Other courses not listed below proposed by the individual minor and approved by the coordinator as appropriate may be counted toward the elective portion of the minor.

**Urban Practice and Policy Courses (URPP)**

- **209 The Built Environment.** Survey of history of the city from ancient times to present. Emphasizes reciprocally the natural and artificial resources necessary for an urban environment; studies urban fabric from point of view of diversity of human and architectural components; examines policies which regulate the urban ecosystem. Guest presentations by selected members of University of Richmond faculty, staff of the City of Richmond, and representatives of selected Richmond civic and cultural organizations augment the course. (Same as Classics 209.) 3 sem. hrs.
- **388 Individual Internship.** Supervised work experience in the urban environment. 3 sem. hrs.
- **498 Major Seminar.** Directed by faculty member approved by the Urban Practice and Policy coordinator. Culminates in carefully researched and written paper which synthesizes the major experience. Choice of subject partially dictated by curriculum choices. Students work cooperatively in defining appropriate research techniques and in sharing and critiquing elements of paper at each state of development. 3 sem. hrs.
- **499 Independent Study.** May be taken in lieu of Urban Practice and Policy 498 with the approval of coordinator. 3 sem. hrs.

See the departmental listings for descriptions of the following courses offered for Urban Practice and Policy credit.

**Wellness Program (WELL)**

_Carol Johnson, Director_

The Wellness Program (URWell) is a Student Affairs Campus Recreation Program. It is responsible for the URAWARE Plus2 (wellness requirement) for all students for bachelor’s degrees (except the University Scholar’s Program). It is a three-part requirement that includes 1) an alcohol education session, 2) a wellness topic of choice, and 3) a wellness topic of choice. Each part is graded with an S or U (Satisfactory/Unsatisfactory).

**Note:** Students completing the previous HSS 150 course will not have to complete the new wellness requirement. All students who entered after May 1996 and have not completed the previous HSS 150 course must complete the new wellness requirement for graduation.

**Wellness Courses (WELL)**

**085 URAWARE: Alcohol Awareness Program.** An alcohol prevention/education program designed to assist students in making positive decisions regarding alcohol issues. Students must satisfactorily complete this component of the wellness requirement their first semester on campus. Each session is a four-hour special date offering that includes activities, discussion, and personal assessment. Students are required to purchase a study guide from the bookstore prior to their session. _0 sem. hr. (WEL1)_

(Beginning Summer 2000, the wellness requirement carries no credit, but to cover cost of instruction is billed at tuition rate equivalent to 1 hour of credit.)

**090 PLUS2: Wellness Topics.** The wellness topic component of the wellness requirement. Students will be offered a choice of health and wellness topics every semester. Sample topics include nutrition, sexual health, complementary medicine, and fitness. Students are required to satisfactorily complete two topics for graduation. Topic sessions run for six weeks, 90 minutes each week. Students are encouraged to complete this component of the wellness requirement before or during their junior year. _0 sem. hr. (WEL2)_

(Beginning Summer 2000, the wellness topics carry no credit, but to cover cost of instruction are billed at tuition rate equivalent to .5 hours of credit for each.)
Women’s Studies (WMST)

Jennifer Nourse, Coordinator (Sociology)

Note: The grade point average of the coursework comprising the major or the minor must be no less than 2.00 with no course grade below C (2.0).

The Women’s Studies Major

Thirty semester hours, including Women’s Studies/Sociology 220 (Introduction to Women’s Studies: the Sociology of Women), Women’s Studies 221 (Introduction to Feminist Theories), and 24 additional hours to be distributed as follows:

- 3 hours from cross-listed courses in the humanities/arts (e.g., Art, Classical Studies, English, History, Modern Foreign Languages & Literatures, Music, Philosophy, Religion)
- 3 hours from cross-listed courses in social sciences (e.g., Anthropology, Economics, Political Science, Psychology, Sociology)
- 3 hours from cross-listed courses in the natural sciences or health and sport science (e.g., Biology, Chemistry, Health and Sport Science, Physics)
- 3 hours from cross-listed courses focusing on international, non-American, contexts (e.g., Anthropology, Modern Languages, History, Religion)
- 12 hours of additional cross-listed courses (electives)

In addition, 17 or more of the above hours must be taken above the 200-level, and no more than six hours of internship credit may be counted toward the major.

The Women’s Studies Minor

Eighteen semester hours, including Women’s Studies/Sociology 220 (Introduction to Women’s Studies: the Sociology of Women), Women’s Studies 221 (Introduction to Feminist Theories), and 12 additional hours, from at least three departments, including no more than three hours of internship credit.

Women’s Studies Courses (WMST)

201 Will Colloquium. Introductory course for the WILL program. Prerequisite: WILL Program participant. 1 sem. hr.

220 Introduction to Women’s Studies: The Sociology of Women. Examines personal and social development of women in American society. Conditions and events that shape women’s lives and consciousness: gender socialization, education, work, marriage, motherhood, sexuality, violence against women, new opportunities for growth and change. Includes women’s similarities and diversities across race, social class, and age. (Same as Sociology 220.) 3 sem. hrs. (FSSA)

221 Introduction to Feminist Theories. Overview of historical and contemporary feminist thought. Looks at theories central to the development of a variety of theoretical positions, including but not limited to liberal feminism, cultural feminism, Freudian feminism, materialist feminism, existentialist feminism, radical feminism, French feminism, and multicultural feminism. Also incorporates appraisals and critiques of these positions from within feminist thought. 3 sem. hrs.

301 WILL Senior Seminar: Capstone Course for the WILL program. Prerequisite: WILL Program participant. 2 sem. hrs.

302 Women and the Law. Traditional and contemporary relationship of women to the law. Includes study of legal history and of factors bearing on women’s legal status. 3 sem. hrs.

303 Women in Television: Representations, Images, and Stereotypes. Examination of female roles in television drama, comedy, and advertising. Content analysis of selected programs and ads reflecting television history to reveal patterns of representation of women against a background of social attitudes and political actions. 3 sem. hrs.

379 Selected Topics. Varying issues of current relevance and importance to Women’s Studies. May be repeated for credit if topics differ. 1-3 sem. hrs.

388 Individual Internship. Prerequisite: Permission of department. 3-6 sem. hrs.

398 Independent Study. Pass/fail grading may be designated by department for certain enrollments. Prerequisite: Permission of department. 1-3 sem. hrs.

See the departmental listings for descriptions of the following courses offered for Women’s Studies credit. Courses marked with an asterisk (*) may or may not carry Women’s Studies credit in any given semester. Check with the instructor and the Women’s Studies Coordinator before enrolling in any course on this list. A comprehensive listing of courses is published each semester and should be taken as the final arbiter for Women’s Studies credit.

**Interdisciplinary Concentrations Within Disciplinary Majors**

Interdisciplinary Concentration in Arts Technology for Studio Art, Music, and Theatre Majors
The Interdisciplinary Concentration in Arts Technology, approachable by Studio Art, Music and Theatre Majors, provides curricular links for students interested in further performance and academic experiences in the area of arts technology. Students take courses from the department in which they have declared their major, plus a combination of three courses from the non-major departments. In addition, students are required to complete a Senior Paper or Senior Project to be taken as an Independent Study in their major department. Each participating department designates at least one faculty member to coordinate the curriculum with individual students.

**Designated Courses for Theatre Majors**
In addition to requirements for the Major, you must take one of the following courses:

THTR 202 Lighting Design, 3 OR
THTR 204 Production Management, 3

You must choose three of the following from the Department of Art and Art History or the Department of Music:

ARTS 122 Design I, 3
ARTS 222 Design II, 3
ARTS 223 Digital Artmaking, 3
ARTS 322 Design III, 3
MUS 109 Elementary Musicianship, 3
MUS 213 Computer Music, 3
MUS 313 Advanced Computer Music, 3

Except for ARTS 222 and ARTS 322, normal prerequisites may be modified or waived by consent of instructor.
Designated Courses for Studio Art Majors

In addition to requirements for the Major, you must complete one of the following courses:
ARTS 222 Design II, 3 OR
ARTS 223 Digital Artmaking, 3

You must choose three of the following from the Department of Music or the Department of Theatre and Dance:
MUS 109 Elementary Musicianship, 3
MUS 213 Computer Music, 3
MUS 313 Advanced Computer Music, 3
THTR 202 Lighting Design, 3
THTR 204 Production Management, 3

Except for ARTS 222 and ARTS 322, normal prerequisites may be modified or waived by consent of instructor.

Designated Courses for Music Majors

In addition to requirements for the Major, you must complete the following:

Required courses:
MUS 213 Computer Music, 3
MUS 313 Advanced Computer Music, 3

You must choose three of the following from the Department of Art and Art History or the Department of Theatre and Dance:
THTR 202 Lighting Design, 3
THTR 204 Production Management, 3
ARTS 122 Design I, 3
ARTS 222 Design II, 3
ARTS 223 Digital Artmaking, 3
ARTS 322 Design III, 3

Except for ARTS 222 and ARTS 322, normal prerequisites may be modified or waived by consent of instructor.

Additional Recommended Courses:
CMSC 221-222 Fundamentals of Computing I-II, 3-3
CMSC 301-302 Computer Systems and Architecture I-II, 3-3
CMSC 335 Computer Graphics, 3
MATH 245 Linear Algebra, 3
PHYS 101-102 General Physics, 4-4, OR
PHYS 131-132 General Physics with Calculus, 4-4
PHYS 216-217 Electronics, 4-4

Interdisciplinary Concentration in Biochemistry for Chemistry Majors

Notes: Credit will be given for the concentration in biochemistry or the minor in biology but not both. A grade of not less than C- (1.7) is required in each course applied to the hours needed in the main field of study.

The Interdisciplinary Concentration in Biochemistry was created for those chemistry majors pursuing a Bachelor of Science degree who desire a concentration in biochemistry.

Students are required to complete at least 46 hours including:
Chemistry 103-104 (or 151), 205-206, 300-301 (or 302), 309-310, 326, and 327
Three courses chosen from Biology 213, 214, 301, 307, 314, 325, 336, 338, 339, 340, and 342
Three semester hours of Chemistry 320 including a senior paper on an approved topic
Eight semester hours in Physics
Six semester hours in related fields approved by the department.

Also recommended: Two full years of either biology or physics.

Interdisciplinary Concentration in Comparative Literature for English Majors

The basic assumption behind this concentration is that literary studies can be unduly limited by restricting the context and parameters of scholarly inquiry to the literary works of one particular literary tradition, usually defined in fairly narrow geographical and linguistic terms. Comparative Literature in the broadest sense may be defined as the text-based investigation of themes, issues, and works of art, free from the fetters of artificial geographical, cultural, political, or disciplinary demarcations. As such, students of Comparative Literature achieve a greater awareness of certain boundaries involved in the traditional study of literature—national, linguistic, generic, disciplinary, etc.—and of the issues and advantages involved in crossing those boundaries. In this concentration, students willing to acquire additional linguistic and disciplinary skills will develop the habits and tools necessary to address problems or topics of interest from a number of literary and disciplinary perspectives.

Majors who complete all the requirements for this course of study will be granted a B.A. in English with an Interdisciplinary Concentration in Comparative Literature.
ARTS AND SCIENCES CURRICULA

Concentration Requirements:
A. Three credit hours: English 391/IDST 391: Methods and Themes in Comparative Literature
B. Six credit hours in upper-level literature courses from either the Modern Languages or Classics Departments, in the original language.
C. Six credit hours in fields outside of literature. (Students will choose from ancillary fields like philosophy, art history, religious studies, etc., in support of their research concentration, and subject to approval of concentration coordinator).
D. Three credit hours: A three-credit independent study culminating in a substantial research project. Honors students could use this research project as their Honors Thesis.

Interdisciplinary Concentration in Dramatic Studies for English or Theatre Majors

The Interdisciplinary Concentration in Dramatic Studies, approachable by English and by Theatre majors, structures the curriculum bridging the fields. Drama is both text and performance; both conceptions are valuable to the dramatist or to the student of drama. English classes analyze the structure and linguistic achievement of playscripts, surveying the canon of great and important plays through the centuries. Theatre classes emphasize the production principles and techniques required to transfer the playwright’s conception from the page onto the stage. Majors who complete all requirements for this course of study will be granted a B.A. in English with an Interdisciplinary Concentration in Dramatic Studies or a B.A. in Theatre with an Interdisciplinary Concentration in Dramatic Studies.

Concentration Requirements:
A. Twelve credit hours chosen from designated courses to include one course from the student’s major department and three from the student’s non-major department (normal prerequisites can be modified with the consent of the instructor). Students will choose from among the following:

English (ENGL)
327 Modern Drama (taught at least every two years)
328 Contemporary Drama (taught at least every two years)
359 Creative Writing: Poetry and Drama (taught every year)
399 Selected Topics, as appropriate
403 Shakespeare to 1600
404 Shakespeare after 1600
406 Critical Approaches to Shakespeare
411-452 Topics Seminars, as appropriate

Theatre (THTR)
212 Basics of Acting (taught every semester)
308 Basics of Directing
309 Theatre History (taught on a two-year rotation)
312 Special Topics, as appropriate (including Modern Theatre History and History of the Musical)
325 Script Analysis (taught on a two-year rotation)

B. A final senior-level paper or project, taken as Independent Study (ENGL 374/THTR 315) within the major department, combining theoretical and practical approaches to an appropriately focused dramatic experience. Knowledge of theatrical tradition would be brought to bear on a contemporary challenge in playwriting, staging, acting, or criticism.

Note: Theatre majors must declare this concentration by March 15 of their third year to accommodate scheduling of production assignments.

Interdisciplinary Concentration in Medieval and Renaissance Studies for English Majors

The Concentration was created for English majors interested in deepening their knowledge of the cultures of the Middle Ages and Renaissance through interdisciplinary study. It thus requires that in addition to taking upper level courses in Medieval and Renaissance English literature, majors also explore these periods from the perspective of other academic disciplines including, but not limited to, the history of art and architecture, foreign literatures, philosophy, religious studies, and history. It is hoped that the breadth of knowledge and intellectual flexibility that interdisciplinary study fosters will enable students in this Concentration to undertake more complex kinds of research projects and achieve more sophisticated levels of critical thinking and writing than might otherwise have been possible. Majors who complete all requirements for this course of study will be granted a B.A. in English with an Interdisciplinary Concentration in Medieval and Renaissance Studies.

Concentration Requirements:
A. Three credit hours: English 390/IDST 390: Interdisciplinary Studies in the Middle Ages and Renaissance
B. Six credit hours:
- One 400 level course in Medieval literature
- One 400 level course in Renaissance literature
Students will choose from among the following:

**English (ENGL)**
- 402 Chaucer
- 403 Shakespeare to 1600
- 404 Shakespeare after 1600
- 405 Milton
- 406 Critical Approaches to Shakespeare
- 411 Topics in Medieval Literature
- 412 Topics in Renaissance Literature
- 506 Graduate Seminar in Shakespeare

Mission—School of Business
The mission of The E. Claiborne Robins School of Business is to provide business and economics education that meets the highest national standards at the undergraduate level and addresses regional needs at the graduate level. Teaching, intellectual contributions, and service are the components of our mission and are stressed in the following order:

Teaching
Our faculty is highly aware and sensitive to the diverse educational needs of our students and is continuously engaged in improving its teaching skills and content.
~ The faculty engages in activities that enhance the communication of knowledge and is actively involved in creating new instructional materials and presentation methodologies.
~ The School is pursuing interdisciplinary opportunities with other schools or departments of the University, and with external constituencies in order to develop our students into capable leaders and effective citizens.
~ Our faculty is actively involved in educating leaders who can contribute to business in a continuously changing global environment.
~ Our programs are targeted to students at different stages in the development of their careers.

Intellectual Contributions
Scholarly work that provides significant insights into business and economic theories, analysis, practices and policy, as well as interdisciplinary inquiry, are both valuable and consistent with our mission.
~ The faculty engages in interdisciplinary inquiry, drawing from the various disciplines of the University.
~ Scholarly work that is innovative and provides significant contribution to instruction in the various disciplines is encouraged.

Service
The faculty of the School of Business play an active role in interacting with their professional, University, and community constituencies.
~ Business and government leaders and alumni are frequently called upon to add relevance to our mission.
~ We actively encourage professional relationships between departments, with other schools in the University, and with other universities and professional organizations.
~ The faculty shares knowledge with the business community through work assignments, seminars, internships, research, and involvement in community service organizations.
~ The faculty of The E. Claiborne Robins School of Business also is engaged in activities that will shape the future of the School and the University.

The School of Business offers the degree of Bachelor of Science in Business Administration. In addition to satisfying the general degree requirements for graduation, candidates for a business degree must complete the curricular requirements outlined in the sections which follow and maintain at least a 2.00 grade point average on all School of Business coursework. Other degree requirements include: (1) completing an approved personal
portfolio (guidelines available from the Portfolio Office) containing examples of student work and (2) completing two courses which emphasize speech and presentation skills. (The designation in the Business School is SPS. Courses may be available in Liberal Arts under a different designation.)

**Portfolio/Personal Development Program**

Students seeking a degree from the School of Business will participate in the Student Portfolio/Personal Development Program. Through a process of inductive learning and educational planning, this program aims to strengthen the development of critical skills in business school students. These skills include: integrating basic technical knowledge, skills and abilities into all areas of business; creatively solving complex business problems; communicating in a highly effective manner; initiating, organizing, and leading change; and engaging in appropriate ethical and professional behaviors. Students will be required to attend programming and complete assignments associated with this program each semester. They will also create and maintain dynamic, interactive virtual portfolios of personal goals and achievements related to their continuous development in each of these competency areas.

**Bachelor of Science in Business Administration**

**I. General Education Requirements**

Courses used to satisfy the First-Year Core Course, the Communication Skills, and the Wellness requirements of the General Education Requirements may not be used to meet the fields-of-study requirements for the degree. The First-Year Core Course must be taken in the first year of matriculation. The Communication Skills and the URAWARE Wellness requirements are normally met in the first year of university study, and should not be postponed beyond the second year.

**A. First-Year Core Course**

A student may satisfy this requirement by passing CORE 101-102.

**B. Communication Skills I - English 103**

A student may satisfy this requirement by meeting one of the following alternatives:

1. Passing English 101-102 (no longer offered at the University of Richmond), completing English 103 with a grade of C (2.0) or higher, or presenting a score of 5 or 4 on either Advanced Placement Exam in English, or presenting a core of 5, 6, or 7 on the IB Higher Level English Exam

2. Presenting a score on the SAT-II Subject Test - Writing/English Composition or the ACT acceptable to the Department of English

*Only alternative (1) carries semester hours credit toward a degree.*

**C. Communication Skills II - Foreign Language**

A student may satisfy this requirement in a modern foreign language or in a classical language by meeting one of the following alternatives:

1. Passing the intermediate (122 or 202) level of one language, presenting a score of 5 or 4 on a Modern Foreign Language or Latin Advanced Placement test, or presenting a score of 5, 6, or 7 on an IB High Level exam in a Modern Foreign Language

2. Presenting a score on the SAT-II Subject Test acceptable to the language faculty concerned, or a score of 3 on a Modern Foreign Language Advanced Placement test

3. Making an acceptable score on a departmental placement test

4. For non-native English speakers, obtaining an acceptable score on the TOEFL

*Only alternative (1) carries semester hours credit toward a degree.*

**D. Wellness Requirement**

A student may satisfy this degree requirement by satisfactorily completing Wellness 085, URAWARE: Alcohol Awareness Program, and two sections of Wellness 090, PLUS2: Wellness Topics.
E. Fields of Study
A student may satisfy the fields-of-study requirements by passing one approved course in each of the areas of historical studies, literary studies, social analysis, symbolic reasoning, and visual and performing arts, and two approved courses in natural sciences from two different subject areas. Such courses must have been approved by the General Education Committee and the faculties of the Schools of Arts and Sciences, Business, and Leadership Studies as meeting these requirements.

Courses meeting general education requirements are designated in this catalog following the course description, as well as in the Schedule of Classes. All courses used to meet general education requirements must be passed with a grade of D- (.7) or higher, with the exception of English 103, which requires a C (2.0) or higher. No general education courses may be taken Pass/ Fail.

IV. Major Fields
A student must complete a major field in addition to the core courses.

The Accounting Major (four-year program)

Required Accounting courses:
The major in accounting requires the following 18 hours of accounting courses:
301-302 Intermediate Financial Accounting I, II
305 Cost and Managerial Accounting
307 Accounting Information Systems
312 Tax Accounting
317 Auditing

Electives:
Students must take one of the following accounting courses:
316 Advanced Managerial Accounting
319 Financial Accounting Theory and Issues
329 Survey of Accounting Theory

Students must also take three additional hours of Economics (Economics 274 cannot be taken for this elective credit).

Other Requirement: Students must earn a minimum of 90 hours of academic credit outside of the accounting discipline. Students must obtain a grade point average of no less than 2.0 in the accounting coursework comprising the major.

Substitutions in the accounting major are permitted if approved by the chair of the Department of Accounting.

The Professional Accounting Major (150-hour program)

Required Accounting courses:
The major in professional accounting requires the following 18 hours of accounting courses to be taken prior to a student's final year:
301-302 Intermediate Financial Accounting I, II
305 Cost and Managerial Accounting
307 Accounting Information Systems
312 Tax Accounting
317 Auditing

The following nine hours of accounting courses must be taken in a student's final year:
329 Survey of Accounting Theory

Six additional hours of accounting courses (if a student participates in the International Experience described below, Accounting 315, International Accounting Issues, must be taken as part of this six hour requirement).

Experience: A student must complete one of the following two experiences, normally in the second semester of the student’s fourth year of study.
Internship: An approved work experience with an accounting firm, business organization, or other entity for a minimum of 15 weeks. An approved academic component must be included. The internship will carry three hours of academic credit.
International Program: The international experience will be an educational opportunity at an approved foreign university where the student will be expected to earn at least 12 hours of academic credit.

Other Requirement: Students must earn either a major or minor in an area of study outside of business. Students must earn a minimum of 150 hours of academic credit, 113 of these hours must be earned outside of the accounting discipline, and at least 50 percent of the total academic hours in courses outside business. Students must obtain a grade point average of no less than 2.0 in the accounting coursework comprising the major.

Substitutions in the accounting major are permitted if approved by the chair of the Department of Accounting.

The Business Administration Major

Concentration area:
Twelve hours minimum chosen from a single Business School department except the Department of Accounting. A maximum of 15 hours can be taken in any area of concentration. No more than six hours of the concentration may be required by a department.
Electives: 24 hours of which three hours must be in Economics and three hours in leadership studies or liberal arts. Economics 274
cannot be taken for elective credit. Business Administration majors must choose a concentration from the following areas: Economics, Finance, International Business, Marketing, or Management Systems.

**Economics Major**

Students who complete all of the requirements for the degree of Bachelor of Science in Business Administration can major in economics. Business Administration students may apply Business Administration 301 toward the 30 semester hours of economics required for the major.

Required courses for the major include: Economics 101, 102, 270, 271, and 272; four economics electives (two of which must be at the 300 level); and ECON 380, Senior Capstone Experience. In addition: BUAD 203, Software Tools and Applications; and 18 semester hours in closely related fields are required, 12 hours of which must be at the 300-level (degree requirements for the School of Business satisfy this requirement for the major).

**Note:** A grade point average of C (2.00) is required in the major, with no course grade below a C- (1.7) in Economics 271 and 272. Majors are strongly encouraged to take Economics 101 and 102 during their first year, and Economics 271 and 272 during their second year.

Students may plan their course load to pursue a general degree in Economics or to study a specific area in Economics. Voluntary elective fields have been developed in the areas of Business Economics, International Economics, Economic History, Public Policy and Quantitative Economics. Students are encouraged to speak with their academic advisor about the options available to them. Students interested in pursuing a graduate degree in Economics are encouraged to take Math 235, Multivariate Calculus; Math 240, Differential Equations; and Math 245, Linear Algebra.

(B) Complete an international work experience at a U.S. based or foreign firm. If this requirement is completed in a foreign country, it fulfills the above requirement to work or live in a foreign country.
NOTE: Courses taken at an approved foreign university may be transferred back to the University of Richmond to satisfy international business concentration requirements, one concentration elective, one core course not in concentration, and business electives required by The E. Claiborne Robins School of Business. All such courses must be approved by the Director of International Business Studies. Approval by the respective Department Chairperson is required to meet concentration requirements. Coursework in subjects outside the Business School must also be approved by the appropriate Departmental Chairperson. Approval prior to enrollment guarantees fulfillment of requirements.

The Business Administration Minor

Requirements:
Completion of Economics 101-102 and 21 semester hours in business school coursework, including:

Accounting (ACCT)
201 Fundamentals of Financial Accounting
202 Fundamentals of Managerial Accounting

Business Administration (BUAD)
201 Business Statistics

Marketing (MKT)
320 Marketing Management

Management Systems (MSYS)
330 Organizational Behavior
340 Operations Management

Finance (FIN)
360 Principles of Financial Management

The Business Minor student should complete the Accounting 201-202 and Economics 101-102 requirements prior to enrolling in any other business administration course.

Where the course numbers for a two-semester course are separated by a hyphen, generally, either half of the course may be taken independently for credit and in any order unless a prerequisite is stated.

Note: Undergraduate courses at the University of Richmond long were numbered in the range 0-399, with 300-level being the most advanced. Beginning with the 1990 fall term, undergraduate course numbers may extend through the 400-level denoting senior level courses; however, not all departments have renumbered their courses. Therefore, it should not necessarily be concluded that a department with 400-level courses has more advanced offerings than a department having only 300-level courses as its highest.

General Prerequisites: Except by permission of the Dean, Accounting 201-202, Economics 101-102 and Business Administration 201 are prerequisites to all other courses in the School of Business. The business minor program requires a student to complete Accounting 201-202 and Economics 101-102 prior to taking any other business class.

JEPSON SCHOOL OF LEADERSHIP STUDIES

The Jepson School of Leadership Studies offers the degree of Bachelor of Arts. To earn this degree a candidate must complete satisfactorily the curricular requirements outlined in the following sections and meet the general degree requirements previously stated under “Graduation” in the chapter “Academic Procedures.”

Bachelor of Arts

I. General Education Requirements

Courses used to satisfy the First-Year Core Course, the Communication Skills, and the Wellness requirements of the General Education Requirements may not be used to meet the fields-of-study requirements for the degree. The First-Year Core Course must be taken in the first year of matriculation. The Communication Skills and the URAWARE Wellness requirements are normally met in the first year of university study, and should not be postponed beyond the second year.

A. First-Year Core Course

A student may satisfy this requirement by passing CORE 101-102.

B. Communication Skills I - English 103

A student may satisfy this requirement by meeting one of the following alternatives:

1. Passing English 101-102 (no longer offered at the University of Richmond), completing English 103 with a grade of C(2.0) or higher, or presenting a score of 5 or 4 on a Modern Foreign Language or Latin Advanced Placement exam in English, or presenting a core of 5, 6, or 7 on an IB High Level exam in a Modern Foreign Language

2. Presenting a score on the SAT-II Subject Test acceptable to the language faculty concerned, or a score of 3 on a Modern Foreign Language Advanced Placement test

3. Making an acceptable score on a departmental placement test

4. For non-native English speakers, obtaining an acceptable score on the TOEFL

Only alternative (1) carries semester hours credit toward a degree.

C. Communication Skills II - Foreign Language

A student may satisfy this requirement in a modern foreign language or in a classical language by meeting one of the following alternatives:

1. Passing the intermediate (122 or 202) level of one language, presenting a score of 5 or 4 on a Modern Foreign Language or Latin Advanced Placement test, or presenting a score of 5, 6, or 7 on an IB High Level exam in a Modern Foreign Language

2. Presenting a score on the SAT-II Subject Test acceptable to the language faculty concerned, or a score of 3 on a Modern Foreign Language Advanced Placement test

3. Making an acceptable score on a departmental placement test

4. For non-native English speakers, obtaining an acceptable score on the TOEFL

Only alternative (1) carries semester hours credit toward a degree.

D. Wellness Requirement

A student may satisfy this degree requirement by satisfactorily completing Wellness 085, URAWARE: Alcohol Awareness Program, and two sections of Wellness 090, PLUS2: Wellness Topics.

E. Fields of Study

A student may satisfy the fields-of-study requirements by passing one approved course in each of the areas of historical studies, literary studies, social analysis, sym-
bolic reasoning, and visual and performing arts, and two approved courses in natural sciences from two different subject areas. Such courses must have been approved by the General Education Committee and the faculties of the Schools of Arts and Sciences, Business, and Leadership Studies as meeting these requirements.

Courses meeting general education requirements are designated in this catalog following the course description, as well as in the Schedule of Classes. All courses used to meet general education requirements must be passed with a grade of D- (1.7) or higher, with the exception of English 103, which requires a C (2.0) or higher. No general education courses may be taken Pass/Fail.

Summary of General Education Requirements

First-Year
Core Course, 6 credits

Communication Skills

The J. Stanton Pierce Award, established in 1971 by friends and former students of Dr. Pierce, is a cash prize given to a junior chemistry major who, in the opinion of the Department of Chemistry faculty, will most likely reflect credit on the University and the Department.

The Clarence J. Gray Achievement Awards for Excellence in Scholarship and Leadership were established in 1973 by members of the Class of 1953, Richmond College, in honor and recognition of their classmates and his efforts over the years to encourage outstanding achievement in these fields. These awards, one each in Richmond College, Westhampton College, and The E. Claiborne Robins School of Business, are given annually to the graduating senior in each division who is a member of both Phi Beta Kappa (or Beta Gamma Sigma) and Omicron Delta Kappa (or Mortar Board), as applicable, and who is adjudged to have the outstanding four-year record in scholarship and leadership at the University of Richmond. Recipients are selected by a committee of designated officials and student representatives.

The Clarence E. Denoon Scholarship Award in the Natural Sciences, established in 1974 by Dr. Clarence E. Denoon, Jr. in memory of his father, is given annually to a senior for excellence in the natural sciences, as determined by the faculty of the science departments.

The Roy Jesson Music Prize, established in 1974 by the friends of Dr. Jesson, is a cash prize given annually to a student of music who excels in performing, conducting, or composing.

The John Neasmith Dickinson Research Awards for Undergraduates, established in 1977 in memory of John Neasmith Dickinson by his family and friends, are awarded annually to a biology major and a psychology major to aid in carrying out research projects during the recipients’ senior year.

The Helen Reba Humbert Senior Award, established in 1977 in memory of Helen Reba Humbert by her family and friends, is given annually to a graduating senior man or woman on the basis of athletic, leadership, and scholastic attributes.

The Philip Frederick, Jr., Memorial Award in Art, established in 1981 by Ann P. Frederick, is awarded to a student in studio art or art history on the basis of character, ability, and academic excellence as determined by the departmental chair and faculty of the Department of Art.

The Margaret L. Ross Award, established in 1982 by a Westhampton College alumna in memory of Professor Margaret L. Ross, is awarded to the best all-around graduating senior in English in Westhampton College.

The James W. Jackson Award, established in 1983 in honor of James W. Jackson, Social Science and Documents Librarian, 1974-1985, is awarded annually to the junior or senior student enrolled in an upper-division course who has completed the most outstanding research paper in education, health and sport science, history, political science, psychology, or sociology.

The Mary Madison Bowen Award, established in 1985 by Dr. J. Van Bowen in memory of his mother, a Westhampton College alumna, is given annually to the graduate most proficient in Latin.
The Priscilla Potcat Humbart Award, established in 1985 in memory of Priscilla Potcat Humbart by the Department of Health and Sport Science and friends, is awarded annually to a graduating student who exemplifies qualities of humanitarianism, leadership, and scholarship.

The E. Bruce Heilman Leadership Award, established in 1986 by the undergraduate student government associations, is awarded annually to a graduating senior who has demonstrated outstanding character and leadership in service to the University.

The James A. Sartain Award, established in 1986 by the Department of Sociology in memory of Dr. James A. Sartain, Professor of Sociology, 1965-1986, is awarded to the sociology student who best exemplifies the qualities personified by Dr. Sartain: scholarship, humanitarianism, integrity, and commitment to the ideals of the University.

The Frances W. Gregory Award, established in 1987 in honor of Dr. Frances W. Gregory, Professor of History, 1950-1980, is a cash prize awarded to the best graduating senior in history in Westhampton College. Nominations for the award are initiated by the faculty of the Department of History.

The Joseph C. Robert Award for Achievement in Scholarship and Leadership, established in 1987 by the Department of History in honor of Dr. Joseph C. Robert, Professor of History, 1964-1971, is awarded to a graduating history major for outstanding scholarship and leadership in the department and University. Nominations for the award are initiated by the faculty of the Department of History.

The Lynn C. Dickerson Award, established in 1988 by Dr. Lynn C. Dickerson, is awarded to the outstanding graduating senior in the Department of Religion as determined by the faculty of the Department of Religion.

The Robert F. Smart Award in Biology, established in 1988 by Dr. Robert F. Smart, is awarded by the Department of Biology faculty to the Richmond College or Westhampton College junior or senior biology major for the most outstanding research proposal for summer research.

The Jackson J. Taylor Best Senior Seminar in Physics Award, established in 1989 in honor of Professor Jackson Johnson Taylor, Professor of Physics, 1948-1986, by the Taylor and Hesch children to recognize the student judged by the faculty of the Department of Physics to have presented the best senior seminar.

The Bobby Chandler Awards in Art and Music, established in 1989 by Mr. Horner H. “Kip” Kephart in memory of Mr. Bobby Chandler, are cash prizes awarded each to an outstanding art major and to an outstanding music major as selected respectively by the faculty of the Department of Art and by the faculty of the Department of Music.

The Computer Science Prize, established in 1990 by Mary Church Kent and Joseph F. Kent, is a cash prize awarded annually to the outstanding graduating senior in computer science as determined by the faculty of the Department of Mathematics and Computer Science.

The Philip R. Hart Prize, established in 1991 by friends and former students of Dr. Hart, awarded by the Department of Religion to an undergraduate student whose scholarly attainment in the study of religion and achievement in student leadership stand in the tradition of those contributions and commitments of Professor Hart.

The Renée Elmore Memorial Scholarship, established in 1993 in memory of Miss Renée Elmore by the Class of ’93 and her parents and friends, supports current and future UR students in their progress toward graduation. This scholarship is unique in that students wrote the criteria, raised the money, and select the recipient each year. Miss Elmore would have graduated with the Class of 1993.

The James MacGregor Burns Award, established in 1994 by Mr. and Mrs. Robert S. Jepson, Jr., is given to a graduating senior in recognition of his or her accomplishments as a student in the Jepson School of Leadership Studies. The winner of the award has demonstrated an outstanding grasp of knowledge associated with leadership studies, excelled in his or her studies at the University generally, been actively involved in service to the school, University, and community, shown an ability to generalize and apply leadership theory and research in unique and imaginative ways, and has displayed the capacity to both lead others and help others lead themselves.

The Hesch Award, established in 1995 by the family of Dr. C. J. Hesch, is awarded annually to an outstanding student who has made significant contributions to the music department through participation in ensembles, applied lessons, and/or classes.

The R. E. Loving Book Awards, granted annually by the Epsilon Chapter of Virginia of Phi Beta Kappa, are presented to the student from Richmond College and the student from Westhampton College with the best academic records based upon the first four semesters of work.
